## GREB WINS IN SLASHING BOUT; WEINERT K. O. D

Record Crowd Given Many Thrills at Milk Fund Bout in New York—Dave Shade Springs Big Surprise By Putting Out Slattery.

NEW YORK, July 3.—(A. P.) The world's middleweight ring crown was still snugly fitted to the head of Harry Greb today after fifteen tempestuous rounds of fighting with Mickey Walker, welterweight king. There was the final bout of four thrilling struggles for charity last night in the ring of the Polo grounds marked by two stunning knockouts.

Harry Will's veteran negro heavy-weight challenger, took only two rounds to dispose of the Newark come back, Charley Weinert.

Jimmy Slattery, sensational Buffalo, N. Y., middleweight, fell an unexpected victim to a furious attack from the Golden Gate center in the fast flying fists of Dave Shade. Floored three times in the third round Slattery was saved from a ton kick when his seconds tossed in the towel.

Jack Sharkey and Joe Lynch, rival veteran bantams, fought a four round draw.

For thirteen rounds of a bruising tussle with Walker, Greb fought at close quarters. Then he fat tossed.

Coming out of his corner in the fourteenth, with a terrific right, he spun the challenger around with a blow to the jaw. Another right found the same mark as Walker went to the ropes and for the first time since he became champion of the 147-pounders, the Elizabeth, N. J., boy was staggered and groggy.

Greb leaped upon Walker and drove him from rope to rope. The challenger, his face bleeding from steady pounding, strove to protect himself and then, in one final effort, he lashed out with right and left at the astonished Greb.

The rally kept the middleweight champion at bay until the bell, and he went vigorously after a knockout in the fifteenth, but instead of a winning foe, he found a wounded lion. Six times Walker ripped sledge-hammer drives into the Pittsburgh man's stomach until Greb, recovering, went back at his opponent.

The crowd of 65,000 was electrified by the spectacle of two champions belting each other. Thus the final bell found them—Greb majestic in a clever and decisive victory over a foe he outweighed at 159 by seven pounds and Walker, great in an exhibition of fighting pluck which cost him none of his prestige as a champion welterweight.

The battle had the spectators on their toes throughout with its speed, Walker, a dangerous nutter at a distance, was given few opportunities to mix an he would liked to have done. Greb, quickly took the fight to close quarters where he used his weight and every trick he knew to find Walker with a flying right that never ceased in its windmill journey.

Wills, who has for several years perched on Jack Dempsey's door step, has muscles that are still limber and strong. At 212 pounds he had a 28 1/2 pound weight advantage on Weinert. Wills quickly put Weinert on the defensive in the first round, and then finished him after one minute and 45 seconds of the second. Perhaps Jack Kearns took note, if he sneaked into the fight from which the state commission barred him because he would not match Wills and Dempsey.

Jimmy Slattery's defeat gave the crowd its greatest shock of the night. Slattery had been winning spectacular fights in New York and was a strong favorite. The clever Slattery could not solve the crouching, bounding, Golden Gate enigma. A sharp left hook in the third caught Slattery squarely on the button and he went down, to come up at the count of nine. Down he went twice more. Then as he was stumbling around the ring, a towel fluttered from his corner.

They weighed: Shade, 152; Slattery, 162 1/2.

## DEMPSEY CLAIMS HE WANTS ACTION, BUT CAN'T GET IT

LONDON, July 3.—(A. P.)—Jack Dempsey, in a signed article to be published in the Weekly Dispatch on Sunday, says:

"I am unemployed because there are so few fighters who will be giving the public a good show for their money if we meet. Nobody is more anxious to get into the ring than I am." The champion sees little prospect of any work before July of next year, when he is to meet Gene Tunney. He declines suggestions that he is holding out for high prices, declaring his willingness to fight at any time on a percentage basis. Advance notices of the article were given out today.

## The Winner and Vanquished

Above are photographs of Wills, the negro heavyweight, and Weinert, whom he knocked out last night in New York.

## How to Show Your Colors, July 4th

The flag should be displayed only from sunrise to sunset, or between such hours as may be designated by proper authority. It should be displayed on national and state holidays and on historic and special occasions. The flag should always be raised briskly and lowered ceremoniously.

When carried in a procession with another flag or flags, the flag of the United States should be either on the marching right, i. e., the flag's own right, or when there is a line of other flags the flag of the United States may be in front of the center of that line.

When displayed with another flag against a wall from crossed staffs, the flag of the United States should be on the right, the flag's own right, and its staff should be in front of the staff of the other flag. When a number of flags are grouped and displayed from staffs, the flag of the United States should be in the center or at the highest point of the group.

Always at the Peak. When flags of states or cities or remnants of societies are flown on the same halyard with the flag of the United States, the national flag should be always at the peak. When flown from adjacent staffs, the flag of the United States should be hoisted first. No flag or pennant should be placed above or to the right of the flag of the United States.

When flags of two or more nations are displayed they should be flown from separate staffs of the same height and the flags should be of approximately equal size. International usage forbids the display of the flag of one nation above that of another in time of peace.

When the flag is displayed from a staff projecting horizontally or at an angle from the window sill, balcony or front of building, the union of the flag should go clear to the head of the staff unless the flag is at half mast.

Suspend it Vertically. When the flag of the United States is displayed in a manner other than

being flown from a staff it should be displayed flat, whether indoors or out. When displayed either horizontally or vertically against a wall, the union should be uppermost and to the flag's own right, i. e., to the observer's left. When displayed in a window it should be displayed the same way; that is, with the union or blue field to the left of the observer in the street. When festoons, rosettes or drapings of blue, white and red are desired, bunting should be used, but never the flag.

When displayed over the middle of the street, as between buildings, the flag of the United States should be suspended vertically with the union to the north in an east-and-west street, or to the east in a north-and-south street.

When used on a speaker's platform, the flag should be displayed above and behind the speaker. It should never be used to cover the speaker's desk nor to drape over the front of the platform. If flown from a staff it should be on the speaker's right.

Its Place in Church. When used in unveiling a statue or monument, the flag should not be allowed to fall to the ground, but should be carried aloft to wave out, forming a distinctive feature during the remainder of the ceremony.

When the flag is displayed in church it should be from a staff placed at the congregation's right as they face the clergyman. The service flag, the state flag, or other flags should be at the left of the congregation. If in the chance of the flag of the United States should be placed on the clergyman's right as he faces the congregation and other flags on his left. When the flag is in such condition that it is no longer a fitting emblem for display, it should not be cast aside or used in any way that might be viewed as disrespectful to the national colors, but should be destroyed as a whole preferably by burning or by some other method in harmony with the reverence and respect we owe the emblem representing our country.

## DEFENSE FILES INJUNCTION

(Continued from page one.)

The newspaper says its information was received from Bob Matthews, Mr. Sunday's secretary, at Carrollton, Ky. Mr. Sunday is at his home in Hood River, Ore., where the letter containing the invitation has been sent.

HOOD RIVER, Ore., July 3.—(A. P.)—The Rev. William A. Sunday was not at home today, but Mrs. Sunday, better known as "Ma," when told by the Associated Press, that her husband had been invited to assist in the prosecution of John T. Scopes, Tennessee teacher of evolution, said: "I know he won't do it."

## Fair and Normal.

SAN FRANCISCO, July 3.—The weather outlook for the week beginning July 5 was announced here today by the United States weather bureau as follows:

For California, Oregon and Washington—Fair weather and normal temperature, but with considerable clouds and fog along the coast. Normal fire hazard is indicated for grain fields and the forested areas.

With Medford trade is Medford made

## MEDFORD BOY TO CARRY IRON PIPE IN AIR TO MINE

The fact that 177,000 pounds of iron pipe and fittings will be transported by airplane a distance of 50 miles from Iron Mountain, Mont., to a placer mine located in the Clearwater, Idaho, region according to Ivo McKinney, a former Medford boy, who will be in charge of the transportation of the mighty bulk of metal.

The mine to which the iron is to be transported lies beyond a huge mountain range, and the only means of access it has to the outer world is by pack trail which, of course, is a very slow means of travel. The mining company realizing this made a new departure by entering into negotiations with McKinney, who as a result, will use two airplanes in carrying the iron. Six months time will be saved by the faster means of travel, it is said. Each plane will carry 600 pounds of the metal and will make a round trip in one hour and one half, while the slow-going donkey could carry but 200 pounds and make the trip in four days. A landing field is being prepared on the top of the mountain large enough for landing purposes.

Mr. McKinney will commence the work about the 16th of this month, at which time Pathe News cameras will be on the scene to record the transportation of the first load.

He has been visiting his parents in the city for several days and early this morning departed in his 3-passenger plane for Myrtle Point, where he will take part in the 4th of July celebration in that city. He will return to Medford the earlier part of next week to spend several days, before setting out on his return to Wallace, Idaho, from whence he came a few days ago. When flying back to that city he will go by way of Klamath Falls and eastern Oregon, but when he came to the city, it was by way of Portland. The three hundred or more miles which he traversed from Portland were traversed by him in the surprising time of three hours and forty minutes.

## BASEBALL SCORES

### American League.

NEW YORK, July 3.—(A. P.)—Wally Pipp, Yankee first baseman who suffered concussion of the brain when hit by a pitched ball yesterday, is much improved, hospital authorities said today. He will be unable to leave the hospital for at least two weeks and the possibility of his being available for play in a month is remote.

## PEACE PACT ENDORSED

(Continued From Page One)

tion and by forms of judicial determination. "While our own country should refrain from making political commitments where it does not have political interests, such covenants would always have the moral support of our government, and could not fail to have the commendation of the public opinion of the world. Such a course would be sure to endow the participating nations with an abundant material and spiritual reward.

On what other basis can there be any encouragement for a disposition to attempt to finance a revival of Europe? The world has tried war with force and has utterly failed. The only hope of success lies in peace with justice. No other principle conforms to the teaching of Washington; no other standard is worthy of the spirit of America; no other course makes so much promise for the regeneration of the world."

CAMBRIDGE, Mass., July 3.—(A. P.)—President Coolidge arrived in Cambridge from Swampscott at 1:38 P. M., daylight saving time, today to lead and later review a parade ending at Cambridge commonwealth where Washington took command of the Continental army 160 years ago. A presidential salute was fired from army cannon as the president's automobile approached the Walker Memorial building on the Massachusetts Institute of Technology campus where the parade started. Chief of Police McBride estimated that 150,000 persons were in the city to see the parade.

SANTA BARBARA HIT AGAIN (Continued from page one.)

SANTA BARBARA, Cal., July 3.—(A. P.)—A sharp earthquake shock occurred here at 8:39 this morning and lasted about five seconds. The vibrations loosened a few bricks and widened the cracks in some of the shattered walls. A few wrecked chimneys toppled to the ground but no other damage resulted as far as is known. Several other shocks followed throughout the morning.

Reporters of the Santa Barbara News made a hasty survey of the city and found only nominal damage. The towers of the old mission shed a few more pounds of stone and mortar and the walls were cracked a little more, but the old structure still stands as it did after the heavy quake on Monday.

St. Anthony's college and the St. Francis hospital, which were badly wrecked on Monday, suffered little additional damage. Both are still standing. In one or two places plumb lines were wrenched and broken but the power lines and gas pipes that had been repaired were not disturbed.

As a result of the shock this morning there were wild rumors concerning the damage, but they proved to be without foundation or exaggeration. One report said that the mansion of C. K. G. Billings of Chicago, which is located in Montecito, had been destroyed. A detail of police and a newspaper man visited the place and found the buildings of the estate in practically the same condition as after the quake Monday. Some plaster fell but the employes say that the building did not suffer to any serious extent today.

A few persons who were working in wrecked or damaged buildings were bruised in their scramble to get out, but a visit to the Cottage hospital where the quake sufferers are cared for, shows that not a single person has been added to the injured list up to 10:15.

The city officials report that the city hall, which escaped practically undamaged in the first shock Monday, suffered a little damage in this morning's quake.

Several large cracks appeared in the walls, but the damage is not regarded as serious.

The reconstruction commission was in session in the city hall at the time of the shock and in the rush to get from the building, City Manager Herbert Nunn, who has been laboring under strain and working incessantly since Monday, slipped and fell on the stairway. He was taken home but is not thought to be badly hurt.

One of the best exhibitions of cold nerve ever seen in time of stress was furnished by the Associated Press operator in the office of the Daily News. When the building began to rock he opened the key and announced the quake to the outside world and took out his watch to time the duration of the shock as he watched the buildings roll and rock.

A second hard jolt came at 10:21, which did not help the nerves of the people but did not damage.

DO YOU KNOW What It Costs to Bathe a Baby?

In the days past it cost a lot of worry and work waiting for the water in the kettle to boil.

Today a baby's bath means a turn of the faucet, a penny or two.

The GAS WATER HEATER does the trick.

Does it for the cost of a newspaper. We have had experience in the heating of water and we are glad to give our customers the benefit of this experience at their request.
