OREGON GETS 2ND PLACE CHRISTIAN ENDEAVOR CONTEST

PORTLAND, Ore., July 9.—(A. P.)—California, represented by Marie Reynolds of Merced, carried off first honors today in the Christian Endeavor oratorical contest which featured the morning session of the biennial convention of the organization.

Miss Reynolds was awarded a gold medal by President Emeritus Francis E. Clark.

Oregon won second prize in the oratorical contest with Lois Tuttle of Forest Grove as its representative. Emblems as tokens of honorable mention were awarded to Estelle Baldwin of Washouak, Wn., and David H. Taylor of Boise, Idaho.

In a report on the society's growth, Secretary Howard P. Gates said today that 9732 new Christian Endeavor societies had been organized in the past two years, of which 6090 had been formed in the last two months. Secretary Gates said that 4316 young members had promised to tithe their incomes with the church and that 1028 had promised to give all their time by serving as ministers or missionaries at home and abroad.

Gates said he expected 500,000 more young people to join the society by September. He said it is the greatest institutional influence for uniting the various Protestant denominations.

Poorly ventilated motion picture shows contribute liberally toward the support of physicians.

PLEDGE RE-SURVEY UMATILLA RAPIDS BY GOVERNMENT

PORTLAND, Ore., July 8.—(A. P.)—Resurvey of the Umatilla Rapids reclamation project was promised here today by Elwood Mead, Commissioner of Reclamation, following conferences with parties interested in the project. Commissioner Mead also said the Deschutes project would be given consideration but that there was no hope for an appropriation this year.

Settlers on Stanfield, Furnish and other small projects in Umatilla county were told they would have to wait for necessary relief from water shortage.

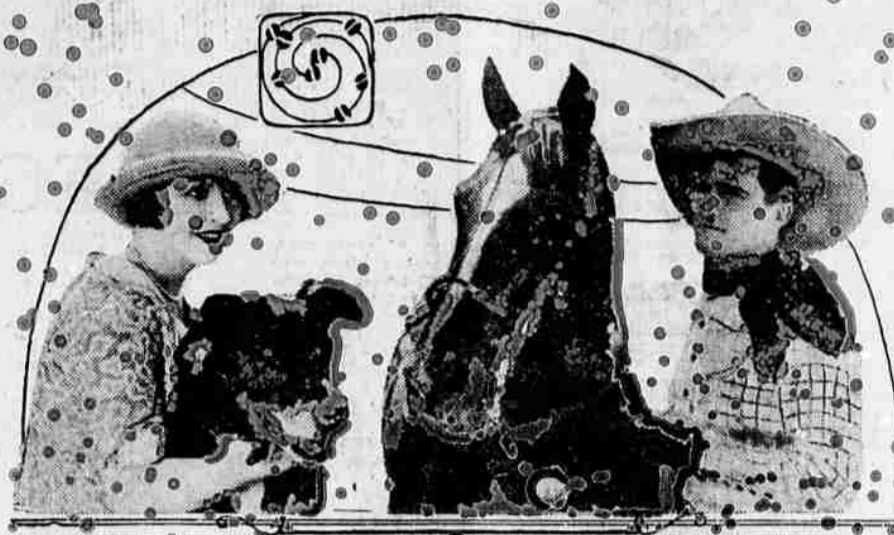

Fred Steever of Pendleton was chief spokesman for the representatives. Representatives of the Furnish and Stanfield projects who are under contract to buy from the government water embayment in the McKee dam, told the commission that they are unable to get water on their land because of impregnancy of ditches; that the land is settling and the districts are fairly prosperous. The additional water is needed for additional area under the project.

Mead said this proposal is a new aspect and the government has not the money available for taking over the numerous small projects with like problems. If one is added all must be aided, he said. He said he sympathized with them but could promise them no immediate relief.

Congressman N. G. Sinnott sat with Mead during the hearings.

To what extent will Oregon aid in land settlement on the Owyhee and Warm Springs projects should the federal government proceed with the development work on these projects for which appropriations have been

Romance and Adventure of a Man, Maid, Horse and Dog

LUCY FOX, DUKE THE DOG, BONY THE HORSE, SUPPORTING TOM MIX IN "TEETH" A WILLIAM FOX SPECIAL

The rise of Tom Mix to stellar supremacy in Filmland is one of the most interesting romances of the film industry. Tom was a soldier of fortune and globe-trotter before he entered the movies and today is recognized as one of the foremost screen stars of his house, Tomy, and dog Duke.

His latest picture, entitled "Teeth" will close a three days run at the Rialto theater today. Tom, one of the foremost screen stars of his house, Tomy, and dog Duke.

After two year delay, Merrill goes to jail.

PORTLAND, Ore., July 9.—(A. P.)—Fred Merrill, former Portland councilman and former resort owner, was ordered to jail today by Federal Judge W. J. Conover after a fight in court that has lasted nearly two years. Merrill must go to jail for six months and pay a fine of \$250 following his conviction in January, 1924, of conducting a nuisance and selling liquor at a road house.

The United States district court has received a mandate from the United States court of appeals denying Merrill's petition for a new trial.

INDIAN PROBLEM A SERIOUS ONE, SAYS SECY. WORK

SALEM, Ore., July 9.—Dr. Hubert Work, secretary of the interior in the cabinet of President Coolidge, was puzzled yesterday when he inspected the Salem Indian training school at Chemawa. It was in the kitchen of the domestic science department. On a blackboard was written a note for cake baking. The cabinet member's brow wrinkled as he studied the written instructions.

"What does B. P. stand for?" he asked the instructor.

"Baking powder," answered the teacher.

Some folks in these parts are afraid Secretary Work's ideas are easy, but his conversation and his gravel can make a living after they are out of school.

winning way he questioned instructors and students as he passed through the buildings.

"You have those scissors upside-down," he said to an Indian maiden from Montana who was cutting out pieces for a garment in the domestic arts department.

"Where are you from?" he asked another.

"California," the girl replied.

"Do you want to go back there?"

"I surely do."

"That's funny," the secretary said. "I don't see why you want to go back to California when you can stay here."

"Where are you from?" Dr. Work asked an instructor in the department.

"From Alabama," the young woman said.

"She won't stay long," the cabinet member remarked to the superintendent who was showing him about the school. "When they look like that they soon get carried."

"The Indian problem is a big one, Secretary Work declared, but the big part of it is not in the schools but after the students leave the schools.

"The thing to do," he said, "is to teach them the things by which they can make a living after they are out of school."
