

### MYSTERY STUNT WILL BE SOLVED SATURDAY NIGHT

The mystery of the rather personal question, "Do you love your wife?" which has been troubling the minds of Medford citizens during the past few days promises to be solved next Saturday night somewhere in the neighborhood of 8 o'clock. So hinted the advertisement run in last night's Mail Tribune which stated that "If you do love your wife, be sure and have her down town on Saturday evening."

Other than this hint nothing further of a definite nature can be learned as to what it is all about. Rumors have it that Billy Monday plans on holding a big revival meeting here in Medford if there are a sufficient number of married men in town who do not love their wives. A revival meeting of this nature would surely do an immense amount of good in the Rogue River valley and put the divorce court at Jacksonville out of business.

Besides the revival idea there have been many possible solutions advanced by the people of Medford but none of them seem to fit very well. A road show, Merrick's Motor Inn, a new kind of candy, drink, tire or breakfast food have all been eliminated definitely by direct inquiry so that the mystery is as baffling as ever.

Such a situation makes the hinted disclosure of Saturday night of increased interest to everyone and the streets will undoubtedly be jammed by people who want to be among the first to be in on the secret and have the suspense ended.

### Gave Up Luxury to Be Film Extra, Chosen as Comedian's Leading Lady

Father was skeptical when Kathleen Myers deserted society and luxury to make a bid for fame in Hollywood. Father is S. C. Myers, wealthy Newark, N. J., steel manufacturer. Daughter, Kathleen, after two years in obscurity, has just been chosen as Buster Keaton's leading lady.

### SHENANDOAH TO BE TESTED OUT AS WAR MACHINE

WASHINGTON, July 10.—(A. P.)—Manned by a crew of 15, the dirigible Shenandoah will be tested out on the Atlantic coast with a view of determining the best means of employing rigid airships in naval war operations.

"It is to be remembered," said a navy department statement today, "that the Shenandoah was designed as a naval airship and the exercise as a test of the value of rigid airships in recomputing future expenditures on this type of aircraft."

The objects, it was said, were to include tests of the Shenandoah with a view to performing the type tests to determine the visibility of rigid airships from surface ships and vice versa, under varying atmospheric conditions; tests to determine the type and position of the defense armament that should be carried by rigid airships in time of war; tests to determine the feasibility of over-seasoning of rigid airships in time of war.

The test exercise will be a search problem in which the Shenandoah will proceed several hundred miles to sea in an effort to locate the Texas.

### BRIDE OF MONTH ASKS A DIVORCE

Local B. Johnson of Gold Hill, sued for divorce by his wife, Alice E. Johnson, after five years of matrimony, filed a motion in the circuit court Thursday, for an order to make the complaint "more definite and certain." The defendant also requests his mate to set forth "the ways and manner in which he acted as if he was sorry he married her," as alleged. Other paragraphs are asked to be stricken from the complaint on the grounds of being "incompetent, immaterial, irrelevant and redundant."

The Johnsons were married May 27. On June 26, the bride filed a suit for divorce, charging cruelty after the first week.

**Tobacco Charges Dismissed.**  
WASHINGTON, July 10.—(A. P.)—The federal trade commission has dismissed ten complaints in connection with charges of price-fixing in the tobacco industry, which names the

American Tobacco company and various jobbing organizations.

**2000 Homeless in Philippines.**  
MANILA, July 10.—More than 2000 persons have been made homeless by a typhoon which wrecked hundreds of small houses in Camarines province. On the strength of reports received here, the Red Cross today sent assistance to the stricken area.

**Germany Watches Trial.**  
BERLIN, July 10.—Germany is watching with intense interest the Scopes trial at Dayton, Tenn. Even the small provincial papers are printing summaries of the story with the contentions of both sides.

### CITY'S DELINQUENT LOTS NEARLY GONE

In 1919, 750 delinquent lots were on the city's hands. Over a full page advertisement was necessary to list them for sale, but since that time the number has gradually decreased and when such lots were last listed for sale early this spring only 100 were included. At the present time the few lots that are still on the city's hands will no longer be advertised because of insufficient numbers.

During the past six years owners of delinquent property in the city realizing the benefit that would be derived if settlement were made, have either deeded the lots to the city or have paid amounts covering delinquent taxes. The city attorney's office expects that the remaining few delinquent lots will either be paid up or deeded to the city in a very short time.

### STEELHEAD FISHING STARTS IN ROGUE

According to late catches in Rogue river, fishing seems to be improving in that stream. Philip E. Low, district state fire warden, while fishing near High Banks early this morning caught two large steelhead weighing 5 and 6 pounds respectively.

Dewey Givans, a member of the fire department, reported the catch of an eight pound steelhead with a No. 1 hook using a brass spinner, near the Elks picnic grounds last Wednesday.

Mr. Givans had a very hard time landing the fish because of its stubbornness in refusing to leave the cool waters of the river.

### JACKSONVILLE TO PLAY ROGUE RIVER SUNDAY

The Rogue River and Jacksonville baseball teams will play a benefit baseball game at the Holly street grounds Sunday at 2:30 p. m.

The game is given for the benefit of Fred Horton of the Rogue River team who was injured about three weeks ago in a game played at Rogue River, which necessitated an operation.

The Rogue River team is the head of the league in their section of the valley and the Jacksonville team is in the lead in this end of the valley. The game will probably be hard fought and a good crowd is anticipated.

# FRIDAY EVENING, JULY 10

## Free Novel Exhibition 8 p. m.

### Willys-Knight and Overland Motors -- Armstrong Motor Co.s show rooms, 123 W. Main

## Do You Know Gasoline Engines

**Mr. L.R. Bryant, the noted expert on Automobile Engines, will lecture with particular reference to the WILLYS-KNIGHT Sleeve Valve Motors Actual demonstration of working models.**

Lecture begins promptly at 8 o'clock P.M.  
**Everybody Welcome**  
Entertainment Diversions

At our Showroom  
**July 10**

**Armstrong Motor Co.**  
123 W. Main St., Medford

Special display and demonstration of Willys-Knight and Overland Six Cylinder Cars. See these Fine Motor Cars!

### Plan Novel Showing of Willys and Overland Cars With Motors Under Glass

Mr. Lee R. Bryant, undoubtedly one of the most interesting lecturers on the internal combustion motor in the entire automotive industry, has been secured by the Armstrong Motor Company for a day of special demonstrations here tomorrow afternoon and evening.

In connection with an entertainment to be furnished at the Armstrong Motor Company's showrooms at 123 W. Main, Mr. Bryant will deliver an instructive lecture on the design, construction and advantages of the Knight Sleeve-Valve motor.

Assisting him in the lecture Mr. Bryant will have two engines, one an Overland 6, the other a Willys-Knight 6.

The lecture will start promptly at 8 o'clock and it is hoped that the people of Southern Oregon will take advantage of this exceptional opportunity to familiarize themselves at first hand with the workings of a motor car.

Tomorrow afternoon Mr. Bryant will hold a parade of the new Overland 6's and the new Willys-Knight 4's and 6's. These new models of the Willys-Overland factory are the last word in automotive engineering and design, and the reception accorded them throughout the United States has been nothing short of miraculous.

The two new Overland 6 models—the Standard Two-Door Sedan and the De Luxe Sedan—are unquestionably the most beautiful new closed cars on the market at anywhere near the

### Cut-Away Motors Shows

If you have not already seen these new cars and ridden in them, it is decidedly worth your while to attend this entertainment-lecture, and at the same time ask Bryant to show you the action of the sleeve-valve motor.

See for yourselves—interior construction of Willys-Knight and Overland 6 engines.

One of the most novel and interesting automobile shows ever staged.

A visit to the Armstrong Motor Company's showrooms will teach you more about a car than you ever learned before.
