KEARNS SIGNS UP WITH WILLS, BUT DEMPSEY DOESN'T

LOS ANGELES, Aug. 18.—(A. P.)—If Jack Kearns persists in his efforts to represent Jack Dempsey in negotiations for a bout with Harry Wills, negro contender, the heavyweight champion will cast aside his gloves and forget about fighting until his present contract with Kearns expires.

Dempsey made this clear in a statement to the Associated Press.

"I understand that Kearns and the New York boxing commission are to meet today to have forfeits posted for a match for me with Wills.

"I take this means of announcing again to the boxing commission that Kearns has no authority to sign for me and anything done by him in my behalf cannot bind me.

"I state for the last time that I am determined to do my own match making, but reiterate my word to give Kearns his 35 per cent cut during the life of our contract.

"If they go through with their plans today and Mullins signs for Wills, covering Kearns' forfeit, Mullins will lose the match and I will not fight anyone until that contract (the Kearns contract running until September, 1926) has expired, which will cause Kearns the loss of a few hundred thousand dollars."

NEW YORK, Aug. 18.—(A. P.)—Tex Rickard, fight promoter, and Jack Kearns, manager of Jack Dempsey, each posted a $25,000 forfeit this afternoon for a Dempsey-Wills match. This action was taken immediately after the New York state athletic commission had reinstated Kearns and granted him a license to do business within this state. Paddy Mullins, manager for Wills, is expected to post Wills' forfeit for the same amount this afternoon.

The commission ruled that in case Dempsey refused to live up to the terms signed by Kearns that Mullins could claim the $25,000 forfeit posted by Kearns. It was made clear that Kearns signed definitely for a Dempsey-Wills fight with Rickard yesterday.

Kearns made his official peace with the commission today and was immediately given a license as a manager in the state.

The agreement for the fight stated that the match would be held some time before July 4, 1926. It has been frequently stated that should the fight take place it would be held on the Fourth of July.

Mullins appeared later before the commission, but did not post a forfeit, as expected. He wanted to know from the commission that if Dempsey ran out on the match, would Wills be recognized as the champion. The commission replied that Wills would not be so recognized. Whereupon, Mullins said that unless somebody showed him something better than $25,000, he would not do anything further about the match. Mullins made it clear that he wanted the championship for Wills and expected to fight for it and that he did not want to be left with merely a money forfeit. No further action was taken before the commission on the match.

LOS ANGELES, Aug. 18.—(A. P.)—Jack Dempsey, informed here today that Jack Kearns had posted a forfeit in New York for a Dempsey-Wills fight next year, stood pat with the declaration:

"Positively, I will not fight where Kearns is in any way concerned."

YOUNG STRIBLING TO FIGHT JIM DELANEY

VERNON, Cal., Aug. 18.—(A. P.)—Young Stribling, Georgia light heavyweight, makes his southern California ring debut at the Vernon arena here tonight in a ten round bout with Jimmy Delaney, St. Paul boxer, with whom he fought a newspaper draw at Milwaukee.

The Georgia schoolboy boxer, who knocked out Romero Rojas, Chilean heavyweight, in three rounds and defeated Tommy Loughran, Philadelphia pugilist at San Francisco last April, is favored by boxing experts here to win easily over Delaney.

In another ten round go on the card Red Herring, junior welterweight champion, takes on Mushy Callahan, Los Angeles flash.

Football Player Is Killed, 5 Injured By Lightning Bolt

KATTOWITZ, Upper Silesia, Aug. 18.—(A. P.)—One football player was killed and five other players were severely injured yesterday when a bolt of lightning struck among the players during a football match at Josefsdorf.

Stecher Wins in One Fall.

SAN FRANCISCO, Aug. 18.—(A. P.)—Joe Stecher, Nebraska wrestler, last night defeated Andreas Costano of Spain with one fall by a body scissors hold, in two hours of wrestling. The fall came at the end of an hour and 23 minutes.

Renato Gardini took a fall from Regina Siki in 22 minutes and 15 seconds and Hands Steicke threw Farmer McLeod in 14 minutes and 13 seconds.

MINING NEWS OF SOUTHWESTERN OREGON

Edited by Southwestern Oregon Mining Bureau.

Our Craze for Legislation.

(From an address by C. F. Kelley, president of Anaconda Copper company, before Montana State Bar Association.)

That there has been a profound change in the original conception of our government there can be but little doubt. It is a commonly accepted fact that we have in America developed an penchant for legislation upon almost every conceivable subject and it is apparent from the most cursory examination of the statute books that the mass of legislation that flows from the almost continuous sessions of congress, the periodic meeting of state legislatures, the regulations of the innumerable bureaus and regulatory commissions and from municipal bodies, has reached a volume that is beyond the capacity of the legal profession, to say nothing of the ordinary citizen, to follow.

The extent to which this national characteristic is being carried is strikingly demonstrated by the statistics upon the subject which disclose that dwuring the 1923 legislative sessions of the various states the aggregate number of bills introduced reached a total of 50,000 of which 12,000 were enacted into law. In the 1925 sessions a total of 28844 bills were introduced, of which 10,800 became laws.

Thus we have in the last two years, which represent the average legislative term of the several states the amazing total of more than 88,800 bills introduced, and an actual placing upon the statute books of nearly 23,000 new laws.

The bar should assume a position of leadership in an effort to bring about through education a systematic effort to reduce the general volume of restrictive legislation and to improve the character and standards of that which may be passed.—Mining Truth.

Make Profit of 93,233 Per Cent.

The Hecla mine of Burke, Idaho, has added an estimated fifteen years to its life through the encountering of the Hecla vein at the 2800 foot level. Hecla stock sold at 3 cents to 8 cents per share a generation ago, pay value 25 cents. It is no wraying $2 a year dividends and sells on the market at near $15 a share. Those who bought Hecla at 3 cents a share and who sell today at $14.90 a share have made 93,233 per cent on their investment, including dividends.—Mining Truth.

Strike in Yellowhorn Mine

Eugene Reed of Placer brought in specimens of ore for the bureau's mineral display Tuesday taken from an old shaft in the Yellowhorn mine at Placer. The ore is sylvanite and runs high in gold and silver. The specimens are characteristic of the ores in that district and are attracting considerable attention among mining men.

The Yellowhorn is equipped with a three stamp mill and has upwards of 1500 feet of development work. Mr. Reed is dropping two stamps on the high grade ore encountered.

D. J. Seaman brought in a generous sample of black sand concentrates from the Gold Bar property at Panther Chutes running well in gold and the platinums metals, for the mineral display.

E. M. Albright became a member of the bureau this week and brought in sample of his ore from his Calumet mine on the Illinois river below Selma.

Henry M. Lancaster, mining engineer, is attending to mining matter in Pittsburg and Philadelphia.

At the demonstration plant of the Metals Extraction & Refining corporation on the southside of Rogue River below the Sixth street bridge, Grants Pass, the men run into a bunch of very high grade black sand concentrates, running well into the hundreds of dollars per ton late Monday afternoon. This pant was installed to demonstrate the most economical and efficient method of recovering the blacksands of the streams of southwestern Oregon for treatment in the plant of the corporation for the recovery of the gold and platinum metals.

Daniel Green, pioneer miner, farmer and former sheriff of Josephine county, died suddenly in Grants Pass on Augusy 7th. Mr. Green was born in Missouri, June 12, 1835. He crossed the plains at the age of 18 and settled in Oregon. He engaged in mining in the early 50's, and came to Grants Pass in 1856. He had many thrilling experiences during the early days of southwestern Oregon and his published stories have been recorded for the benefit of future generations in the files of local newspapers. He was a man of sterling worth and highly respected by a host of friends.

Lets Finish the Job

GRANTS PASS, Ore., Aug. 15.—Southwestern Oregon, like all other mining districts, needs experienced mining capital to develop its mineral wealth. There is plenty of such money available for the legitimate development of mining, but in our case, unfortunately, it exists outside our district. Therefore, to obtain such experienced capital we must bring to the attention of mining men generally the nature and extent of our mineral resources and the progress of their development. This can be done on an adequate scale only through news of the district and special articles published in the mining journals read by experienced mining men we desire to reach, and in no other way.

Realizing this fact the Southwestern Oregon Mining Bureau nearly two years ago inaugurated a publicity campaign in the local papers of the district, and, more recently, in Mining Truth, published by the Northwestern Mining Association at Spokane in the interest of mining and circulated throughout the northwest, including Canada; in the Mining Review, published at Salt Lake and circulated throughout the mountain states; in Mining Topics, Sacramento, published at Sacramento, and circulated throughout the southwest; in the Daily Record-Abstract, Portland, read almost entirely by businessmen of the state; and in other papers at different times. The Mail Tribune has carried the mining news of the district weekly and has been of great assistance in spreading the gospel of our mineral resources.

This publicity campaign is now on in full swing and results are very encouraging. Many properties have been sold, and engineers and investors are continually scouting over the district investigating—a preliminary requisite to investment—and inquirers indicates that many others have the matter under consideration or are already on the way here. The campaign must be maintained at all costs, as to be successful and our full development secured, we must continually carry on until such time as our stage of development will permit of going ahead under its own momentum.

To effectually do this every man interested in mining, whether he is a mine owner or not, should get behind the movement and give it his unqualified support. Such support can best be manifested by becoming a member of the bureau and attending our meetings when possible. A membership costs but $2 a year—less than two-thirds of a cent a day—and the amount is so small that it will work a hardship on no one, but in the aggregate it permits this great work to go forward with increased vigor, and the results will surely be the full development of the great southwestern Oregon empire—a matter all mining men are vitally interested in.

Become a member of the bureau at this time and put your support back of this campaign. It is a simple matter. Sign the blank below and mail to the secretary at Grants Pass with remittance. Attend to it while it is fresh in your mind. Lets finish the job.

Application for Membership

I hereby make application for membership in the Southwestern Oregon Mining Bureau and enclose herewith $2 in payment of dues to June 1st, 1926.

Additional Local Items

The concrete foundation for the new plant at the Millionaire mine three miles south of Gold Hill has been laid and by the time the conrete has set it is expected the equipment will have arrived and be ready for installation. The equipment includes an oil flotation plant—the first to be installed in this district.

The bureau has an inquiry for good quality chrome ore located handily for railroad shipment. Inquirers addressing the bureau will be placed in direct touch with the party desiring to purchase.

Paul Robinson, A. W. Peterson and A. L. Kullander, representing Verona, Oregon, capital interested in the development of the Kelmar-Vanpet mine at Gold Hill, visited the property last week, and inspected the progress of the work on the proposed 800 foot tunnel, no win 275 feet.

The Beaver Portland Cement company has completed repairs on its plant at Gold Hill and is now running to capacity again, making 1200 barrels a day.

Registry of Mines Notes

Under this heading the bureau will, from time to time, publish data regarding one or more properties that are up for development either through sale, lease and bond, or financial assistance to the owners. No identifying data, other than county and distance from nearest postoffice, will be given. Bona fide inquirers will be place din direct touch with the owners, thereby eliminating unwarranted speculation. There is no charge for this service, which is open to all those who have their property registered.

Registry 1091—Location: Jackson county.

Acreage: 47 acres of patented land.

Gravel: 25 feet, average value $1 per yard.

Water: Water available for placering; creek runs through property.

Postoffice: One mile from property.

Owners desire financial assistance.

With the wide publicity given our mineral resources in mining journals and newspapers, the registry of mines takes on added importance. Its value is being demonstrated almost daily, and with the influx of mining men investigating the field its use cannot be questioned. Mine owners who have not placed their property on record are losing a valuable advantage.

In sending in reports for registering property, send along sample of ore for display in mineral exhibit maintained by the bureau. Daily mining men examine this exhibit. Is your ore on display? If you have a property worth spending your time doing assesment work you have something worth any reasonable effort to bring it to the attention of mining men. The bureau has furnished the way to do this without cost to you. It is up to you whether you take advantage of it or not.

Laboratory Equipment Installed

Word was received at bureau headquarters today that the oil flotation unit in the laboratory of the Sunset smelter at Gold Hill had been installed and that testing of ores would start immediately.

Prohibition Crusader Threatens Secy. Mellon

KANSAS CITY, Aug. 18.—Will K. Reeme, local prohibition crusader, charged with writing a threatening letter to Andrew W. Mellon, secretary of the treasury, was released from jail today on bond of $7500. H. P. Faris of Clinton, Mo., prohibition party presidential candidate in the last election was one of the four signers of the bond.

Another Pistol Accident.

PORT ANGELES, Wash., Aug. 18.—(A. P.)—Kenneth McFarlane, Seattle, killed Robert Irving, 19, of the same city today by accidentally discharging a pistol in a tent at Piedmont, 20 miles west of here.

News Notes From Moviedom

Remember when you used to see Alberta Vaughn cavorting about in comedies? Those days are gone forever, Alberta hopes.

Time was when Alberta, with her baby stare and saucy looks used to cut capers reel after reel. Now she has "graduated" from the comedy training schools. Maybe she's trying to imitate that classic example of what comedy training can do for the screen aspirant, Bebe Daniels. Anyhow it's a fact that Alberta is now being starred in a series of pictures, "The Adventures of Mazie."

We hope she doesn't get too serious and "emote" all of the time since her dashing ways and piquant glances.

STAR DUST.

When Alla Nazimova returned from Europe she didn't say she had obtained a divorce from her husband, Charles Bryant in Paris. Now it comes out. - - - Mildred Gloria Lloyd, Harold's young daughter, recently passed her first psychological test—her daddy says she's six months ahead of her age. - - - Ann Pennington has bought a ranch in California—she insists she prefers it to Broadway, at least for awhile. - - - Connie Talmadge lost four whole pounds while working on "Her Sister from Paris," when she was being filmed as a Parisian stage dancer—"it's a hard life," Connie avers.

Sinclair Lewis is the latest literary celebrity to write direct for the movies. He has agreed to do a scenario for Famous Players based on the history of New York City. It will be produced in connection with New York's 300th anniversary next spring. Allan Dwan will direct.

Jackie Coogan has become so sunburned while spending most of his time in swimming that his make-up artists are having a dreadful time trying to make him look the part in his new production, "Old Clothes." At present Jackie closely resembles an Indian and the make-up just naturally won't "take."

"East of the Setting Sun," a Graustark story, will be Constance Talmadge's next, is the announcement of Joseph Schenck. Norma, having finished "Graustark," will play an impudent French spitfire, the idol of the Paris Apaches, in "Paris After Dark."

WOMAN KILLED BY FRIEND'S ACCIDENT

LOS ANGELES, Aug. 18.—(A. P.)—Seeing her lifelong friend fall down a flight of stairs gave Mrs. Mary E. Reed, 60, such a shock last night that she collapsed. At the receiving hospital where the friend, Mrs. Mellie Bellis, 60, was found to be suffering from nothing worse than a broken arm, a surgeon pronounced Mrs. Reed dead of heart disease. The two women formely lived in Chicago.

Pirates Kill Couple.

MANILA, Aug. 18.—(A. P.)—Municipal President Patero and his wife of the town of Curon, on the Island of Palawan, were murdered today by a dozen Moro pirates, who robbed the house of money and jewels. The pirates fled in a sailing vessel, pursued by Philippine constabulary.

This NEW way solves women's oldest hygienic problem so never a day's charm is lost

BEING fresh and charming *every day* has ever been the average woman's problem.

But today . . . the modern woman meets it with a smile.

Science has supplanted the uncertainty of the old-time sanitary pad with protection that is absolute.

You wear your filmiest frocks, your summery things in confidence. You motor for hours, you dance, you dine; you come in contact with others without a second thought.

The name is Kotex . . . a method scientifically *right*.

It absorbs 5 times the moisture of the ordinary cotton pad. And that means great protection.

It is as easily disposed of as a piece of tissue—ending an old-time embarrassment.

It is deodorized. And that prevents danger of offense.

You get it at any department store or drug store, just by saying "Kotex." And that banishes the embarrassment of asking for a "sanitary pad."

8 in every 10 women in the better walks of life have adopted it. Which proves its benefits.

It will mean much to you in health, in daintiness and protection. It proves old ways a needless folly.

KOTEX

PROTECTS—DEODORIZES

1 Protection: 5 times as absorbent as cotton pads. Absorbs 16 times its own weight in moisture—and scientifically deodorized.

2 No laundry. Discard as easily as a piece of tissue.

3 Easy to buy, anywhere. You ask for them by name. Many stores keep them ready-wrapped — help yourself, pay the clerk, that is all.

No laundry—discard as easily as a piece of tissue
