## T. WORD TO BE WARDEN SAYS PAPER

Salem Capital-Journal Declares Former Sheriff of Multnomah County Will Get Dalrymple's Place—Latter to Resign to Save Governor Pierce Political Loss.

SALEM, Ore., Aug. 29.—(A. P.)—T. Word, who retired as sheriff of Multnomah county in 1915 after serving two terms, and investigator for the federal department of justice until a few months ago, will within the next few days be appointed to succeed A. M. Dalrymple as warden of the state penitentiary, the Capital Journal today says it is informed upon good authority.

Mr. Word, when interviewed over long distance telephone, was non-committal, declaring that he had nothing to say, but refusing to deny that his appointment was pending. He referred the Capital Journal to two Portland men known to be close to the governor, and understood to be representing Governor Pierce in the negotiations, for confirmation of the report.

The resignation of Warden Dalrymple is either in the hands of the governor or has been tendered to him verbally for announcement when the appointment of his successor is made public, the Capital Journal says, although the governor and the warden both decline to comment on the matter in any manner.

Announcement of the appointment of Word, along with the resignation of Dalrymple and the text of the report to the governor of his special commission to inquire into the escape of three convicts from the prison on the evening of August 12, and the killing of two guards, was scheduled to be made late today, but may be delayed until next week, the Capital Journal was informed.

Conditions imposed by Word and his friends regarding acceptance of the appointment are said to have delayed announcement of the change Friday and are still said to be the subject of discussion.

Reports that Dalrymple's resignation was requested by the governor following the findings of the coroner's jury that investigated the killings, which attributed the escape to a deplorable lack of discipline at the prison, and after the governor's own committee had reported, are said in reliable quarters to be without foundation. Dalrymple, it is reported, probably is resigning to save Governor Pierce from the embarrassment incident in the condemnation that has been voiced by the newspapers of the state and others at the prison administration since the escape.

The contents of the report of the governor's special committee still remains unknown except to a few, but it has leaked out that the censure of the prison administration is not so severe as was first intimated.

Suggestion that the present warden is temperamentally not fitted for the position is said to be contained in the report.

## LINCOLN'S NEWSPAPER FRIEND SERIOUSLY ILL

MADISON, N. J., Aug. 29.—(A. P.)—William O. Stoddard, 99 year old veteran of the newspaper profession and once private secretary to Abraham Lincoln, is seriously ill at his home.

Mr. Stoddard was the first journalist to put forward the name of Lincoln as presidential timber in 1859, and after the latter's election in 1860, was invited to join the president's official family as secretary, a post which he held for four years.

## Great Run of Steel Head Is Coming Up The Rogue River Now

GRANTS PASS, Ore., Aug. 28.—One of the greatest runs of salmon in recent years is now in the upper Rogue river and is expected to reach Grants Pass in four or five days. The river is alive with the big fellows below Hell's Gate.

The present run has been described as being composed of salmon which average around 30 pounds apiece.

Fishermen at the mouth reported great numbers of steelheads ascending the river.

## CRIME SUSPECT SAN FRANCISCO CAN'T BE FOUND

OAKLAND, Cal., Aug. 29.—(A. P.)—Gordon Rowe, San Francisco accountant, was being sought here today for further questioning regarding the supposed murder of Mrs. Bessie Loren, Oakland nurse. Police said Rowe left the home of his mother in Fruitvale, a suburb, some time after midnight, Thursday, in company with his wife, and that his present whereabouts was unknown to them. Detectives, who were watching the Rowe home, said they did not see the couple leave the house.

From Mrs. Rowe, mother of the accountant, police said they learned that Rowe and his wife were believed by her to be "somewhere in Berkeley."

San Francisco and Contra Costa county officers visited an apartment house owned by Rowe in San Francisco last night and searched the place for possible clues that might lead to unravelling of the supposed murder of Mrs. Loren.

No report of their findings has been given out.

Discovery yesterday in the El Cerrito swamp of a severed finger tipped investigators to the belief that the entire body of the woman may have been backed into small pieces in an effort to prevent identification.

Mrs. Loren's family said she had two fingers missing from the left hand and the finding of the finger tip was regarded by officials as significant. It is the only portion of the body found outside of parts of the head.

## BROOKHART'S FATE WILL BE DECIDED BY SENATE'S VOTE

WASHINGTON, Aug. 29.—(A. P.)—With only two counties remaining to be tabulated Daniel F. Steek's net gain in the senate recount of the Iowa senatorial returns stood today at 927. Steek's republican opponent, a slight margin.

The tabulation by state officials, in corrected form, gave Brookhart a majority of 1385. If the senate count totals as they now stand are sustained, this majority will be reduced to 458. More than 7500 ballots have been laid aside as contested, however, and the outcome will hinge upon the senate decision as to their validity.

The vote of three counties—Washington, Winneshiek and Worth—was added today to the senate tabulation. In these counties Steek had a net loss of 22 votes, as compared to the state count. Wright county also had been recounted, but the result was not announced. Only Woodbury county remains, and it will be recounted Monday.

## Death Toll of the Automobile

PORTLAND, Ore., Aug. 29.—Ralph A. Schiek, 24, of Portland, was killed early this morning when the automobile in which he was riding went into the ditch and overturned on the Canyon road near here. Two companions in the car with Schiek escaped with slight injuries.

In view of the present situation, your committee strongly recommends that the operators maintain a firm stand for arbitration of the present differences to prevent a recurrence of interruption, such as the one about to start.

It believes that any settlement effected should be of a permanent nature, providing for a readjustment of the wage scale from time to time to allow prices for our product that will enable it to move freely in competition with other fuels.

## RELATIONS ARE RESUMED WITH GREAT BRITAIN

England Sends Envoy to Mexico and Diplomatic Relations Broken in June, 1924, Are Resumed—Mexico Rejoices Over End of Break.

MEXICO CITY, Aug. 29.—(A. P.)—Announcement of resumption of diplomatic relations between Mexico and Great Britain which had been suspended since June, 1924, has created considerable excitement in Mexico City.

Extra editions of the newspapers which are rare in the capital, appeared on the streets last night after Foreign Minister Saenz made the announcement.

One of the headlines proclaimed the settlement of the difference between Great Britain and Mexico concerning the international highway connecting all the great countries.

Pending the appointment of a minister, Alfonso de Rosenzweig Diaz has been named charge des affaires for Mexico in London and Norman King former British consul will assume a similar post here for Great Britain.

Mr. King and Senor Saenz for a long time have been negotiating for a resumption of friendly intercourse between the two countries.

Relations were severed in June, 1924, when the British charge was ordered expelled by the Mexican government for alleged support given Mrs. Rosalie Evans, an American woman, who was a British subject and who later was assassinated on her ranch.

The trouble with Mrs. Evans in which the charge intervened, grew out of attempts by Mexican agrarians to seize her lands.

Senor Saenz made public a cablegram sent him by Austen Chamberlain, the British foreign secretary, saying:

"As a result of the recent satisfactory change of views regarding existing differences, I have the pleasure of informing you of the appointment of Norman King as charge, with instructions to resume diplomatic relations with the Mexican government."

Senor Saenz, in telegraphing Mr. Chamberlain of the appointment of Senor Diaz as charge in London, spoke of "the happy resumption of relations by our government."

Since the breaking off of relations, the United States embassy in Mexico City had been in charge of British affairs in Mexico.

PHILADELPHIA, Aug. 29.—(A. P.)—The mine mule in the next 48 hours is expected to forecast whether the anthracite suspension which goes into effect Monday at midnight is to be long or short.

If mules are brought to the surface for the shutdown, it will signify the belief that the mines will be closed a considerable time.

If the mules remain below it will indicate the operators' expectation of a brief suspension.

The mules are to be brought to the surface in parts of district number one, the largest of the three union principalities, say advisers from Wilkes-Barre.

## TY COBB GIVEN GREAT OVATION BY HOME TOWN

Entire City of Detroit Turns Out to Honor Great Baseball Star—City to Give 'Georgia Peach' \$1000 Gift Tonight.

DETROIT, Mich., Aug. 29.—(A. P.)—A great city today paid tribute to a great ball player when Detroit officially extolled Tyrus Raymond Cobb.

At Navin field this afternoon it was Cobb day, with the 28-year-old veteran of 20 American league campaigns, standing bareheaded at the plate and shaking hands with thousands of fans who passed in line by him.

Tonight he will be honored at a great banquet and presented with a \$1000 gift, paid for by the city of Detroit by a vote of the council at the suggestion of Mayor John W. Smith.

Speakers will include Cornelius McGillicuddy, manager of the Philadelphia Athletics; Jimmy Callahan, one-time director of the White Sox; Bill Evans, veteran American league arbiter; "Bugs" Baer, a sport humorist; Frank J. Navin, owner of the Detroit club, and Mayor Smith.

Cobb came to Detroit August 30, 1905, when the city was inhabited by only 300,000 persons. Less than 1200 fans saw his debut in a game against New York.

Dick Cooley, a regular outfielder, was out of the lineup, and Cobb, for want of anyone else, took his place, batting fifth under "Wahoo Sam" Crawford, one of the greatest sluggers of his day.

Big Jack Chesbro, at the top of his splendid career, was pitching for New York. Matty McIntire had doubled and scored on a single by Lindsay. Lindsay had been sacrificed to second by "Germany" Schaefer. Crawford tapped weakly at Chesbro and was thrown out.

A man was on third and two out, with Cobb at bat. He lunged at the first ball and missed. He watched the second go by and heard Silk O'Loughlin call "strike out." Then Chesbro shot one waist high. Cobb drove the ball over the center fielder's head for a double. Thus the "Georgia peach" bloomed on his American league debut. He finished the 1905 season with a batting average of .240. It was the only season of his major league career he hit under .300.

Cobb came to Detroit for \$750 paid the Augusta club. Five hundred dollars was the purchase price and \$250 was added for mid-season delivery of the Georgia boy, who had been hitting at a .326 clip in the south.

## FLORIDA SLICKERS GET INTO TROUBLE OVER LAND DEALS

CHICAGO, Aug. 29.—Promises of large profits in Florida real estate, used as bait for investors, have brought federal action against Jacob Factor, president of the Florida Land company, and several assistants here, whose business is alleged to have amounted to nearly \$1,500,000 since March.

Factor, Maurice E. Drucker, H. Hensius, H. J. Himmelstein and Newton Feldman are charged with use of the mails to defraud, as a result of two months' investigation by postal authorities. Factor and Drucker, investigators said, several months ago put over a \$200,000 fraudulent oil land deal in England, selling Arkansas property through the British Allied Estates, Ltd., and the Cambria Trust, Ltd., companies they organized.

Investigators say some of the land is under water part of the time and none of it is improved.

## LOCAL WOMAN IS BADLY HURT IN AUTO CRASH

ROSEBURG, Ore., Aug. 28.—Mrs. Frances Campbell, wife of William Campbell of Medford, was brought to the hospital here today, suffering from serious injuries sustained this morning when the car in which she and her husband were returning from Marshfield, went over the grade on Camano mountain. Mr. Campbell stopped the car on an incline while making minor repairs. The brake was not set sufficiently, and when he kicked a rock from out in front of the wheels, the machine started rolling and went over the bank into a deep ravine. Mrs. Campbell sustained a fractured skull, deep scalp wounds, and possibly a fractured shoulder. She may also lose the sight of her right eye.

There are two William Campbell's living in Medford. William E. Campbell, 804 East Main street, and William N. Campbell, 115 King street, but both are in the city today and know nothing about the accident. No other William Campbell is listed in the city directory or at the local postoffice.

## Babe Ruth Is Fired; Given a R. R. Ticket Back to Broadway

ST. LOUIS, Aug. 29.—(A. P.)—Babe Ruth, home run king, was suspended indefinitely today by Manager Miller Huggins of the New York Yankees. Ruth made no comment whatever and merely shrugged when Huggins told him to pack up and return to New York.

None of the Yankee players would say anything in regard to Ruth's suspension. Road secretary Mark Roth handed the Babe a railroad ticket to New York at the visiting players' club house this afternoon. The Babe took it and left the park immediately.

## AIR PLANES MAKE READY FOR FLIGHT

Two Navy Cruisers Leave San Francisco for Hop Off to Hawaii From San Pablo Bay On Monday—Third Plane Undergoes Repairs—Fog Alone Is Feared.

SAN FRANCISCO, Aug. 29.—(A. P.)—The PN-9, number one, and the PN-9, number three, two of the big naval aircraft that have been ordered to participate in the non-stop flight to the Hawaiian Islands beginning Monday, were declared fit and ready for the test today, while the third ship, the PB-1, was having twin motors installed.

The mine sweeper Gannet, was scheduled to leave her position off Cressy Point at 7:30 a. m. today for a station off Pedro Point, at the entrance of San Pablo bay, taking with her a number of officials of the flight, but she did not get away at that hour, having been held up by last minute work on the two PN ships.

As three shifts of mechanics have been working on the PB-1 for some days, it is expected that she will be in shape for the take off at 2 p. m. on Monday.

The PN ships are expected to take station at the head of San Pablo Bay today. It is not expected that the PB craft will get away until tomorrow.

Fog Only Bugaboo  
 The bugaboo of the mariners of the air made its appearance over San Francisco today for the first time in several days. If it is apparent at the time the flight is scheduled to start, there is a possibility that the abolition of the flight will be postponed in the opinion of Lieutenant C. H. Schildhaer, of the alternate pilots, and other flight officials.

Fog would not only greatly increase the hazards of navigation, but would prevent the airships from seeing the destroyers stationed along the line of flight and would prevent them from keeping sight of each other. One of the rules of the flight is that the fliers must stay fairly close to each other, as they have been ordered to start and finish the flight at the same time.

The flight is in no sense a race, but a test under the rules of the American Aeronautical association, to determine how economical such seaplanes may be in the use of gasoline and oil on an endurance test of this sort. One record is possible, that for distance over a water route. The length of time that the PN's remain in the air will not figure, the air flight experts say, as a ship of this kind has already remained aloft longer than it is estimated will be necessary on the Hawaiian flight.

To Retrace Start  
 A rehearsal of the start will be held some time before the actual hop off, to test wind and water conditions in the big bay, down which the three seaplanes will wing their way next Monday afternoon.

Because of the heavy load of fuel which the planes will carry, it is anticipated that the fifteen mile stretch from San Pablo Bay to the Golden Gate will not be sufficient for them to garner enough height to rise above the hills at either side of the harbor entrance, and their exit from San Francisco bay will be made in the air over the shipping route over which fast launches of the rum chaser fleet will be stationed to keep it clear.

Radio communication between the three airships and naval headquarters will be maintained from the time they take off until the flight is ended.

New Dry Official Named.  
 SEATTLE, Aug. 29.—Roy C. Lyle of Seattle, arrived home today from Washington, where he was made Pacific Northwest prohibition administrator, effective next Tuesday and announced that he would begin work with practically the same organization used by his predecessor, E. A. Hazeltine.

## SLAPPING MOTHER-IN-LAW'S FACE IS COSTLY TO LOS ANGELES MAN

LOS ANGELES, Aug. 29.—(A. P.)—Stanley Liza slapped his mother-in-law's face and as a result is in the jail today charged with suspicion of manslaughter. The slap did not seriously injure the mother-in-law, Mrs. Helen Flynn, but she told the police it made her regret her willing-

ness to say nothing about an accident in which Liza's automobile ran down and fatally injured a pedestrian last New Year's eve. A check of their records showed officers that a "hit and run" motorist of this date was still at large so they promptly arrested Liza.
