The Beckelheimer family will live here all winter this coming winter. They are contemplating extensive improvements to their properties here in view of accommodating the public next season.

If we get all the improvements here that we are working for and that are really needed, this beautiful resort will be coming into its own. It is really the most delightfully situated of any station on the Crater Lake Highway. An hour's drive from the lake, wonderful fishing, both creek and river, 16 miles to the buckelberry mountain, 4 miles to Woodruff meadows, 3 miles to the beaver farm and many other points are here, such as a short walk to the natural bridge on Rogue river and the climate is delightful, neither hot nor cold, beautiful shade and splendid water; truly an ideal place to spend the summer.

Would it make a community better or make it worse if once a week each family met the other families, gave a hand shake and asked kindly of each other's welfare? If in addition they spent an hour studying a book which has as the aim of its teaching to reverence God and do good to your fellow men, even to those that hate you, would it tend to brotherly feeling or to strife? The Sunday school gives the opportunity.
