

GENEROUS TERMS TO BE GIVEN FRANCE ON PAYING DEBTS

WASHINGTON, Sept. 22.—(A. P.)—American debt commission officials are speeding up their final preparations for the formal opening of debt funding negotiations Thursday with the French mission which is due to arrive in New York on the liner Paris tomorrow morning.

Finance Minister Caillaux and his assistants on the French mission are expected to move on to Washington immediately and avail themselves of the latter part of tomorrow in making final preparations for their meeting with the American commission the next day.

Acting Secretary Winston of the treasury and Myron T. Herrick, the American ambassador to France, have been asked by President Coolidge to meet the French mission in New York. Ambassador Daeschner also will be there to greet his fellow envoys when they land.

The final preparations of the American commission appear to concern chiefly the question of interest charges on the French obligation.

It appears likely now that there will be a downward revision of the total of the debt in the negotiations through recalculation of the interest charges. Study of this phase of the matter by the experts is said to have brought them to agreement with Secretary Mellon that the five per cent interest rate borne by the loans since they were made is due to be adjusted.

No hint as to what interest figure may be regarded by the American commission as a reasonable one has been permitted to filter through the veil of secrecy which necessarily surrounds the treasury's consideration of the question. It is generally believed, however, that the commission is prepared to accord the French generous terms on both the accrued and future interest rates.

U. S. FLYERS BUSY IN RIFFIAN WAR, IGNORE VIOLATIONS

OUJZZAN, Morocco, Sept. 22.—(A. P.)—Although the United States government has ruled that the American aviators who enlisted in France and now are serving under the colors of Mulai Yusuf, sultan of Morocco, are violating the laws of the United States, this fact apparently has not served to lower their morale.

Daily they are flying over the lines and bombing Moorish rebel towns and concentrations of rebels.

Tons of explosives have been looted by the members of the Sherifian squadron, as the unit formed by the Americans is known. In addition the aviators frequently fly low and use their machine guns against the Rifians.

The destruction wrought by the American airmen is described as very great. In addition the razing of villages and putting to flight bands of rebels assembled to proceed to the battle front large numbers of farms lying north of the Ouergha river have been destroyed, together with their crops.

Colonel Charles Sweeney and Captains Suisan, Holden, Mustane, Cousins and Bullen are mentioned as having been participants in two raids over rebel territory for which General Naulin, the French commander in chief, commended them for "the splendid record of the escadrille since it joined the troops at the front."

Up to yesterday the Americans had flown eighty hours in five days, during which they sent down nine tons of bombs upon the rebels and fired several thousand rounds of machine gun ammunition against them.

The Americans say they feel justified in serving under the sultan, as they have taken no oath of allegiance and signed no enlistment papers. They can leave when they desire, but say they will remain.

CLERK OUTWITS HOTEL BANDIT

ROSEBURG, Ore., Sept. 22.—An attempt to hold up the night clerk, W. J. Thompson, at the Grand hotel in this city early this morning, failed when the clerk ducked behind the counter and fired a shot through the grille. Thompson told police officers that two men entered the lobby about 4:30 this morning and asked for rooms. As he started to register them, he said he noticed one of the men fumbling in his hip pocket and saw him drawing a revolver. The hammer of the weapon caught in the man's pocket, giving the clerk time to duck behind the counter and seize his own gun in an open drawer. Thompson reached up and fired blindly, breaking the glass in the grille. The two men then ran outside and dashed away in a Ford coupe, the officers were informed. Descriptions of the two men were telegraphed to cities north and south of Roseburg.

SUSPEND LICENSE INDEMNITY CONCERN

SALEM, Ore., Sept. 22.—After consulting Attorney General Van Winkle, Deputy Real Estate Commissioner W. A. Mullen yesterday suspended the Oregon license of the United Auto Indemnity exchange of which the United Underwriters, Inc., of Portland are attorney-in-fact for Oregon. The suspension was because of an alleged violation of the state insurance laws relating to a bank deposit of \$25,000, which is required by the law, but which the company allowed to get beyond the control of its attorney-in-fact.

The company was to have had a hearing before the state department a week ago yesterday but asked for a

may be briefly stated as to gain and exercise command of the sea. This in its essentials, means the control of the sea communications, that is, the seizure of these communications for our own purposes and conversely, their denial to the enemy.

"The objectives which would be taken by the navy in order to accomplish this great war mission would probably be in order, first to destroy or blockade the enemy fleet, second to protect our commerce; third, to destroy the enemy's commerce in order to bring economic pressure to bear on him, and, if our rights still continued to be denied, to transport the army, in order to break down remaining enemy resistance.

"The mission of an air force of the navy in time of war must necessarily be to assist the navy in carrying out its war mission. Naval aviation is today organized as an integral part of the navy and constitutes an arm thereof. In the same destroyers, submarines or mine layers."

Stricken City Normal.

SANTA BARBARA, Cal.—With the earthquake just twelve weeks in the past, many business institutions announced complete restoration as a score of protecting scaffolds were removed marking the completion of repairs and rebuilding.

PORTLAND, Ore., Sept. 22.—Timber bringing an aggregate of \$50,548 was sold at the United States land office here late yesterday. All the timber offered was sold. The Bristol Veil Timber company purchased the greater part, paying \$31,317.55 for timber in Multnomah county. Other purchasers, the counties in which timber is located and amounts paid, were: John J. Kennedy, Multnomah, \$5,490.98; Corvallis Logging company, Benton, \$2,805.69; Charles K. Spaulding Logging company, Polk, \$3,519.53; Fred L. Proctor, Clackamas, \$5,723.93; and E. J. Sherman, Washington, \$1,630.88.

PRIZE GIVEN FOR BIGGEST DEER

"Buckshot" Simmons is the proudest deer hunter in Jackson county, he having killed the largest blacktail deer in southern Oregon this year, or perhaps in its history. For this feat he was awarded a silver loving cup, donated by Young's Hardware store for this purpose, on which will be engraved his name, weight of the deer and when and where killed.

Buckshot's animal weighed approximately 297 pounds and had five points on one horn and four on the other. It was killed Friday, Sept. 4, on Parker mountain in the Green Spring country near the boundary of Klamath and Jackson counties.

On this hunt he was accompanied by his wife and uncle, E. B. Morris, accompanied by his wife. The hunt, which lasted four days, also netted Mr. Morris a three point buck.

Only two other deer were entered in competition for the cup, one being entered by Chauncey Porey, weight 187½ pounds, killed in the Butte Creek country, and the other by P. B. Low, weight 147 pounds, killed in the Green Spring mountain district. There were no other entrants, due apparently to the impression Buckshot's giant kill had made.

The cup he won is still on display at the hardware store where it is attracting much attention.

The "Daily" Bank Robbery

TOLEDO, Ohio, Sept. 22.—(A. P.)—Registered and first-class mail of an undetermined value was stolen today from the Union station.

The loot included a pouch of registered mail, a hand package which mail clerks say looked like a jeweler's box, a registered letter and a hand package containing about 25 first-class letters.

Human, After All.

AGRAM, Croatia—The hangman has a cold and so the execution of two murderers has been postponed.

MARCELL, THE NATURE MAN In Medford This Week

In a large tent, Marcell, who is heralded as the man from the grave, is holding his sensational lectures on "New Life, Health and Happiness," this week in connection with his big free minstrel and vaudeville show each night at 7:45.

Marcell, who is a retired physician, but with all the medicines and drugs at hand could not be cured of his rheumatism and paralysis—until he accepted the facts of nature, and he is now a well man, and is preaching the gospel of his new life and explaining the reason why people are sick and ailing all the time.

Marcell says: "You are just what you eat." And he gives special lectures on how to feed the family. Special free ladies' matinee for ladies only will be given at 2:30 Wednesday afternoon, in which he teaches women how to live so as to avoid unnecessary operations.

The show is free—private reserved seats 10c. Tent located corner West Sixth and North Holly—by the post office. Adv.
