

### Local and Personal

The summer water regulations are no longer in effect, that decision having been reached by the city water commission at its meeting last night, as because of the copious fall of rain last week and the cooler weather prevailing from now on the water consumption for irrigating lawns and gardens will be much less and will no longer be a heavy drain on the city's water supply.

A mid week service, rather unique in its setting and altogether pleasing and effective, was enjoyed at the Baptist church last evening. As the people arrived they were ushered into a large room whose only light came from the fire glowing in the grate and some candles on the mantel. Chairs were arranged in front of the fireplace, family style. The pastor, Dr. Eaton, announced that the meeting would have no leader, save the inclination of each one present to contribute a song, a verse of Scripture or a prayer. The company at once caught the spirit of the occasion, and the hour was delightfully spent. Verses of old favorite hymns featured largely in the program, and in every way the service was beautiful and impressive.

# Absolutely Astounding!

That's the only way we can describe it! Never before have you seen anything like it!

Imagine a group of explorers discovering a spot where the foot of man never before had trod.

And this group of men and a woman trapped—imprisoned in this lost world.

Where ape men roam—where animals the size of 15 elephants, and flying reptiles the size of an aeroplane, monsters of 10,000,000 years ago still live, battling each other and this group of adventurers.

And after a series of hair-raising adventures, escaping with a captured monster and carrying it back to London where it breaks its shackles and raises havoc in the city streets.

Now these marvels are bared to your eyes. You will gasp with astonishment and wonder. Something never to be forgotten.
