Bible Thought for Today

WHY WILL YE DIE?—Cast away from you all your transgressions, whereby ye have transgressed; and make you a new heart and a new spirit: for why will ye die, O house of Israel? For I have no pleasure in the death of him that dieth, saith the Lord God: wherefore turn yourselves, and live ye.—Ezek. 18: 31, 32.

SUFFERED AFTER BIRTH OF BABY

Trouble Caused by Getting Up Too Soon. Relieved by Taking Lydia E. Pinkham's Vegetable Compound

Talcville, New York.—"I thought it would interest you to know what benefit I have derived from taking your medicine. A few days after the birth of my third child I got up too quick. Then just before my fifth child was born I had inflammation of the bladder and displacement. Seeing your advertisement in a Liverpool (England) paper I began taking Lydia E. Pinkham's Vegetable Compound and that was the best confinement I had. Whenever I feel rundown I always take the Vegetable Compound as a tonic. We have just removed from Brockville (Canada) so I was pleased when the store ordered the medicine for me and I got it today. I would not be without it for any price and I recommend it to ladies around here because I feel so sure it will benefit any woman who takes it."—Mrs. AGNES WIGNALL, Talcville, New York.

Women can depend upon Lydia E. Pinkham's Vegetable Compound to relieve them from ills peculiar to their sex. For sale by druggists everywhere.

WHAT 1800 FAMILIES KNOW ABOUT ELECTRIC COOKING

THEY will tell you it is a new kind of luxury—one that doesn't cost more to enjoy.

Of course you have always appreciated the advantages of cooking by electricity. You know that it means no more fuel to carry; no more ashes to lug. You know that electricity is the ideal cooking heat; economical because it is turned on when you need it—not before; turned off when you're through—not later.

But perhaps you would like to know *exactly* what it costs—in dollars and cents. The 1800 satisfied families who now use electric ranges served with electricity by this company would gladly show you their bills, if they could.

We have made an average of these bills, so that we may give you the facts. The average cost of electric lights alone in all homes served by this company in Oregon is $2.20 a month. The average cost of their electric lights and electric cooking together is $5.62 a month.

For the difference, could you buy ordinary fuel for cooking? And if you could, would you want to? Whenever you decide to investigate this question of electric cooking closely, your nearest dealer will tell you many interesting things. And he is prepared to install your new electric range at once, on convenient terms.
