## MAORIS BARRED AS ODD FELLOWS FOR INDEFINITE PERIOD

PORTLAND, Ore., Sept. 25.—(A. P.)—The sovereign grand lodge of the Independent Order of Odd Fellows, in annual convention here today voted to postpone indefinitely action on a recommendation from Carl F. S. Glasgow, grand sire of Australasia, that the Maoris of New Zealand be declared eligible to membership in the order.

Glasgow urged recognition of the Maoris, but H. W. Borst, past grand sire, and others opposed it, contending that such recognition at this time would open endless avenues for difficulty with the race and color question in the United States.

The convention of Rebekah assemblies endorsed a plan for establishment of an educational loan fund to aid sons and daughters of Rebekahs and Odd Fellows in obtaining any sort of educational training they may desire. Miss Flora Sheets, Chicago, is chairman of a committee appointed to work out details of the plan. Other members are Rose McCroskey of Walla Walla, Wash.; Mamie H. Martley, of Fayetteville, Ark.; and Hattie Reed Whiteaker of Lone Pine, N. C.

The machinery for administration of the loan fund is expected to be completed within two years.

## COOLIDGE TAKES HAND IN SHIPPING BOARD RUCKUS

WASHINGTON, Sept. 25.—(A. P.)—President Coolidge has taken a hand in the shipping board situation where President Palmer of the fleet corporation and a majority of the seven members of the board are practically in a deadlock.

At conferences late yesterday and today with commissioners, the chief executive inquired into the situation and while no formal announcement was made there were indications that some move for a definite solution of the tangle might be looked for soon.

Chairman O'Connor, who discussed conditions with Mr. Coolidge last Monday conferred again with him late yesterday and today Commissioners Plummer and Hill were called to the White House. None of the commissioners would state what had occurred.

For months the board and Mr. Palmer have been at loggerheads with five of the seven commissioners from time to time indicating disagreement with the fleet corporation president and dissatisfaction with many of his executive acts.

## CRITICISM AND HARD WORK RED GRANGE SUCCESS FORMULA

DETROIT, Sept. 25.—Harold (Red) Grange, twice chosen as Walter Camp's all-American football team, and considered by many as the greatest open field runner, discusses football as he knows it in an article appearing in the October number of the American Boy.

"Hard work and the ability to take criticism," is the advice Red Grange offers the boy aspirant for gridiron glory.

"I carry ice through the summer," writes Grange in explanation of his advice to keep fit. "It gives me a lot of walking, which hardens up my legs and strengthens my arms, shoulders and back with the lifting it entails.

"Another good thing for a chap to do is to keep himself accustomed to the feel of the ball. Right through the summer I throw a ball around and develop my passing. I do a little running on a track every day."

The Illinois halfback cautions the youngsters on high school teams to "take it easy, there's never anything gained by working your head off the first few nights of practice."

"Tackle hard," he advises, "the hard tackler is not as likely to get hurt as the slow tackler."

## ALUMNI TO PLAY H. S. TOMORROW

More than usual interest is being manifested in the annual football game tomorrow afternoon at 2:30 o'clock between the high school and alumni football teams—the first game of the season.

The high school line-up at the start will probably be made up of first-string men. The alumni team will have plenty of reserves on the sidelines and will be strong, having three high school intelligibles in their line-up. The game will be played on the new field, one block west of the old grounds.

## Local Briefs

A total of 45 Odd Fellows and their wives, en route from the national convention held at Portland to their homes in Pottstown, Tenn., enjoyed a motor ride this morning from this city to Ashland, where they reboarded their special coaches. En route to the sister city, the party was shown fruit packing as done in the Rosenberg packing house. The Chamber of Commerce acted as the host to the visitors from Dixie.

The high school football season at Grants Pass opens on Saturday when the locals clash with the high school eleven from Klamath Falls. The deep gloom which settled upon the brow of Coach Brown the first night of practice has not yet been dispelled as he will be forced to go into the arena in a game with a number of men who have never played before. Reports from Klamath Falls of a husky aggregation of lumberjacks is doing little to relieve the worry of the local mentor and he has been pushing the boys hard.—Grants Pass Courier.

## BAR ASSOCIATION OF STATE DELIBERATING ON NEW PROCEDURE

GEARHART, Ore., Sept. 25.—The Oregon State Bar association, in session here today, had before it the proposal adopted yesterday by the state

judicial council, to give the state supreme court power to prescribe rules for practice in the courts of the state.

The judicial council's recommendation proposed that jurisdictional and fundamental matters and general procedure be left to the legislature and that the supreme court be empowered to prescribe practice and manner of procedure. Chief Justice Thomas McBride of the supreme court, is chairman of the judicial council, which includes Justice John H. Rand of the supreme court; Judge Walter A. Evans, Portland; Judge Fred W. Wilson, The Dalles; Judge C. M. Thomas, Medford, and Albert

B. Ridgway, Portland, ex-officio secretary.

The council also submitted a report on its survey of the condition of judicial business in all the courts of the state. This report accounts for every case filed. Its purpose is to form a basis for reforms that will expedite court business.

The report shows that in eight years 84,000 cases of various kinds were filed and only 33,818 were recorded as disposed of. Of the number recorded as tried 18,410 were default divorce causes. Only one case in every six has been tried.

Cook with gas.

## The Iron Horse

of yesterday is replaced by the gigantic locomotive of today. And so, in the forward movement, the 20th Century Stores

with their superior methods of food distribution—selling only the best of foodstuffs at increased savings to the consumers—are supplanting the obsolete methods of by-gone days. It's the saving on every article in a 20th Century Store that counts.
