

VOTERS GET FACTS ABOUT NEW PIPELINE

In the coming city election, at which time the voters are asked to authorize \$375,000 bonds for a new pipeline from city reservoirs to Big Butte Springs, also \$100,000 for a new distributing main from the reservoirs to the west part of the city, it is important that every citizen should know the facts with regards to the present water pipeline from the intake on Little Butte creek to the city reservoirs.

The present pipe line is 21.5 miles in length and 16 inches in diameter, it is made of fir timber placed together like barrel staves and held by close wire wrapping and then covered with tar or asphalt on the outside only. This pipe was made in lengths of from six to twenty feet each and when laid they were fastened together by wooden collars placed over the ends of the pipe and tightened. Since a very small part of these collars come in contact with the water in the pipe they naturally rot out quite rapidly, hence the need of replacing many of these collars each year.

This replacement has been carried on for the past eight or ten years in smaller numbers but now that the pipeline has been in use since 1910, or nearly sixteen years, it means that thousands of these collars are becoming useless and heavy replacements must be made every year. Nearly \$39,000 was the total cost of maintenance on this pipeline during the past eighteen months, mostly for placing new collars, and if all were renewed it would require at least \$75,000 more.

Since the pipe itself has been in use about sixteen years, it naturally follows that heavy replacements of pipe will be necessary very soon, making an additional outlay each year of approximately \$25,000, which must continue until the entire line is replaced with new pipe. In other words, the time has come when we must commence to rebuild our present water pipeline, or else replace it with an entirely new and larger metal pipeline that will not only provide a safe water supply but almost three times as much water as we now receive.

The soil proofed metal pipe it is proposed to install for Big Butte Springs water supply will last twice as long as this wooden pipe and the upkeep will be much less each year, so that the saving from this source will be large during that period of time, making the metal pipe by far the cheaper.

A vote for the water bonds means an endorsement for an abundant supply of pure mountain spring water which will be brought to your home direct from the springs through an all metal gravity line that will be as durable as it is possible to build for the money.

It also means that Medford will have a safer, more satisfactory water supply, one that will be unsurpassed by any city on this continent.

With this accomplished, Medford can offer far greater inducements to the home-seeker, investor or manufacturer who are now turning their eyes to the west in ever increasing numbers.

Let us all pull together and obtain the one big thing Medford needs to assure her development.

MAGAZINE SOLICITOR HEADED THIS WAY

A young man, Allain Gilbert by name, 6 feet, 2 inches in height and 150 pounds in weight, formerly of Helena, Mont., is, according to the district attorney's office, in Medford or southern Oregon soliciting magazine subscriptions for a fake circulating company, which he gives the name of the Union Circulation company, Singer building, New York City.

The above information was received by District Attorney Newton Chaney from Attorney General L. H. Van Winkle of Salem, who had received the information from Roy Poling of Helena, Mont., county attorney of Lewis and Clark county.

Gilbert is said to be a student working his way through the Mount St. Charles college at Helena. He has been selling subscriptions to obtain money, presumably, to continue his college career.

Local citizens are warned to watch for the appearance of Gilbert.

COPCO FORUM IN SHEPARD HAYMOW

The members of the Copco Forum were delightfully entertained at the home of Mr. and Mrs. W. M. Shepard on Siskiyou Heights last evening. The regular business session of the Copco Forum was held, followed by a fine talk by Porter Neff on the subject of "The American Constitution," which was greatly appreciated.

THIRD PLACE IN AMERICAN LEAGUE RACE UNSETTLED

NEW YORK, Sept. 26.—(A. P.)—The possibility of Detroit and St. Louis settling their long and bitterly contested American league struggle for third place in the closing series of the schedule between the two teams loomed strongly today.

The margin of two and one-half games which separated the third place Browns from the Tigers at the close of play last week remained unchanged today as each club yesterday recorded its fourth victory in six starts this week. With both teams hitting hard and getting fair pitching, interest of fans in the two cities has begun to center on the battle ground next week in St. Louis, where Ty Cobb will lead his cohorts against the men of Sisler, October 1, 2 and 3, in a final drive to dislodge the Browns.

Italy in the eighth to tie the score and in the ninth to win by a single run, 4 to 3, the Browns yesterday profited by the good pitching of Dixie Davis to defeat the champion Senators. Detroit's easy victory over the Boston Red Sox was a triumph of heavy hitting, ten to five, Manush and Hellmann leading the assault with three hits each.

A six run spurt in the eighth frame gave the Cleveland Indians a 9 to 5 verdict over the Athletics, while in the only National league game the re-treating Brooklyn Robins dropped their twelfth straight to Cincinnati as the Reds touched off a withering salvo of nineteen safe blows for an 18-7 triumph.

FOOTBALL TEAMS OF NORTHWEST START SCHEDULES TODAY

SEATTLE, Sept. 26.—The Northwest conference football season opened today when the University of Washington eleven was matched with the Willamette university at the University stadium here and Gonzaga university was to play Cheney Normal school in a non-conference game at Spokane.

Although veterans of last year's squads were in Washington's tentative lineup, Coach Enoch Bagshaw planned to use twenty-five men during the contest.

STANFORD UNIVERSITY, Cal., Sept. 26.—Facing its first gridiron test of the season, Stanford's varsity eleven was ready for an attempt to hurdle the first obstacle today as presented in the shape of the San Francisco Olympic club team, a team composed of many former Cardinal stars. Despite the imposing front presented by the Olympic aggregation the Cards were believed to stand a good chance to come out on top in the struggle.

BERRILEY, Cal., Sept. 26.—(A. P.)—Entering into its sixth undefeated season of football the University of California was ready to take to the field today in defense of its record against the University of Santa Clara. Keen interest was manifested in the game as Santa Clara, always a thorn in California's side provided the sensation last night when it held the Bears to thirteen points, meanwhile scoring seven.

TUNNEY IS VICTOR BY KNOCKOUT

MINNEAPOLIS, Minn., Sept. 26.—Gene Tunney, New York heavyweight knocked out Bartley Madden, heavyweight trial horse, in the third round of a scheduled ten round bout here last night.

Tunney weighed 186 pounds and Madden 189.

ANNUAL REUNION SO. ORE PIONEERS HELD AT ASHLAND

ASHLAND, Sept. 25.—More than twenty members of the Pioneer Association of Southern Oregon met today in annual reunion at the Pioneer Cabin club house on Winburn Way. The records show that many of the number who were present at other meetings have passed on since the last gathering. Irving E. Vining was the speaker and in the eloquent address gave praise and honor to those who by their self-sacrificing lives, built the commonwealth their descendants enjoy today.

Dinner was served in the Civic Club house, and at this feast the happy reminiscence and old time visit was begun and extended well into the afternoon. The program was given in the morning, with the address of Prof. Vining, the principal feature. The minutes were read, and there were a number of musical numbers. Mrs. Fred Neil sang, as did the Phoenix quartette, "Old Time Melodien," a piano solo by Mrs. Van Fossen, preceded the singing of Mrs. McCully's pioneer songs by the association.

Special lodge work marks the gathering of the Royal Arch Masons who come from almost every city in Southern Oregon and Northern California. Invitations were extended to the lodges in this territory and most have signified their intention of having representatives present tonight. Men high in the state and on the Pacific coast will be here, among them, John H. Kollock, grand high priest for Oregon and Charles King, grand high priest for California; Grand Master Kelly of Albany; Past Grand Master Ballie, grand secretary Chaney of Portland and Grand Commander Magee of Klamath Falls, C. A. Malone, F. D. Wagner and A. J. McCallen are the members of the local committee who have charge of arrangements.

BANQUET PLANNED BY G. M. CLUB

The executive board of the Greater Medford club met at luncheon Monday, September 21 at the Holland Hotel. Business was discussed and plans made for the ensuing year, with the great object of a club house to work for.

It was decided to open the club year with a luncheon at the Medford Hotel, and to invite and urge all the women in Medford to attend. An interesting program is arranged and the meeting promises to be lively. Special invitations are being sent to the mayor and president of all service clubs.

The past presidents and all past officers of the Greater Medford club are also invited. Reservations may be made through Mrs. H. C. Smith, Phone 1125 on Saturday afternoon.

UNION H. S. URGED AT CENTRAL POINT

Central Point may have a union high school, according to present plans, which will be more thoroughly discussed next Friday night by members of the Central Point school district. Several nearby school districts, it is understood, will be invited to join the union, according to an announcement made last evening at the reception given the teachers of the city schools by the Parent-Teachers Association and Civic club of that city.

Several hundred were in attendance to listen to the addresses of welcome given by Central Point citizens and the entertaining program which had been prepared for the occasion. Superintendent of Schools H. P. Jewett gave a short and well delivered address in response.

San Francisco Markets. SAN FRANCISCO, Sept. 26.—Butterfat f.o.b. San Francisco 59 1/2¢.

SUBMARINE CREW IMPRISONED (Continued from page one.) somewhere at sea. No ships were being sent from Boston navy yard, although a rescue vessel stood by throughout the night waiting for orders to proceed.

It was not believed that the City of Rome sustained any damage from the crash with the submarine. Her captain's message indicated that she was in good condition and proceeding to Boston. Efforts to learn details from him by wireless were futile and it was not expected he would tell his story until the ship reaches port.

The City of Rome plies regularly between Boston and Savannah with freight and passengers and follows the outside course around Cape Cod. It was reported that she might come through the channel today, however, but officers of the line were without advice on this score.

Radio message received from New London stated that the Chewink and the submarines S-1, S-49 and S-10 were being sent to the scene of the collision. They will endeavor to locate the sunken vessel with listening gear. The commander of the control force, it was reported, was proceeding to the scene on the Camden. The Camden is a 9000 ton auxiliary cruiser.

The S-51 was rammed "about half way from the stern to the conning tower on the port side," according to a brief message received by the navy yard here from Captain Diehl, of the City of Rome. The steamer will dock at Charlestown at about 2 p. m., the message said.

The destroyer Putnam which went out from Newport this morning was returning to this port while a wrecking company's barge was setting out for the scene of the disaster with full equipment on board to bring the craft to the surface.

Commander O. H. Shaw, commanding officer of the Putnam, said when that ship returned to port, that in his opinion the men in the submerged submarine had enough air to last them 72 hours.

Commander Shaw said in addition to the air in the compartments of the vessel, a considerable supply was carried in tanks and if the S-51 had not

been smashed to pieces it was probable that at least a part of her crew might be alive. The Putnam after touching Newport, proceeded to New London, where the rescue base is located. In addition to the submarines, the marine salvage ships, mine sweepers and wrecking craft sent to the scene, four airplanes from the Chatham naval base were flying over the area. Another airplane from Vincent Astor's yacht was being pressed into service.

The position of the S-51 was given as about a mile and a half S. S. E. off that first given by the City of Rome. Four submarines were standing by, as was Vincent Astor's yacht, the Nourmahal.

PORTSMOUTH, N. H., Sept. 26.—(A. P.)—A wireless message from the Camden picked up here this afternoon said: "Diver reports S-51 resting on keel, inclined to port. Attempt to communicate with crew unsuccessful. Large hole in port side abaft conning tower."

SPECIAL SPEAKER AT PRESBYTERIAN CH.

The Presbyterian people have a treat in store for them on Sabbath evening in the presence and message of a missionary just returned from China on her furlough. Mrs. A. T. Polhill, an English lady, sister of Rev. F. Gordon Hart of Grants Pass who has been serving as a missionary of the China Inland Mission at Fuh-ting, West China, will speak at the evening service Sunday evening in place of the message as announced by the pastor. Mr. Hart drove to Vancouver the first of the week to meet his sister and her husband and two children and arrived in Grants Pass last night. They have been in China for a number of years and she will have a most interesting message from that great developing country. The public in general is invited to hear Mrs. Polhill.

SHOWERY AND FAIR WEATHER PROMISE

SAN FRANCISCO, Sept. 26.—The weather outlook for the week beginning September 27 was announced here today by the United States weather bureau as follows: Pacific states—Except for unsettled and probably showery weather at the beginning of the week in Washington and Oregon, fair weather and moderate temperature will be the rule.

The fire hazard in the forested areas will be generally below normal.

PORTLAND, Ore., Sept. 26.—Fred Hood, Besse Hood, Thurman Jackson and Dorothy Jackson were jointly indicted today by a federal grand jury charged with theft of United States goods on the Klamath reservation.

PACIFIC HIGHWAY IS NUMBER 99

WASHINGTON, Sept. 26.—(A. P.)—Numbering of the highways of the United States was completed by a sub-committee of the joint board of the American Association of State Highway Officials and United States offices of the public roads here late yesterday. The joint board was appointed by Secretary of Agriculture Jardine. The numbers include: 10—Chicago-Seattle. 20—Boston-Chicago—Yellowstone—Portland.

99—Blaine, Wash.—Seattle-Olympia-Portland-Salem—Ashland—Redding—Sacramento-Fresno—Bakersfield-Los Angeles-El Centro to Mexican border. 101—Port Angeles-Astoria, etc., along Pacific coast to San Francisco, Santa Barbara-Los Angeles-San Diego to Mexican line at Tijuana.

EUGENE, Sept. 26.—Prize field dogs of the Pacific coast were entered today in the all-age stake, annual event of the Oregon Field Trials association, at the fields west of Eugene. A setter bitch, Radlum Lou, owned by Karl C. Paulson of Spokane, Wash., won the annual derby event yesterday. Dan McGrew, pointer dog, finished second and Indian Pinto, pointer bitch, third. Both are owned by Charles McCleary of Olympia, Wash., and were handled by Harry K. Reed, also of Olympia.
