TRUCK LIMIT ON HIGHWAY ATTACKED IN FEDERAL COURT

PORTLAND, Ore., Sept. 28.—(A. P.) Suit was filed in the United States district court here today against the state highway commission to restrain the commission from putting into effect an order limiting truck loads on the Columbia River highway between Portland and Hood River. The commission recently ruled that maximum loads on the highway be reduced from 22,000 pounds to 16,500 pounds.

MAID BOUND BY TRAMP WHO SETS FIRE TO HOUSE

BEND, Ore., Sept. 28.—Having bound and gagged the maid, a tramp set fire to the Tracy Fairchild home this morning about 11:30 and made good his escape. The girl was rescued by the neighbors who called the fire department. The damage to the house was slight and resulted mostly from smoke, according to members of the fire department.

ARMY ASKS FOR THE LOS ANGELES IN AIR SERVICE

WASHINGTON, Sept. 28.—(A. P.) Major General Mason M. Patrick, chief of the army air service, submitted today to Acting Secretary Davis, a memorandum showing that air service officers most familiar with the construction and condition of the airship Los Angeles had recommended to him recently "that further action be taken to secure the Los Angeles for the army air service."

The recommendation was made to General Patrick by Colonel O. G. Hall, who was army observer aboard the Shenandoah when that ship crashed.

"This recommendation," the memorandum said, "was submitted by Colonel Hall after he had been given an opportunity to examine the Los Angeles with great care and after he had flown in this dirigible."

General Patrick's statement was prompted by publication of reports that the war department had received confidential reports which indicated that the Los Angeles was not in satisfactory condition.

LUMBER BUSINESS ON COAST BETTER THAN A YEAR AGO

SAN FRANCISCO, Sept. 28.—(A. P.)—A report issued today by John Perrin, federal reserve agent for the district composed of states of the Pacific slope, stated that changes in the general business situation of the district during August were merely seasonal in character.

The report went on to say: "Total volume of business and trade decreased as compared with July, but was still above estimated normal expansion. Industrial activity continued and the volume of industrial employment increase, both as compared with one month ago and one year ago. There was an increase in demand for credit, both in reporting member banks and at the reserve bank, but funds continue available at seasonally low rates. Harvesting of the district's crops proceeded without unusual incident."

"Lumber production of approximately 175 mills reporting to four associations in this district exceeded shipments and new orders received of 3-6 and 4-2 per cent respectively during August and was 5-3 per cent larger than during July. The volume of new orders received during August exceeded shipments and unfilled orders at the close of the month were larger than at its beginning. Shipments were 1.9 per cent and orders received one per cent smaller during August than during July. Activity in the industry continued at higher levels than a year ago."

U. S. GOVERNMENT FILES APPEAL IN TEAPOT OIL CASE

ST. LOUIS, Sept. 28.—(A. P.)—The government's appeal in the Teapot Dome lease annulment suit was filed here today in the eighth circuit court of appeals.

CHEYENNE, Wyo., Sept. 28.—(A. P.)—Clyde M. Watts, deputy United States attorney for Wyoming, is to arrive in St. Louis, Mo., today with the record of appeal in the Teapot Dome lease annulment suit.

The appeal will be filed in the eighth circuit court of appeals. It will write another chapter in the famous teapot dome lease which the government alleged in its suit here last spring that Harry F. Sinclair gained for his Mammoth Oil company, by "collusion and fraud," between Sinclair and the then secretary of the interior, Albert B. Fall.

Federal Judge T. Blake Kennedy found against the government in every complaint in the bill and the government special oil counsel, headed by Owen J. Roberts and Albee Pomerene, took an appeal.

Pending decision of the court of appeals, the Teapot Dome issue continues in charge of receivers appointed by Judge Kennedy.

The government alleges that the court abused its discretion, before the trial in refusing to grant the government a continuance, to enable it to get the testimony of numerous material witnesses, some of whom were in Canada.

The government charges that the court erred in its rulings holding the Sinclair contracts for the Teapot Dome naval oil reserve valid and that it erred in holding the lease would have been valid without the presidential order of May 31, 1921. It excepts also to a ruling that there was no fraud in the executive order.

The government excepts to the finding that no fraud was committed in negotiating the lease or the supplemental agreement. It excepts to the ruling that Albert Fall, then secretary of the interior, and Harry F. Sinclair, did not conspire to defraud the United States by the supplemental agreement.

It excepts further to a finding that the negotiation of the lease was not private or secret agreement between Fall and Sinclair and was not attended by undue and unlawful secrecy.

Marcell's Miracle Mineral Show Passes On

After one week of great crowds and selling lots of the Hadium Mineral—the show left Medford today for Ashland and Klamath Falls.

Marcell will demonstrate the merits of this great blood and nerve building mineral in California this fall and winter. See the agent, or write to Marcell, The Nature Man, 301 Lombard St., Portland, Ore. Adults
