

### BERT ANDERSON URGES VOTING OF CITY HALL BONDS

The Kiwanis club at its meeting Monday was addressed by Bert Anderson on the necessity of voting the bonds for the new city building, thereby providing temporary quarters for the county officers beginning next fall, should the people vote to move the county seat to Medford. He dwelt upon the necessity of Medford people doing their part in securing the county seat and said he had no hesitancy in believing the people would vote to remove the same if we do our part.

He called attention to the fact if the bonds are defeated it means the county court will proceed to remodel the present courthouse, which means the settlement of the county seat for years to come.

He also said a large majority of the people are required to spend their time and money going five miles extra to the present courthouse to transact business and that this also costs the county thousands of dollars extra in fees.

He closed by saying it's Medford's move now if they desire to secure the county seat and urged all to work and vote for the bonds.

Harry Walther said the measures to be submitted to the people October 8 are vital to the welfare of the people and should be carried. He urged the necessity of the city hall proposition and dwelt upon the necessity of more and better water, answering some of the criticisms and questions regarding the proposition.

He said: "There is plenty of pure mountain water in Butte creek to not only supply Medford, but all the towns in this valley if properly used; there is no other supply of pure, wholesome water in southern Oregon that can be supplied by an economical gravity system; that the only other available supply is from Rogue river, which would have to be pumped and treated in an attempt to make it pure—at a greater cost than the present proposed system; that Big Butte water has been pronounced A-1 by several analyses while the present water is rated third class; the present water supply and system will be retained to do as the people of the city desire; the council four years ago decided that Butte creek water was the coming available supply and therefore made filings on the same; engineers state board of health, City Health Officer, Peckel, county health officers, geologists, the different clubs and many others recommend the new system; that every step in the proposed proposition is legal, having been passed upon by Attorney A. E. Reames, Ex-Judge Calkins, City Attorney Carlin and others, as well as representatives of leading bond companies, who have signified a willingness to buy the bonds; that the bonds cannot draw over 5 per cent and will probably sell at 4 1/2 per cent and at par or a premium; by increasing water rates 50 per cent the bonds now outstanding, the proposed issue and the interest will be paid in 30 years and leave a balance for betterments at that time; if water rates are raised they will be lower than most all other Oregon towns for the amount of water used."

The speaker called attention to the fact that before the manager of the Owen-Oregon Lumber company went east he was promised by a citizens' committee that they would be guaranteed an increased supply of water should they decide to increase the capacity of the mill. It was decided to spend \$500,000 more on the mill here and it's up to the people to supply the water. He closed by urging everybody to consider all phases of the proposition and he believed they would then vote and work for the bonds.

C. C. Lemmon was awarded the Kiwanis attendance prize furnished by C. M. Kidd.

The work of the past year was reviewed by President Patrick, showing a large amount of underprivileged child work having been carried out.

### MASS MEETING TO BE HELD FRIDAY

A mass meeting will be held on Friday night, October 2, to discuss the different propositions to be voted on at the coming city election October 8th. This meeting will be for both men and women and all interested in the welfare of the city are requested to attend.

The time and place for holding the meeting will be announced tomorrow.

### 'LIGHTNIN'' COMING TO CRATERIAN OCT. 8TH

Southern Oregon people will have an opportunity to witness "Lightnin'" the famous comedy classic that shattered Broadway's record with its three years' run, at Hunt's Craterian Thursday night, October 8th.

John Jefferson, when local playgoers will see an "Lightnin'" Bill Jones is a son of the late Joseph Jefferson. He bears a striking resemblance to his father. Bessie Bacon, daughter of Frank Bacon, will be seen in the role of the vaudeville actress, and Miles McCarthy will play the Reno judge.

Newspaper reviewers have agreed that "Lightnin'"'s strongest interest lies in the quaint originality of its central character. Bill Jones is a gentle natured old mountain truant, and prairie for not unlike Rip Van Winkle, and it is a happy coincidence that the character will be introduced here by a son of Rip's beloved creator.

Mail orders for "Lightnin'" will be filled at once in the order received.

### Two Congressmen Air Quiz Members

Two representatives and one senator are members of president's board of inquiry, but congress is expected to conduct a probe of its own into aircraft situation. The house members of Coolidge committee are (top) Rep. James Parker, New York; (below) Carl Vinson, Georgia.

### MORE VIOLATORS FINED IN COURT

Six more traffic violators, arrested by State Traffic Officers J. J. McMahon and C. P. Talent yesterday, appeared before Judge Glenn O. Taylor today to plead guilty to the various charges preferred against them.

Gordon Voorhies, well known local rancher, was fined \$15 for speeding; Otto Hoygaard of Klamath Falls was fined \$15 on a similar charge; Carl Hammer of Gold Hill, fined \$10 for improper license plates; H. A. Dana of Portland, fined \$20 for speeding 15 miles an hour on the Jacksonville highway; B. F. Othius of Portland, fined \$15 for speeding, and J. W. Jennings, an Ashland youth, drew a \$10 fine for driving at night without a rear light.

The first two arrests were made by McMahon and the others by Talent.

### TORTOISE FAVORED JEWELRY

Tortoise is seemingly gaining favor for novelty jewelry, accessories and hat trimmings, according to the Dry Goods Economist. An unusual evening vanity seen at a leading Fifth avenue store has a tortoise shell cigarette case from which hangs a long silk tassel in the favored blue pencil blue. Beneath the tassel is concealed a perfume vial and a lip stick.

Another smart shop shows a tortoise shell choker with a matching bracelet, which is encrusted with gold. The vogue for tortoise is also revealed in a brown suede bag, the trimmings of which stress this tendency.

### Bible Thought for Today

WHY WILL YE DIE?—Get away from you all your transgressions whereby ye have transgressed; and make you a new heart and a new spirit: for why will ye die, O house of Israel? For I have no pleasure in the death of him that dieth, saith the Lord God; wherefore turn yourselves, and live ye.—Ezek. 18:31, 32.

### AN OPERATION RECOMMENDED

Avoided by Taking Lydia E. Pinkham's Vegetable Compound

Los Angeles, Cal.—"I cannot give too much praise to Lydia E. Pinkham's Vegetable Compound for what it has done for me. My mother gave it to me when I was a girl 14 years old, and since then I have taken it when I feel run down or tired. I took it for three months before my two babies were born for I suffered with my back and had spells as if my heart was affected, and it helped me a lot. The doctors told me at one time that I would have to have an operation. I thought I would try 'Pinkham's,' as I call it, first. In two months I was all right and had no operation. I firmly believe 'Pinkham's' cured me. Everyone who saw me after that remarked that I looked so well. I only have to take medicine occasionally, not but I always keep a couple of bottles by me. I recommend it to women who speak to me about their health. I have also used your Sanative Wash and like it very much."—Mrs. E. GOULD, 4000 East Side Boulevard, Los Angeles, Cal.

Many letters have been received from women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after operations have been advised.

### NEW BUILDINGS TO BE ERECTED

Four additional building permits, totaling \$6200, were granted by the city building department to local citizens yesterday. All permits are for residences. The total for the entire month of September will exceed \$230,000.

Yesterday's permits are as follows: Mrs. G. L. Rantz, \$1000, 3-room dwelling on Apple street; C. J. Schabel, 4-room house on Edwards street near 4th, \$1800; Ernest Klinkle, \$1600, 4-room house, Vancouver ave., near 9th, and Martin Paulson, \$1900, 4-room residence, Beatty street near Central avenue.

### Local Pears Seen in London By Ex-Grower

A very interesting card was received recently by H. Van Hovenburg of Sams Valley from E. F. Guthrie, former well-known local orchardist, now of Marcell's Pound, Paddock Wood, Kent, England. Mr. Guthrie wrote that he had seen some of the latter's Bartlett pears on sale at Convent Garden at 30 shillings a box. They presented a beautiful appearance and were hard green. The card went on to say that the pear market should be very good in London this year, as there are practically no pear crops in Europe.

"Eat your own apples, we don't want them," he wrote in regard to that fruit, of which, it seems, there is a plenty in that country.

### Wall Street Report

NEW YORK, Sept. 29.—Speculative energies in the stock market today were directed toward higher levels, regardless of another advance in the call money rate to 5 1/2 per cent. Bullish operations were conducted with considerable success in most of the popular industrials. The closing was strong. "Big Four" bounded up ten points and Atlantic coast line was lifted four. Nash jumped into prominence in the motor group with a ten point gain.

Detroit Edison fell back on profit taking and S. S. Kresge broke 17 points. Sales approximated 1,950,000 shares.

### TWO BODIES RECOVERED.

(Continued from page one.)

operations this morning after being forced by strong tides last night to stop their work.

While these men prowled through the submarine, the hum of seaplane motors could be heard overhead as naval aviators flew low over the surrounding waters in an effort to find the bodies of three men believed to have been washed overboard with the three survivors who were picked up by a City of Rome lifeboat.

The body of William T. Teschemacher, seaman first class, of Bangor, Pa., was the second to be found on the S-51 by divers today.

Teschemacher's twin brother, Frederick, also was aboard and is believed to have been lost. Frederick was thought to have been at the helm when the submarine was struck and was one of those washed overboard. The boys were 19 years old.

William's body was taken aboard the Camden and it was reported in the message from Rear Admiral Christy that all bodies would be taken to the naval hospital at Newport instead of being brought to New London.

The message did not state in what compartment the youth's body was found but indicated that the diver who entered the submarine may have gone in through the conning tower hatch instead of the battery room hatch, as first reported. The latter message said he was working toward the battery room hatch from the torpedo room.

Hope is Abandoned.

Today it was a search for bodies. Last night it was a search for men. Little hope that any of the 33 in the

### Judge Lambasts Prohibition Agents

Peoria, Ill., is echoing with the sensation sprung by Circuit Judge T. N. Green (above) in charging a grand jury, when he demanded a probe of the recent operations in Peoria of "Lone Wolf" Asher, federal dry agent. The judge is quoted as calling Asher and his aides "hungry dogs" sent to Peoria from "that cesspool of iniquity, Washington, with shotgun and revolver, trampling the liberties and violating the rights of American citizens like an invading army." Asher welcomes the probe

crew could be alive was held out by officers at the naval station, although none would publicly admit that they believed all their shipmates were dead. Even when word was received that 29 coffins had been ordered from the Chelsea naval hospital to the Newport station, Lieutenant Commander H. A. Flanagan, executive officer of the base, stressed the point that a part of the work of the divers was to make sure that all possible air was being pumped into any compartments that might hold survivors.

The divers, said a message received at the base, were working separately. One of them was inside the S-51 working forward, the other was on the outside of the same part of the ship.

ON BOARD U. S. S. CAMDEN, OFF BLOCK ISLAND, Sept. 29.—(By Wire- less to the Associated Press.)—A tugler called attention and blew taps today as the blanket-wrapped bodies of two victims of the S-51, which went down last week, were lifted tenderly over the sides of the U. S. S. Camden, flight ship of the rescue fleet which is working to recover the 33 men who sank with their ship.

Both bodies were in good condition, the lack of air in the sunken submarine and the intense cold of death at 128 feet preventing decomposition.

Each 15-cent package contains directions so simple any woman can tint soft, delicate shades or dye rich, permanent colors in lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings—everything!

Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

Report Declared False.  
U. S. S. SUBMARINE BASE, NEW LONDON, Sept. 29.—(A. P.)—Lieutenant Commander H. A. Flanagan, executive officer of the submarine base, said today he did not believe it possible that the S-51 had been raised and all on board were dead, as reported in a dispatch quoting a Long Island radio station as having that information.

"In the first place we'd have a message," he said, "and we have not any. In the second place it's virtually a physical impossibility. The two wrecking ships have gone back to Newport and they would not have had time to return to the scene. In the third place, about two hours ago

divers were below taking out a man's body. It takes the divers an hour and a half to come to the surface and they could not lift the submarine while the divers were below, that would leave them only half an hour to raise the ship; it couldn't be done."

ASSESSORS TO BE QUERIED.  
(Continued From Page One)

did not continue in every honorable way to bring about a more equitable distribution of the burden of taxation. I know full well that the present assessment laws are not equitable, and that the tax burden is not being justly distributed. I know of no better

way to bring about the repeal of a bad law than to enforce it. As county assessor you have no alternative except to enforce the law as you find it."

PLAYS U. S. AIR HEADS.  
(Continued from page one.)

and two aides carried voluminous documentary exhibits. The board declined to place him under oath and assured him his testimony would be given credence. Colonel Mitchell had nine papers he desired to read, all "destructive," except one which was "constructive," and which he said he would not read if the board objected.

MANN'S—The Best Goods for the Price, No Matter What the Price—MANN'S

### Wednesday Specials At Mann's Big Dept. Store SENSATIONAL BARGAINS IN COATS

**\$20 Coats \$12.50**
