

# WORLD SERIES TO BE BROADCASTED BY MAIL TRIBUNE

Through the courtesy of the Virginia Radio company the Mail Tribune will broadcast the result of the world's series baseball games which start next week, Wednesday, play by play, through a loud speaker at the corner of Main and Fir streets.

This system met with such enthusiastic public approval last year, that the Mail Tribune has decided to make it a permanent feature.

Every incident of the world's greatest sporting event will be made available to the people of Medford and Jackson county, a few minutes after they have occurred.

This splendid service is made possible by the cooperation of the Associated Press, the greatest news gathering agency in the world, of which the Mail Tribune is a full leased wire member.

## Wire Report on the Pear Market

NEW YORK, Oct. 3.—(U. S. Bureau of Markets.) Friday's pear market: Twenty-nine cars California; one New York; 25 Oregon; 21 Washington; 16 New York by boat; market steady for good stock.

Oregon barrels 2079 boxes extras \$2.35 to \$4.65; top \$1.55 to \$1.85; average \$3.17; Fancy \$2.10 to \$2.75; average \$2.42. Anjou 1025 boxes fancy \$2 to \$3.75; average \$3.42; box 445 boxes fancy \$3.85 to 4.60; average \$4.32.

## Wall Street Report

NEW YORK, Oct. 3.—Broad buying of the motor and popular industrial shares added impetus to the forward movement of stock prices today. Short covering accounted for sharp upturns in many issues. United States Steel barely held its own in profit taking despite predictions of an increase in unfilled tonnage at the end of September. American Can also was heavy. Sales exceeded 1,000,000 shares.

### Lumber Co. Safe Robbed.

BEND, Ore., Oct. 3.—The safe in the office of the Redmond Lumber and produce warehouse at Redmond was blown up and robbed some time last night, according to J. H. McFickle, manager. While only about \$15 in money was taken, valuable papers were included in the loot taken.

### PRESENT WATER SUPPLY UNIT

(Continued from page one.)

Dr. Jud Rickert, who lives close by the reservoir, also disputed Mr. Kelly's statement as absurd, and declared that the reservoir he personally knew was always kept in a clean condition. City Water Superintendent Davis also backed up the statements of Messrs. Gaddis and Rickert, and stated that the city always cleaned the reservoir twice a year, and whereas at times the regular cleaning for due to natural causes and difficulties which prevented the six-monthly cleaning had extended over somewhat at times, never had the reservoir went without cleaning for a period of two years, one year, or anywhere near one year.

In regard to the question of Mr. Kelly as to keeping within the estimate of \$975,000 for the new supply and system, Engineer E. C. Dillard explained how he and his assistants, and the water board commission, had made a long and thorough study of the proposed improvements, and told of the different steps taken as to reaching the probable cost, including consultation with leading contracting firms which would probably enter bids if the water bond issue was passed.

To the price estimates thus obtained, etc., Engineer Dillard said 10 per cent had been added to the total estimated cost to cover things which might have been overlooked, and that the new supply system and extensions would be built well within the \$975,000 bond issue, and that something would be saved besides.

H. L. Walthers, E. C. Gaddis, City Attorney John H. Carlin, Mr. Dillard and others entered into the general discussion, favoring the water bonds and courthouse issues.

W. H. Phipps also asked several

## Poultry diseases and their control

By Dr. Cliff D. Carpenter, Pathologist, Petaluma Avian Pathology Lab., Formerly Poultry Pathologist, Univ. of Calif.

**Just off the press FREE**

Covers all the diseases common to poultry on the Pacific coast. Tells causes, symptoms and best treatments. Taken up disease according to ages—much simpler, more helpful. Just send the coupon, you'll get a copy free, without obligation.

## LEAGUE STANDINGS.

CHICAGO, Oct. 3.—(A. P.)—Official standings of the baseball leagues, including games of Friday:

National.			
W.	L.	Pct.	
Pittsburg	94	57	.623
New York	86	64	.573
Cincinnati	79	72	.523
St. Louis	76	75	.503
Boston	69	83	.454
Brooklyn	68	84	.447
Chicago	67	85	.441
Philadelphia	60	85	.437
American.			
Washington	96	55	.636
Philadelphia	88	62	.583
St. Louis	82	69	.544
Pittsburg	79	73	.520
Chicago	77	75	.507
Cleveland	70	82	.461
New York	68	85	.444
Boston	47	105	.309

### Yesterday's Results.

At Portland, 9; Salt Lake, 12.  
At Seattle, 6; Sacramento, 3.  
At Oakland, 8; Vernon, 3.  
At Los Angeles, 6; San Francisco, 1.

## BOSTON HAS ONE GAME TO CINCH FIFTH POSITION

NEW YORK, Oct. 3.—(A. P.)—Second division contenders in the major leagues were still battling for positions today with prospects of their final rating being undecided until the season's closing games tomorrow.

The Cardinals dispelled any hopes of the Cubs to finish in fifth place by beating them 4 to 3 yesterday. Chicago is now but half a game in advance of the cellar home Phillies. Boston invades Brooklyn today to defend the fifth rank against the Robins.

The Braves need to win only one of their two remaining games with Brooklyn to annex fifth place while the Robins must win both a fifth to unseat Boston.

The Yankees failed to gain on the sixth place Indians in the American league by taking a shutout at the hands of the Athletics, 10 to 0.

The Red Sox made it three straight over the world's champion Senators, finishing on the long end of a 11 to 2 score.

## FAST TIME MADE IN SALEM RACES, RACE HORSE SOLD

SALEM, Ore., Oct. 3.—Fast time featured the harness races at Lone Oak track yesterday. When Johnny Morrissey did the mile in the first heat of the 2:20 pace in 2:09 1/2, it was announced by the judges as the fastest heat paced on the track during the week. But this was lowered by a fourth of a second by Hal Paxton, Jr., in the second heat of the consolation pace who did the mile in 2:09 3/4. Then No Limit came along and equalled Hal Paxton, Jr.'s time in the third heat of the 2:20 pace, while Hal Paxton, Jr. did it again in the third heat of the consolation.

Probably for the first time on Lone Oak track, at least for the first time in many years, a racing animal was bought yesterday by the filing of a claim. In the six furlong running race the claiming purse was posted at \$250. Peace Flag, owned by Ruth Paxton, former champion woman rider of the world, had opposite her name a selling price fixed at \$500, which gave anyone the right to file a claim for the animal by posting a check for \$100. This was done by Mrs. E. D. McElhany and Olive L. Held of Portland, and when lots were drawn for them after the race by Presiding Judge Pollock, Mrs. McElhany was the purchaser. Ruth Paxton attempted to buy back the animal for \$1500 but did not succeed. Peace Flag

took second place in the race. Hand-dolph with Huell up, winning in 1:14 1/2.

The four furlong run for two year olds was won by Virginia Hedges, with Donovan up, time 49 3/4. The five-furlong run was taken by Ray Man, with Donovan up, in 1:02.

**Bend Defeats Redmond**

BEND, Ore., Oct. 3.—Bend high school won the annual county fair day football game from Redmond yesterday by a score of 7 to 6. The game was played on the county fair grounds field and Redmond failed to kick goal after the lone touchdown.

### ALL DOUBTS SWEPT ASIDE.

(Continued From Page One)

Thereupon, after making a most careful investigation to ascertain that there was sufficient water to protect both the land owners of the district and the city of Medford, the state engineer gave the city of Medford a permit for 30 second feet with equal priority with the Eagle Point District.

The records obtained by the geological survey show that even in a year as dry as 1925, the driest year of which it has any record, there would have been available in July and August enough water to supply both the Eagle Point District and the city of Medford and that neither could be harmed by granting both the Eagle Point and Medford permits.

Later the state engineer issued further permits to the city of Medford in accordance with the filings of the water committee and the legislative act of 1925. While these additional permits may not be required for years, they assure the city that no other appropriations will be made which might prevent the city from having plenty of water to meet all future needs.

Regarding the so-called Rowley right we would say: On August 21, 1915 all permits held by Ralph A. Rowley were cancelled by the state water board as the condition of the permits had not been complied with. No extension of time was granted on these permits and they have not been reinstated. Also no construction work of any nature had ever been done or any attempt made to put the water to beneficial use.

On September 6, 1915 said Ralph A. Rowley assigned all his right, title and interest to the foregoing mentioned permits back to the state engineer.

Last September the Rowleys brought suit against both the Eagle Point district and the city of Medford and were beaten. Judge Leavitt of Klamath Falls, sitting for Judge Thomas decided that the Rowleys had no interest in the waters of Big Butte and could not enjoin either the district or the city from using the water.

From these facts your engineers and attorneys have reached the following conclusions:

1. That there is no conflict between the rights of the Eagle Point Irrigation District and the City of Medford, there being enough water in the stream to supply the estimated maximum needs of both the Eagle Point District and the city of Medford.
2. That the additional rights under the legislative act of 1925 granting to the city all of the unappropriated water of Big Butte Creek do not affect either the Eagle Point permit or the 30 second feet equal priority permit of the city of Medford but apply only to the water in the stream over and above these two permits.
3. That the permits of the Eagle Point district and the 30 second feet permit of the city of Medford are both dated as to priority as of August 21, 1915, the date of the withdrawal.
4. That the 30 second feet city right of equal priority with that of Eagle Point is of the same legality as the Eagle Point Irrigation district rights which were approved by the attorneys for the bond house which purchased the Eagle Point Irrigation District bonds.
5. That we see no conflict between the Eagle Point District rights and those of the city of Medford.
6. That the Rowley interests have no rights whatever to the waters of Big Butte creek.

JOHN H. CARRIN, City Attorney of City of Medford.  
A. E. REAMES, Consulting Atty. Water Com.  
F. C. DILLARD, Engineer Water Commission.  
J. M. SPENCER, Engineer, Mgr. Eagle Pt. Irr. Dist.  
H. K. HANNA, Atty. Eagle Point Irr. Dist.

## ANOTHER ASHLAND DIVORCE IS FILED, TOTAL REACHES 56

Agnes Bowers Friday filed suit in the circuit court against George Bowers, charging cruel and inhuman treatment, alleged that her husband treated her with indifference for the greater portion of their married life, left her alone evenings and failed to escort her to places of amusement and social functions. The couple were married in Jacksonville, December 27, 1915, and reside in Ashland; it is the 56th divorce suit of the year for Jackson county.

In the divorce suit of Agnes E. Johnson against Cecil Johnson, the defendant replies, and charges that his wife represented herself to be a good housekeeper, when she proved to be otherwise, brought her folks to stay at their home, and that he was forced to cook his own breakfast. The Johnsons were married May 6th, last, and resided at Gold Hill.

The defendant further charges that since and previous to the filing of the divorce suit the plaintiff "has been attentive to other men" and attended dances with them.

**O-OH! IT'S GOOD**

"Buy me an ice cream cone," is the general plaint of every child when the warm days of summer roll round.

It is fortunate that this wish can be so simply filled. And parents need have no qualms about it—a rich, pure cream is one of the most beneficial of foods.

Make the little one happy and healthy with ice cream cones!
