PRESENT COUNCIL NOT AFFECTED BY PROPOSED BILL

It has been stated that the amendment to be voted on tomorrow for overlapping terms of councilmen will continue the present council in office two more years.

This is not true. The amendment if carried will not affect the present councilmen. If it carries, at the next election one councilman will be elected for a term of two years from each ward and one councilman for a term of four years from each ward. In future elections one councilman will be chosen from each ward for a term of four years, which will leave four experienced men on the council each year. As it is all have to be elected each year. No good business man would change his entire working force every few years and have all new men at the helm.

Vote 510 X yes tomorrow.
