NEEDLE'S EYE OF BIBLE REFERS TO CITY WALL GATE

PITTSBURG, Kan.—The "needle's eye" referred to in the New Testament is a small gate in the Wall of Jerusalem, not a sewing needle, at least in the opinion of Job Negeim, 23 year old Arab guide in the Holy Land, who is studying music at the Pittsburg State Teachers college.

The Biblical passage to which this meaning Job has adduced a new modernism is in Mark 10-25, wherein Jesus chided those who "trust in riches," saying: "It is easier for a camel to go through the eye of a needle, than for a rich man to enter the kingdom of heaven."

"The needle's eye," says Negeim, "commonly misunderstood as the eye of a sewing needle, is known to Jerusalem as a small gate within a larger gate in the city walls. It is for the use of pedestrians after the larger gate is closed for the night for protection. The gate is so low that an average-sized man must stoop low to go through it."

BOBBED HAIR WAS BROUGHT IN BY REIGN OF TERROR

HOLLYWOOD, Cal., Oct. 12.—(A. P.)—The fashion of bobbed hair was in vogue during the French revolution, at least by women who faced decapitation by the guillotine. Testimony to this was disclosed in a grim little satire, written by a French woman at the time of the Commune, which was found in a mass of French books and manuscripts obtained by a large motion picture studio here for research work.

The writer commented on the prevalence of ahorn tresses in this wise: "It is the custom before women are executed to cut off their hair, that it may not interfere with the executioner's blade. So all Royalist women go to the guillotine with their hair off at the neck. Incidentally, the head soon follows this example."

"Grissett" as a bit of humor, began cutting their hair the same way—

OUTSIDE DISTRICTS DECLARED A PART OF CITY BY MAYOR

The city council held a special meeting this afternoon for the purpose of canvassing the vote on annexation cast at the recent special election, and for this purpose only, and following this action, Mayor O. O. Ajenderfer will issue a proclamation, probably today or tomorrow, to the effect that the districts voted on are now a part of Medford, which voted to admit them.

That is all there is to it, as some time prior to the special election held last week the property owners of those districts had voted to become a part of the city. These districts comprise the following sections: Laurelhurst addition, five blocks; practically all the section between the city reservoir and Siskiyou Heights, taking in territory about a mile in extent; North Riverside addition, five blocks; Earhart addition at the end of South Riverside, about an acre; and West Second street addition, one block.

PRINCE OF WALES FIEND FOR MUSH

OXFORD.—The Prince of Wales did not like porridge any better than thousands of other children who make wry faces over their oatmeal in spite of all the Scotch manufacturers can do to popularize it in the British Isles.

In an address before the Industrial Welfare society, Mrs. M. A. Claudesley Broerton told an anecdote of the prince's youth. On his last morning at home before he was to go into the naval service, when the porridge was set before him he said: "Well, thank goodness, there is one thing about going into the navy. I won't have to eat this beastly stuff every morning of my life."

But to the surprise of the prince his first breakfast in the navy began with stiff porridge handed out in wooden bowls. He knew what his duty was when he saw the knowing look exchanged by two senior officers, and swallowed the inevitable oatmeal.
