

BRINGING UP FATHER

By George McManus

COURT CONDEMNS CALLING WITNESSES WHO SAY NOTHING

The defense in the trial of William McCampbell and William Todd, charged with violation of the national prohibition act, was under way in the federal court today, and the case is expected to be given to the jury by the middle of the afternoon. McCampbell and Todd are charged with transportation of liquor and were arrested in the Klamath-Ashland highway last April. Fred Morey, a 70-year-old Klamath county detective, who has featured as a solver of some of the leading crimes of that district in the last two years, was called as a character witness, as was F. C. Beckoldt, a rancher. Neither gave any testimony, which caused the court to inquire why they had been subpoenaed, characterizing it as "a fraud upon the government." W. P. Myers, former district attorney of Klamath county, was also called as a witness.

JOHNSON OFFERED VAUDEVILLE JOB

PITTSBURGH, Oct. 15.—(A. P.)—Water Johnson, the Senators' pitching ace, has been offered a contract to appear in vaudeville, beginning at the New York Hippodrome next Monday, at a salary of \$2,000 a week, provided he wins today's game of the world's series with the Pirates. Eugene Connolly, local theatrical manager, announced that he had made the offer to Johnson on behalf of the Keith circuit management. Johnson's wife said last night it was doubtful if he would accept, as he had planned to spend the winter in Florida.

HELICOPTER FLIGHT COMPLETE SUCCESS

FARNSBROUGH, England, Oct. 15.—Hundreds of spectators yesterday watched the second ascension of the helicopter invented by Don Juan de la Cierva, which made its successful initial flight on Monday. Captain Courtney took the machine over Laffan's plain and covered about ten miles. From the altitude the helicopter arose to an altitude of more than 3000 feet, then swooped to within one hundred feet of the ground and again shot vertically into the air. It was maneuvered easily and with only the rotary overhead propeller working. The machine landed with its wings flapping as gracefully as a bird. Previous descriptions of the Cierva helicopter or "autogyro," said it consisted of a fuselage with a 130-horsepower engine driving a propeller in the ordinary way. Above the machine on a vertical shaft are four bird-like flapping wings. When revolving at 120 revolutions a minute these exert more than sufficient force to lift the machine. The revolving wings, it is claimed, will permit the machine to descend safely even with the engine dead.

COMMUNICATIONS

Speed Flunks a Menace. To the Editor: Will you allow me space in your valuable paper for a few words to careless car drivers. Tonight, as I sit here listening to the moaning of an old gentleman 74 years old, I think how much time and suffering might have been avoided if three sensible minutes could have been spared at the right time. I have said "time" first, because invariably the autoist puts that had the driver of the wagon truck that struck Mr. Carey stopped three

It's Good for the Golf Stroke

OSSINING, N. Y.—A new resident of Sing Sing who arrived in golf togs has been put to work shoveling coal.
