

Local and Personal

The deer hunting season which opened September 20th, closes at sundown this evening. Many hunters are still out in the hills taking advantage of the last day, and a number of dead bucks have been brought back by returning hunters within the past two days. The local state game officials warn the public that after today it will be unlawful to have venison in one's possession unless it is legally tagged with a state game commission seal, whether or not in cold storage. Every dead game bird must also be tagged, else a fine will follow.

"Pheasant hunters were out by the hundreds yesterday and every field had its quota of men armed with shot guns. But luckily every hunter did not get his full quota allowed by law, or the pheasants of Josephine county would have been thinned to a minimum," says the Grants Pass Courier. "It is regarded here as a serious mistake in allowing the season to continue for 15 days. The pheasants were just beginning to get a good start here and 15 days will see a severe setback in their propagation. Five days would have been a long enough period of open season for these birds. The matter should be taken up with the state officials and next year a shorter time limit on hunting put into effect."

Salem, Oreg.—"I consider Dr. Pierce's medicines are the very best that can be used by those who are in need of medical aid. When I was growing I became run-down and suffered with irregularities, but after taking Dr. Pierce's Favorite Prescription I got strong and had no more trouble. I have also taken Dr. Pierce's Golden Medical Discovery and found it an excellent purifier of the blood and for disordered stomach. I highly recommend both of these medicines of Dr. Pierce's as I have found them good and reliable."—Mrs. Alice D. Myers, 1483 No. Summer St.
