The O. A. C. football team, en route to Palo Alto to play Saturday with the Stanford university team, during the Santa train stop here last evening was greeted by 40 local graduates and former O. A. C. students, who wished them good luck for Saturday. The members of the team are in great spirits for this game and are determined to win it. Several boxes of apples were put on the train by the local delegation which were quickly eaten.

Ashland is to have no Winter Fair this year, or at least it will have no Winter Fair sponsored by the Chamber of Commerce. This decision was made at a meeting of the board of directors of the chamber Tuesday evening, and announced yesterday afternoon. The matter of holding this annual event has been under discussion for some time, both at directors' meetings and at the open forum luncheons. Opinion has been about evenly divided on the matter, many declaring that the fair was not worth the work necessary to put it over in good shape, while an equal number declared that it should be continued, as an advertising feature if for nothing else.—Ashland Tidings.

If Kidneys Act Bad Take Salts

Says Backache Often Means You Have Not Been Drinking Enough Water

When you wake up with backache and dull misery in the kidney region it may mean you have been eating foods which create acids, says a well-known authority. An excess of such acids overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels, removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate sluggish kidneys, also to neutralize acids in the system, so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive, can not injure and makes a delightful, effervescent lithia-water drink. Drink lots of soft water. By all means have your physician examine your kidneys at least twice a year.
