

Local and Personal

Despite the nice weather and the large amount of new building, and cleaning up work about yards and homes, temporary jobs of any kind are growing scarce in this city and demands for them are increasing, especially on the part of "floaters" who arrive in the city in a practically penniless condition. Orchard work and the like is growing scarcer, too, every day, thus throwing many permanent residents out of employment. Hence the local free employment branch of the U. S. labor bureau in the Chamber of Commerce has had work to locate jobs for even an hour or two's duration. For the growing number of applicants.

Number one sugar pine shakes at Pollock's Central Point. 212*
