

MARSHFIELD IS OUTCLASSED BY HI SCHOOL TEAM

The Medford high school football team, outweighed 15 pounds in the man, defeated Marshfield high school 41 to 7, before 1500 people, at the new Holly street grounds Saturday afternoon. A fiercely charging machine, with perfect interference, trampled down beef and brown.

Marshfield's lone touchdown came on a fumble by Conrad in the first five minutes of play, after the ball was within the ten-yard line. Crews of the visitors, recovered and raced the length of the field.

Nettled, at having their goal crossed for the first time this season, Medford unleashed a brilliant and dashing attack, led by Conrad, Senn and Moore, and at the end of the half had scored four touchdowns, and were near another when the half-way pistol sounded.

The standing defense of the Coos Bay squad crumpled up like a paper sack. They were bewildered by an assortment of trick plays that, coupled with line smashes brought consistent yardage on every play.

The game was hard played, but clean, and free from roughness. In the last minutes of play, Coach Callison put in his second squad, and Marshfield ripped off yardage, the final run finding them at the 15-yard line, nearing a touchdown.

Crews, Dasher, Maginnis and Sheedy starred for the visitors, and Neff, Hubbard, Morgan, Senn, Moore and Conrad, supported by teamwork of their mates, played the best for the locals.

The next game for Medford is with Ashland in this city on Armistice Day.

The Grants Pass team was defeated Saturday at Grants Pass by Cottage Grove, 19 to 13.

92 CASH REGISTER SALESMEN, CITED FOR LAW BREACH

CINCINNATI, Nov. 2.—(A. P.)—John L. Lott of the department of justice, Washington, D. C., announced he would ask for citations here late today of 92 salesmen of the National Register company, Dayton, Ohio, for contempt of court for alleged violation of an injunction issued against the company in 1916 to restrain unfair sales practices.

The department of justice, Mr. Lott said, has been investigating for the last year alleged illegal sales of the National Cash Register company in its competition with the Remington Arms company, with the American Cash Register company of Saginaw, Mich., and the St. Louis Cash Register company of St. Louis.

Mr. Lott said the specific charges against the salesmen will be that they persuaded Remington customers to break purchase contracts; that they interfered with Remington salesmen and physically interfered with Remington machines; that they made false statements as to the solvency of the Remington concern and its capability to fill orders and that they tried to induce customers to discredit the Remington product.

SECRETARY WORK'S POLICY UPHELD BY SUB-COMMITTEE

WASHINGTON, Nov. 2.—(A. P.)—The District of Columbia court of appeals today affirmed the decision of the lower court which denied a mandatory injunction against Secretary Work to compel the setting aside of a decision of the department of the interior concerning lands withdrawn from forest reserve purposes in Oregon. The injunction had been asked for by Alexander G. Shaw, an attorney.

Justice Van Orsdel held that the president had not withdrawn land for the forest service without the consent of congress but had withdrawn it in order that congress might create a forest reserve and pending such action by congress.

WASHINGTON, Nov. 2.—(A. P.)—

A change in the method of reimbursement expenditures was advocated today by Representative Cramton, republican of Michigan, in a report to President Coolidge on an extensive inspection of irrigation projects in the west, just completed.

Representative Cramton, who is chairman of the house sub-committee which drafts the interior department appropriation bill, said that settlers should be required to complete their payments in 40 years with interest instead of having reimbursement to the government reckoned at five per cent of their gross crop, as the law now provides.

Dr. Bailey said that two preachers had come to him during the week and reported that they were continually being "solicited" by women of the painted cheek, and that brothels were in operation all around their churches.

NOBLESVILLE, Ind., Nov. 2.—(A. P.)—Madge Oberholtzer was given narcotics twice on March 28, the day she signed a dying statement charging D. C. Stephenson with having abducted and assaulted her, it developed at the trial of the former Ku Klux Klan leader today.

The girl took poison following the alleged abduction and attack and died several weeks later after having been returned to her home under mysterious circumstances.

SPORT BRIEFS

(By the Associated Press.)

New York Hockey club has finally been completed with a squad of 18 hockey players, most of them Canadians. The outfit, including Langloids and McKinnon of the Montreal Tigers, signed Saturday, will go into training next week for the national hockey league race.

Red Grange feels that he made good a year old promise in smashing the Pennsylvania defense Saturday.

"I want to show up the east," he said last fall. He did just that.

Tad Jones, Yale coach, was so gratified over the Eli team's triumph Saturday against Army that he indicated a week's rest would be given the first string players. Some of the men may even be out two weeks—until the Princeton game—these including Kline, who was slightly injured Saturday.

MITCHELL CASE CONCLUDED

(Continued from page 1.)

and navy officers also were named by the defense in a list of those it would like to question.

The name of President Coolidge did not appear on the list. The colonel and his counsel, after assessing the legal obstacles that would stand in the way of a subpoena from the president, had made up their minds not to try to summon him.

It was apparent from the colonel's action in seeking to bring cabinet

officers and members of congress into the trial that he hoped to thrash out in court the whole question of issues involved in the air controversy and thus present a justification for his charges that the air services had been administered with criminal and almost treasonable negligence. Whether the court will admit that procedure is questionable.

The army and navy officers, for whom subpoenas were requested by the defense included not only those in direct charge of the two air services, but those who have general staff supervision over the army and navy organizations as a whole.

Mrs. Lamsdowne Called.

In addition various aircraft experts and civilians were subpoenaed, they include Donald MacMillan, the arctic explorer; Grover Loening, the aircraft manufacturer; Mrs. Zachary Lamsdowne, the widow of the commander of the Shenandoah; Kearsaw Mountain Landis, the baseball czar, and Anton Heinen, one of the designers of the Shenandoah.

The defense also requested that Secretary Jardine of the agriculture department; Everett Sanders, secretary to President Coolidge and Dwight Morrow, head of the president's special air board be called.

The court proceeded with the actual opening of the trial without indicating whether it would summon those named on Colonel Mitchell's list of witnesses. Another motion by Mitchell's counsel to dismiss the charges on the ground that the court had no jurisdiction was quickly rejected.

The prosecution called to the stand as its first witness A. A. W. Yeager, reporter for the San Antonio, Texas, Light, to whom Colonel Mitchell gave a copy of his San Antonio statement containing the accusations that led to his court martial.
