

ONE-ARM WOLF CONVICTED, ALIBI FAILS TO WORK

MUNCIE, Ind., Nov. 19.—(A. P.)—Judge Clarence Dearth last night read solemnly the words of the verdict of a jury which found Charles "One-arm" Wolf guilty of murder in the first degree, spelling one of the closing chapters in a swift drama that has been a tragedy for all who held leading roles.

Despite an alibi set up by the defense the jury adjudged Wolfe guilty of the murder of Ben Hance, a farmer on August 14, and fixed his sentence at life imprisonment. Two companions of Wolfe's in his halcyon days of spectacular criminal exploits have already been dealt worse fates. Gerald Chapman, daring mail robber and alleged murderer, is awaiting execution of a death sentence imposed upon him for the murder of a New Britain, Conn., policeman. The other, George "Dutch" Anderson, met death at Muskegon, Mich., recently, when he engaged in a duel with a detective who had caught him while he tried to pass counterfeit money.

Hance and his wife were slain last August when they were beset on a country road near here. Before he died, Hance identified Wolfe and Anderson as his assailants. It was assumed at the time that their motive was to retaliate against him for information he was alleged to have given the authorities which led to the arrest of Chapman in Muncie earlier in the year.

When Judge Dearth slowly spoke the words that mean life in a six-by-nine cell for Wolfe, the latter broke down. His head found his hands while his elbows rested on his knees and he said to his mother seated beside him:

"Mother, I'm not guilty."

KENTUCKY FEUD SPREADS, LITTLE GIRL KILLS MAN

LOUISVILLE, Ky., Nov. 19.—(A. P.)—Dave Steel, charged with the murder of Sheriff Joe Morgan, which precipitated a feudist outbreak at Hyden, Leslie county, Saturday, necessitating the sending of state troops to the scene, was under arrest today and authorities of two other eastern Kentucky counties were investigating slayings in their respective jurisdictions.

Dispatches from Frankfort last night stated that Adjutant General Kehoe had received a telegram from Captain James A. Wooten, commanding the detachment of 24 guardsmen sent to Hyden from Hazard over horseback trails, had placed Steel in custody and that the tense situation caused by the arming of 200 partisans of the dead man and his alleged slayer had quieted.

At the same time advices from Whitesburg and Cynthia, told of the slaying of Isaac Caudill, 30, Breathitt county mountaineer, and James H. Sturgeon, in the Elk creek and Broadwell districts.

Relatives and friends of Morgan and Steel, both prominent, held a peace conference at Hyden last night in an effort to forestall lawlessness by the rougher element of Leslie county, who were using the slaying as the basis of preparations for a pitched battle, Hazard dispatches said.

Caudill died in a hospital at Blackeye, Ky., from wounds inflicted by Polly Engle, 16-year-old daughter of a widow he is alleged to have shot down while on a moonshiners' rampage into the Elk creek district near the Letcher-Perry Junction. Mrs. Engle is reported recovering. The girl used an old-fashioned rifle, a family heirloom, two shots taking effect. Caudill is said to have been drunk. Sturgeon, who was shot by Roy Claypool, 35, who claims self-defense, was struck twice at short range with a shotgun. He was likewise said to have been intoxicated. A coroner's inquest was to be held today.

SOVIET SCIENTIST CLAIMS HE HAS PROVED TELEPATHY

MOSCOW, Nov. 19.—(A. P.)—A young soviet scientist, Dr. Koshinsky, who has been studying the forces behind telepathy and hypnotism since 1919, announced today that he had succeeded in transferring human thoughts to animals at a distance while he himself was enclosed in a specially constructed iron box. He also hypnotized these animals, he said after he had placed them in the box while he was a considerable distance away.

Koshinsky asserts he is able to convey his thoughts by means of hypnosis to human beings from an isolated locality without actually seeing the person.

He thinks the results he says he has obtained, proves his theory that physical rays emanate, not only from the brain, but from the entire nervous system of every animal organism.
