

VAN SCOYOC FIELD TITLE ADOPTED BY HI SCHOOL BODY

By MARY JEAN MCKENDREE. At a recent study body meeting of Medford High a motion was passed, that the new athletic field be named Van Scoyoc field, in honor of the late Charles Edwin Van Scoyoc. "Chuck" as he was more familiarly known to his fellow students, was president of the Senior class of last year, editor of the Crater, and star right halfback on the football team. This position of leadership he had obtained because he had the rare combination of high scholarship, athletic prowess, business ability and good fellowship, which made him one of the best liked students ever to attend Medford High school.

Charles Edwin Van Scoyoc was born in Champaign, Illinois, December 11, 1907, and came to Rogue River valley with his parents when three years of age. He attended the Medford Public schools, having graduated from the Washington grammar school of this city in 1921, and was a student of the Medford High school at the time of his death. Chuck was a boy whose quiet personality, genial manner and all-round good fellowship made friends of whomever he met. Democratic in the extreme, and always having a cheery smile for everyone, he was loved and respected by faculty and students alike.

It is especially fitting that the new field be named at this time, a year since Charles Edwin Van Scoyoc passed away.

CHRISTMAS SEASON OPENING BEST EVER SEEN IN MEDFORD

The annual opening of the Christmas season last evening by the Medford Merchants' association was a holiday event and drew thousands from all parts of southern Oregon to view the artistically arranged displays of the several score of stores in the city. Last night's opening is regarded as the best in the history of the association.

Despite light rain hundreds of children gathered before the Chamber of Commerce long before the opening was scheduled and waited for the appearance of Santa Claus, who dealt out over 4000 horns for the merchants as well as numerous other noise-making devices.

At 7 o'clock the lights of the city became dark for two minutes to shine on the inviting displays unveiled during the darkness. At the same time the D. O. K. band commenced to play, for two hours entertaining the window shoppers as they wandered from store to store, viewing some of the best displays of merchandise in the state. Although rain fell intermittently, it failed to dampen their enthusiasm.

DECLARES LIVER CURES HIGH BLOOD PRESSURE

TORONTO, Ont., Dec. 2.—(A.P.)—Dr. W. J. MacDonald of St. Catharines, Ont., has appeared before the Toronto Academy of Medicine with the results of experiments which show that an effective treatment for high blood pressure has been found.

"An extract of liver has been obtained which possesses the property of reducing to a certain extent arterial hypertension when there are no complications," reported Dr. MacDonald.

The findings of his investigations, announced in a preliminary report last May, have been confirmed, said the investigator, by animal experiments and clinical tests on humans undertaken since, as well as by a preliminary chemical analysis.

LEGION BOYS TO POLICE GROUNDS AT SALEM GAME

According to Superintendent E. H. Hedrick, the policing of the grounds and the management of traffic at the Salem-Medford game next Saturday will be in the hands of the "40 and 8" of the American Legion, who will be on hand and in complete charge of the situation. Seven men of the local national guard company have also volunteered their services and have been detailed by Captain A. J. Cross to assist the gatekeepers.

It is planned to admit cars to the grounds, but they will be parked at least 20 feet back of the wire, leaving a space of that width in front of them for standing spectators. The charge for cars at the game is 25 cents each. Tickets to the game are 75 cents for adults, 50 cents for high school pupils and 25 cents for grade school pupils. Admission to the grandstand is 25 cents additional per person. The capacity of the grandstand is 500 persons. Reservations may be made at Crowson's or at the Chamber of Commerce.

A considerable block of grandstand tickets is reserved for Salem and neighboring southern Oregon towns. Such of these as are not accepted by Thursday evening will go on sale to the general public at the Chamber of Commerce.

Efforts of the authorities were directed largely to a search for a woman giving the name of Mae Reynolds who rented the apartment November 29, saying she planned to open a massage parlor.

Dead from chloroform or some other subtle poison, the body of the clergyman was found fully clothed, his overcoat wrapped around him, stretched out on two kitchen tables over which had been placed a folded quilt, a white bed spread and a sheet. A pillow was under his head.

Rev. Mr. Birkeland, who was 69 years old, had been missing for a week and a wide search for him had been instituted.

Dr. E. T. Bell of the pathology department, University of Minnesota, reported after a post-mortem examination that chloroform or ether had undoubtedly been used, and Coroner Seashore said it was not a case of suicide or accident.

COLDS THAT DEVELOP INTO PNEUMONIA

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified croscote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, croscote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to croscote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the croscote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. Creomulsion Company, Atlanta, Ga. (adv.)

The PANATROPE

REMARKABLE ACHIEVEMENT OF NOTED SCIENTISTS

United efforts and study of years by acoustic experts of the General Electric Company, the Westinghouse Electric Company, the Radio Corporation of America and the Brunswick Balke-Collender Company, results in the production of

The Greatest of All Music-Reproducing Instruments

The Brunswick Panatrophe

No words of ours can adequately describe this remarkable invention. Outwardly it retains the artistic lines of the Brunswick Console Phonograph, but otherwise it is new in every particular, doing away with all previous ideas of musical reproduction and setting for all time to come a perfect standard. Music as it actually sounds when you hear AND SEE the performer, music such as never before has been produced by any device—in short, absolute, faithful reproduction of the lowest or highest tone vibration that the human ear can detect!

Without losing a particle of the beauty of the original performance, the Panatrophe broadcasts for you in volume suitable for the largest theater or the smallest apartment. It is actual, living; you can almost see the artists!

The records are by a new electrical process. The reproduction does away with the old horn and reproducer system. The vibrations of the needle do not directly produce the sounds as in the phonograph, but the vibrations are translated into electrical currents, which are stepped up to actuate a loud-speaker. The result is pure, liquid tone, with all of its original beauty and no phonographic effect.

Free Demonstration of the Panatrophe

THURSDAY and FRIDAY

December 3rd and 4th

There will be a two-day demonstration of the Panatrophe on the second floor of our store, Thursday and Friday afternoons, this week. Four programmes will be given of one hour each, commencing at 1 o'clock and continuing until 5 o'clock. Admission will be free and all music lovers are urged to attend. You will be more than repaid.

As this is an advance showing of the Panatrophe there will be no instruments for sale at this time. However, we take great pride in announcing that we will soon have these wonderful instruments for delivery and will be the exclusive distributors for this territory.
