COOLIDGE GIVES A STERN REBUKE TO PORTO RICO

WASHINGTON, Mar. 17.—(AP)—President Coolidge has delivered a rebuke to agitators for complete independence in Porto Rico.

PROSPECT

Ollie Miller of Central Point visited his friend, Allan Hood, at the Evergreen ranch for a few days.

AS TO MRS. TUKOJI RAO.

MISS NANCY ANN MILLER of Seattle is now officially a Hindu princess, and fitted to wed her Maharajah amid all the exotic splendors of an East Indian court.

A more romantic situation for a young American girl could scarcely be imagined, and we fear some of the criticisms offered, proceed more from envy than from any genuine moral indignation.

After all the man a girl marries concerns no one but herself and her immediate family. If she and those nearest her are agreeable, the rest of the world should be content.

Marriage is a risky business under any circumstances, and fundamental differences in nationality and customs, increase the difficulties materially.

We see a Seattle epologist remarks that Miss Miller and the Maharajah spring from a common Aryan stock.

Sensible people will wish her well, and pay no attention to those who raise their eyebrows and predict disastrous consequences.

QUILL POINTS

A genuine wet is one who would rather be tight than President.

If George couldn't tell a lie when he saw one, no wonder a widow hooked him.

Bolshevists parade in Moscow at 20 below zero. In a climate like that, you've just got to be hot under the collar about something.

Noah parked his Ark on top of Mt. Ararat, proving that (1) you can begin at the top if (2) you have a pull.

There are just two classes. Those who delight in slogans and catch-phrases, and those who think.

Don't explain. The village clerk knows the cigarettes are for your husband; the metropolitan clerk doesn't care.

You can't expect much reform in a land where hatred of those who rob the public is seven parts envy.

Men are like animals. The smaller creatures are full of terror unless they're in a herd of their kind.

A spelling bee isn't like a political bee. You may know how to spell words, not how to spill them.

Americanism: Kicking about the income tax; feeling resentful if another man kicks under about paying more.

Turn about is fair play. In this age of luxury, invention is the mother of necessities.

Yet an automobile is just as unsafe as an airplane if a fool driver is at the controls.

One way for a woman to become a semi-invalid, needing constant petting, is to marry a man she thinks inferior to her.

Still, parents aren't always a nuisance. There must be somebody to change the dance records and wind the machine.

The straight and narrow way is unique in one particular. The detours offer easier going.

Promise of profit caused the old-timer to hold up the stage. The same incentive would cause producers to uplift it now.

Joseph, most celebrated of favorite sons, was sold into Egypt. The modern practice is to trade them for jobs at home.

Correct this sentence: "The truck," said he, "moved over promptly when I sounded my horn."

Correct this sentence: "Now," sighed the diners happily, "we shall listen to some speeches."

The self-confidence you teach a boy goes to his head; that he learns by himself goes to his backbone.

THE GREAT DETECTIVE SEEMS TO TAKE EXCEPTION TO THE FACT THAT AMBROSE POTTS PUT UP \$20,000 IN SECURITIES TO BAIL FLINT OUT.

Personal Health Service By WILLIAM BRADY, M. D.

Signal letters pertaining to personal health and hygiene, to large disease diagnosis or treatment, will be answered by Dr. Brady if a stamped, addressed envelope is enclosed.

PALLIAGES WE RELUCT TO BELIEVIN' 17.—That Some Ailments Are Self-Evident.

Many individuals suffering from intestinal disease, especially rectal troubles, seem content to drift along on the guess that it is just some kind of piles.

Actual statistics indicate that the victim's guess that his trouble is "bleeding piles" is accurate in six cases and wrong in four cases out of ten.

Yes, I've encountered such people. They prefer to worry along. And they are not all dumb, either.

Dr. Montague goes on to speak of the pleasure of being able to assure a patient, after proper examination, that he has no serious ailment.

I wish I knew how to scare a million people like that. The great drawback about some of our best medicine is that the dose has to be gauged by the individual requirements.

An "attack" of piles or hemorrhoids usually means recurrence of acute inflammation. The "attack" subsides, with or without treatment, and there follows an interval of freedom from trouble.

QUESTIONS AND ANSWERS

Premature Announcement. You referred to Dr. Don H. Duff's "hook for Diabetes" in a recent article.

Answer—I had seen a copy, and I assumed the book had been issued, but there seems to be some delay.

Does it spoil the effect of iodized salt to put it in the food while cooking? One lady said she thought it ought to be sprinkled on the food at the table.

Answer—Cooking or heating may possibly drive off some of the iodine, but this should not make any great difference.

The Schoolgirl Mentality. I am a girl 18 years old and a Junior in high school.

Answer—Some rouge preparations are injurious, not all. If a girl of your age gets the right sort of physical education and follows the rules of health and hygiene, she will have a better complexion than any drug store can sell.

Urchin Heap Troubles. Some time ago you gave a salve formula for the relief of sweating hands.

Answer—Apply to palms twice daily, a very little of this ointment: Solution of formaldehyde, 2 drams; Menthol, 2 grains; Lanolin, 6 drams.

A book that's boosted nowadays as being great and splendid, gave me a pain in forty ways, as through its leaves I wended.
