Mothers: Next to the natural laxative from a mother's breast, a plain, old-fashioned preparation is always best for keeping baby's little digestive tract clean and sweet. When your little one doesn't eat, or can't sleep, give him a few drops of plain Castoria. It is purely vegetable, you know. Any doctor will tell you that it is utterly harmless to the youngest infant. It is sweet to the taste, and sweet in the little stomach. Yet its gentle influence is soon felt all through the tiny system. Not even castor oil can compete with Castoria and how much better it is to use this milder means of regulating a baby's bowels. Never give baby opium or similar opiates, because, a few drops of Castoria are just as soothing, and no harm is done. That's the beauty of using pure Castoria; you can give it just as often as you discover any sign of colic, constipation, or diarrhea—those times when you don't know just what it is that has caused an upset. Only get the genuine Castoria—bearing Fletcher's signature. It isn't expensive, and with every bottle comes the book, "Care and Feeding of Babies"—worth its weight in gold to every mother and prospective mother. Children Cry for Fletcher's Castoria.
