tragic happening was narrowly averted at 17:41 am. yesterday, where Sixth, one of our youngest and most popular traffic arteries bisects the venerable Espee, an estimable railroad engaged in interstate commerce. Eye witnesses stood aghast, the hair sticking out on the backs of their respective necks, their blood ran cold, and they shivered in their boots, if any. Providence intervened just in Providence intervened just in time, being assisted nobly by the raucous yelling of a couple of brakemen atop a box-car. cahoose was proceeding in an orderly manner in a southerly direction, a woman of about 25 years was proceeding down Front street (also behaving), and an automobile of the virtage of 1923, of one of the better makes, was proceed ing west on Bixth street. Instead of watching the fermale, the driver was evidently watching the train, as he was not legally cognizant of its presence, negligently moving toward the space he was headed for. When he was awakened by aforementioned hullabaloo of the brakles, there was a great squealing and screaming of the brakes. Nothing was killed, unless you count the engine of the auto. The driver took off his lid, and seemed to be a trille grayer back of the ears, than he was when he started. It was all quite harrow-ing, which the farmers will be doing as soon as the ground dries out a bit. In justice to the careful notorist, the train was not going In the direction in which its ford-ratcher was pointed. The ford-catcher formerly caught cows, ex-clusively, but has kept pace with

A bystander opined that the uncalled for mossing up of the right-of-way had been averted, "by an ace," and another alleged it was "by a hair." Witnesses thought it was by the nine of spades, and further testified that the averting was baldheaded. Four out of five readers of these lines, if there are five readers, would say that it was a slim margin, at any rate, it was no fat margin. Mr. Frederick Fry. a barber, asserted it was a "close shave." We now rise to state, whether it was by a hair, or a stender margin, or some tonsortal work, or an ace, it might have been the deuce to pay.

## CAN LINDBERGH RETIRE?

SO COLONEL LINDBERGH has retired to private life, tired of the cheering crowds, the ceaseless acclaim; having his back slapped by the too enthusiastic proletaria, and his new shirts and hats stolen for souvenirs!

Imagine, for example, how much Nick Longworth, Senator Willis, Senator Watson, ex-Governor Pierce, Mayor Baker, Mary Garden, LaFollette the Younger, Tom Mix, Ben Sheldon-just to mention a few notables-would like to wear the wing-ed shoes that this hero of the air is discarding!

Ain't it funny what a difference just a few "tweaks" make!

And of course the question obtrudes, will Colonel Lindbergh

# Stomach Disorders First Revealed by Coated Tongue

Your tongue is nothing more than the upper end of your stomach and intestines. It is the first thing your doctor looks at. It tells at a glance the condition of your digestive system—and physicians say that 90% of all sickness starts with stomach and bowel trouble.

A coated tongue is a danger sig-nal of those digestive disorders which lead to so many kinds of serious illness. It tells why the least exertion tires you out; why you have pains in the bowels, gas, sour stomach, dizzy spells.

Coating on the tongue is a sign that you need Taulac—the medi-cine which has helped thousands who were physical wrecks from stomach and bowel troubles—who had "tried everything" in vain and about given up hope.
