WEATHER CODE NOW BROADCAST BY U. S. BUREAU

News of interest to the owners of radio sets in Medford and Southern Oregon in general is that word was recently received by I. Walter Dick, meteorologist in charge of the United States weather bureau station of Medford, from the weather bureau headquarters at Washington, D. C., that the U. S. weather bureau is now broadcasting weather reports, forecasts and warnings in international Morse code, directly from the weather bureau office in San Francisco, in cooperation with the office of communications of the Navy department, by distant control with the Naval Radio station NPG at San Francisco.

These broadcasts are made for the benefit of the army, navy, and commercial aviation fields, for business organizations, and as a general public service. Copies of the code may be obtained from the Superintendent of Documents, Washington, D. C., at \$1.25 each.

The following is the schedule, wave length, and other information given out now by the U. S. weather bureau, including how to obtain a code book.

6:15 a. m.—Current weather observations from stations in the United States, Canada, and Alaska. Broadcast simultaneously on frequencies of 4,175 and 8,350 kilocycles. (71.8 and 35.9 meters).

7:30 a. m.—Bulletin containing weather reports, information, forecasts, and storm warnings for the benefit of marine and aviation interests. Broadcast simultaneously on frequencies of 42.8 and 8,550 kilocycles. (7.005 and 35.9 meters).

6:15 p. m.—Current weather observations from stations in the United States, Canada, and Alaska. Broadcast simultaneously on frequencies of 4,175 and 8,350 kilocycles. (71.8 and 35.9 meters).

7:30 p. m.—Bulletin containing weather reports, information, forecasts, and storm warnings for the benefit of marine and aviation interests. Broadcast simultaneously on frequencies of 42.8 and 8,550 kilocycles. (7.005 and 35.9 meters).

6:15 a. m. and 6:15 p. m.—Pacific standard time, at about 150 stations in the United States, Canada, and Alaska, and show sea-level barometric pressure, current temperature, wind direction, temperature (minimum in a. m. reports and maximum in p. m. reports), wind velocity, amount of precipitation, clouds, and other data. These broadcasts are made for the benefit of army, navy, and commercial aviation fields, and as a general public service.

The 7:30 a. m. and 7:30 p. m. broadcasts are the regular marine and aviation bulletins heretofore broadcast at 9 a. m. and 7:30 p. m. A detailed description of these broadcasts appears in Weather Bureau Radio Circular No. 19, dated April 15, 1926, but amended as follows:

Kodiak, Alaska, and Dutch Harbor, Alaska, observations are taken at 4 p. m. and 1 p. m. Aerological data are included in the surface reports of the following stations: Seattle, San Francisco, Los Angeles, San Diego, Spokane, Boise, Reno, Salt Lake City, and Modena.

Weather reports from ships in the north Pacific ocean will follow the reports from land stations as heretofore, but 4 a. m. reports heretofore will be broadcast in the 7:30 a. m. bulletin of the same day, and the 4 p. m. reports in the 7:30 p. m. bulletin of the same day.

These drug stores are open nights this week. Medford Pharmacy, Heath's Drug Store, Strang's Drug Store.

CHANGES MADE IN RUSSELL'S STORE.

Russell's Department store, when it opens for business tomorrow, will greet the public with a number of new improvements.

These improvements include the removal of the military department toward the front part of the store and a new show window, which was decorated by H. Cleveland, one of Medford's best artists in the making of backgrounds for display windows.

In connection with the improvements, Russell's Inc., will also present to the public a new and larger line of women's ready-to-wear, including popular priced lines as well as the lines that command higher prices.

The interior of the store has been repainted by Code Hall and presents a regular metropolitan appearance, giving Medford one of the best department stores in the state.
