WHERE HO OVER RESEMBLES COOLIDGE

IF MR. HOOVER is elected President, he will resemble President Coolidge in many respects. He will not talk very much but when he does talk he will talk sense...

That is the general impression. Give Mr. Hoover a big job like feeding Belgium, relieving the flood-devastated South, or turning a hopeless mining property in China into a tremendous success...

But the personal human touch doesn't interest him. Nor does it interest President Coolidge. The newcomer without something concrete to present, finds both of them cold.

But Mrs. Coolidge and Mrs. Hoover! Ah! there is a very different kettle of fish. Warmth, personality, charm—abundance of everything that both their poor, hard-working husbands lack.

Which of course is very fortunate. For in those complicated times the woman in the White House is almost as important as the man. And the role of White House mistress is destined to grow more important every day.

QUILL POINTS

The only man who deserves liberty is one who would act just as he does now if there weren't any laws.

A few regret their failure to lick Germany adequately, but many, many more regret their failure to lick second lieutenants.

Of course country people are boobs; but it isn't in the country that unknown and untried makes of cars are sold.

Correct this sentence: "I am a failure," said the man, "but I don't believe I could do better in any other town."

If trial marriages are to become popular, there's a fortune for the inventor of an adjustable ring.

Brazil's landslide was a trivial affair. It wasn't the kind that encourages the boys to steal public land.

World history in brief: Men fighting for liberty and getting a change of masters.

There is no hate to compare with that of the man you won't permit to impose on you any more.

The chief fault in the unemployment situation is that the wrong people are unemployed.

Knitting may come back. New frocks cover the knees, and the ladies must have some way to keep their hands busy.

Charity isn't the only thing to cover a multitude of sins. There's the Continental Trading Company.

Old customs die hard, and you still hear public office referred to as "the gift of the people."

The remarkable thing about Martin Luther is that he put it over without the help of Senator Heflin.

It's an age of easy credit, and the only thing you can't get on time is the repair job the garage man promised you at 2 o'clock.

"Change is constant." Blah! Some people don't know anything. All are born that way. Where's the change?

One man can't make a party rotten. If Sinclair is the only one of his kind, the G. O. P. is almost chemically pure.

Awful thought! Europe has more planes than America, and in the event of war they might drop all over our ships at sea.

Americanism: An uneasy feeling that all the big boys are as crooked as the few exposed.

American women spend two billion a year on cosmetics, which seems a great sum when you observe the men they catch.

About 86 per cent of our national problems would disappear if nobody would try to get a living without earning it.

So live that you'll never feel grateful to the man who invented the statute of limitations.

He isn't a confirmed bachelor until he begins to think any girl would be lucky to get him.

Firms selling memory-training courses doubtless have filed a mailing list of the oil case witnesses.

"Ho, hum!" said Ike Hill: "I don't know whether to write insurance or advertise for boarders or run for office."

Sinclair's expenses have been heavy, and doubtless he would enjoy having \$200,000 of tainted and spurned cash thrown back in his face.

The kind of help the farmer really wants is the kind that will get up at 4 o'clock and let his take another nap.

ROGUE COUNTRY COMES TO FRONT FOR HOME SITES

The recent development of winter sports on the upper reaches of Rogue river will be an impetus to develop the Medford and Crater Lake highway district as a resort home section, particularly attractive to the town folks of Medford and other valley towns...

It is possible for the Medfordites to have a home in the "mountains" and work in the city, the time required for travel not exceeding two hours above Prospect, the most distant point of district now under development.

Land is available for these homes for private ownership on the lower reaches of Rogue river, or for lease from the government in the Crater National forest in the upper reaches of Rogue river, all served by the Medford and Crater Lake highway by a hard finished road...

The summer traffic on the highway has already resulted in establishment of stores, gas filling stations and other trading establishments where all needed food and other supplies may be purchased.

The present center of development of resort homes and small ranches, which is very noticeable on the Medford and Crater Lake highway, lies between Eagle Point and Rogue river. The inducement for this settlement, which was formerly all wild land, is the advantage of the Eagle Point irrigation ditch, affording irrigation.

The kiddies of Medford and all southern Oregon are in for another treat to be furnished by the Mail Tribune and the Geo. A. Hunt company on Saturday, April 7.

The attraction for the matinee that day will be "Bringing Up Father." The children are to watch this paper and to draw cartoons of Jiggs and Maggie and the one drawing the best cartoon will receive a ticket good for 30 days at the Rialto.

Any child under 12 years of age who reads the Mail Tribune is eligible to this contest. Bring or send your cartoons to the Jiggs Editor of this paper. Each cartoon must be accompanied by a copy of "Bringing Up Father" taken from this paper with the date of the water on the top.

CONSERVATION OF COUNTY GAME AND FISH LIFE URGED

We wish to bring to the attention of the sportsmen and business men of Medford and Jackson county in general, the importance of the joint meeting and banquet of the Jackson County Game Protective association and the Oregon State Game Protective association, to be held at Ashland on the evening of April 11th.

The average citizen of Jackson county does not appreciate the importance of the game and fish life, but to attract actual and permanent settlers.

We plan on publishing during the next week a series of letters and other communications, showing the importance of standing together as a whole, to protect our great natural resources, and the necessity of close cooperation to conserve the great game and game fish resources of the state.

I have before me your letter of March 21, 1928, inviting me to attend the meeting of the County association to be held in Ashland on April 11th, and it is with great regret that I find I will be unable to be with you on that occasion.

The general subject of game protection and conservation is of the greatest interest to me and I hope that your meeting will be productive of real results in that direction.

While of course we have to go reasonable in the power development of our country, still I do believe the ultimate benefit to the people of southern Oregon will be best served by preserving the lower Rogue in its present natural condition.

I know that your organization is watching this situation, and I hope that my fears are groundless.

If there is anything I can do to help the cause of the sportsmen in Oregon, I am yours at command.

MANILA, P. I., Mar. 31.—(AP)—The American chamber of commerce last night adopted a resolution inviting Colonel Chas. A. Lindbergh to "make Manila a part of his trip around the world."

MARSHFIELD, Ore., Mar. 31.—(AP)—Flood conditions in this city and as far south as Gold Beach became menacing today as a result of continued heavy rains.

SCOUTS TRAINING SCHOOL MONDAY

The Boy Scout leaders training course, that starts Monday evening April 2nd, in the High school gym has a splendid program and purpose outlined, according to E. E. Carter, the chairman of the committee handling that end of the Crater Lake council boy work.

The purpose of this course is to give the students taking it a general knowledge of the aims and content of the Boy Scout program, with stress on the methods program to boys.

WASHINGTON, Mar. 31.—(AP)—Declaring that it cost the Oregon and California railroad approximately \$500,000 a year to transport army troops and equipment, Ben C. Dey, general counsel for the railroad, today advocated approval of the Hawley bill to relieve the railroad of "free carriage" of government transportation before the house commerce committee.

Columbia county taxes will be \$6000 less than year ago.

Political Announcements FOR SHERIFF I am a candidate for the republican nomination for sheriff, primary May 18. CHAS. D. STACY May 17

COUNTY CLERK I am a candidate for republican nomination for county clerk; promising personal attention, economy and courtesy. G. R. CARTER, May 17. Talent

COUNTY SCHOOL SUPERINTENDENT I am a candidate for the democratic nomination for the office of County School Superintendent in the May primary. RAYMOND L. CORNWELL, Principal Washington School 3541st

COUNTY COMMISSIONER I am a candidate for re-nomination on the republican ticket for County Commissioner. If nominated and elected I will continue to do my best to give the people an economical business administration. VICTOR BURSELL, May 17

All depositors of the Pine Belt Banking Company will be paid on demand at the First National Bank, Medford. Those owing the Pine Belt Banking Company should make payment direct to the First National Bank of Medford, who holds their notes. FIRST NATIONAL BANK, Medford PINE BELT BANKING COMPANY

Smudge Smoke

This is April lat. It is All-Fooled Day, as are the most of them.

Pine growing weather prevails. Wild flowers are abundant in the open spaces, with the modest violet by a mossy stone, and the impudent wild mustard in the alfalfa.

Along the city streets, grass—lush green—abounds around the roots of phone poles.

Frank Preston of the Applegate had his bridge washed away again last week.

Valley blondes have started to fret about what the forthcoming smudging will do to their hair.

Local democrats were highly shocked Thurs. to read that oil had been splattered by Messrs. Sinclair and others upon such noble rubber stamps of the Wilson administration as Josephus Daniels et al. It seems to be the consensus of opinion that it is just as hard for a democrat, as it is for a republican, to resist a pitchfork load of \$100,000 bills, when it is shoved under their noses.

Snow adorns the top of Mt. Ashland and other lofty peaks in the vicinity.

F. Bybee, who is suffering as a baritone, due to a severe cold, has a pasture full of sheep, of the age that followed Mary to school. F., if he is real lucky, expects to make enough out of the critters to pay for curing his cold.

The middle Dick Sherwood is socially active, exceeding H. Flewler in the great spooning derby. His elapsed time for the week was 758 hrs. 23 mins. and 13 seconds.

C. Wig Ashpot stated Fri. that he did not know where March had gone. We are unable to tell Mr. Ashpole where March went, and it is hoped he does not worry too much about it.

Brisbane's Today

(Continued from Page One)

A "100-to-1 shot," Tipperary Tim, won the Grand National Steeplechase Friday. An American horse led the race nearly all the way, four miles and 856 yards, the hardest course in the world. The American horse, Billy Barton, belonging to Mr. Bruce of Baltimore, fell at the last fence. His Irish jockey, Cullinan, remounted, and finished second in the race in which 41 horses started. A record for the great race. Only two were able to finish.

One line in the paper, "Our fliers kill a dozen rebels." The rebels are Nicaraguans, fighting the established Nicaraguan government. What concerns us is that they seek to destroy a treaty that would enable us to serve the whole world, and Nicaragua especially, by building a sea level canal from the Atlantic to the Pacific.

What chance have those poor rascled creatures in their mountain against a flying enemy?

Colonel Lindbergh and Major Lanphier plan a flight around the world in a Ford plane to start this year. Japan is eager to welcome Lindbergh. The latter replies, "Nothing to say."

Gangs of Chicago, having used bombs, machine guns, dynamite, add a little touch by using the torch. A man is shot down, then burned, with gasoline poured over his body. Senator Densen is notified that he is "marked for a bomb." Very active gangsters.

Pennington Moves To New Location

Pennington's Battery Service is moving to its new location, the Mason Motor Co. on North Bartlett street and will be ready for business there tomorrow.

The Pennington Company recently purchased the Mason Motor garage and will be in better shape in its enlarged quarters to care for the public with battery and electric service, car cleaning and storage.

Mr. Pennington has been in business here for nine years, is an expert in his line, guarantees satisfaction and his increasing business is an evidence of his popularity.

NEW YORK, Mar. 31.—(AP) Mr. and Mrs. Henry Ford left for Europe today aboard the liner Maestri.
