

ROSENBERG TELLS 'KIWANIS ABOUT AN ARAB'S HAREM

The inside of an Arab's harem was one of the interesting sights seen by Harry Rosenberg on his recent trip abroad, as brought out in an extremely enjoyable account of his three months' journey, given at the Kiwanis club luncheon this noon.

It was in Algiers, where Mr. Rosenberg, in company with two feminine companions met en route, were being shown the sights by an Arab guide, when they persuaded the guide to show them a harem. The Arab, after considerable argument, took them down a series of winding streets to his own home. As he was a poor man, he had only four wives. Each of these, as is the custom, had a mark tattooed on her forehead, which corresponded with one on the wrist of their master, and occupied a separate room surrounding a large main room, at the end of which was the apartment of the master.

As the guide was showing the two white girls around the establishment, Mr. Rosenberg wandered out into the kitchen of the harem and watched three of the wives preparing the noon day meal of the master. One of them was sitting on the floor grinding meal in a rock bowl. As the appearance of a strange man in the establishment caused quite a bit of hysterical merriment on the part of the wives, the Arab put in a rather abrupt appearance, cutting his sight-seeing tour through the establishment short.

The pyramids of Egypt and the tombs of the kings were other points of interest visited and studied at length by the local man, and he described the beauty and grandeur of the scenes in an effective manner.

Mr. Rosenberg also saw the inside of King Tut's tomb, and the collection of valuables taken from three rooms in it, which are on display in a Cairo museum.

Mr. Rosenberg told of the poor living conditions of the people, the poverty and disease existing in all the ancient countries, and ended his talk with an effective comparison between these countries and America.

Ralph Cowdell spoke briefly on the \$2 auto license bill and urged cooperation on the part of local citizens in defeating the bill, which he claims will stop all highway development.

An all-Pacific coast caravan will arrive in Medford Friday from Redwood, California, according to Clemenson, proprietor of the Jackson Hotel, who urged local car owners to meet the California group at the state line and accompany them thru Medford and to the scenic points surrounding the city. The purpose of the caravan is to catalog all the scenic beauties thru this section of the country up as far as Vancouver, for the benefit of calling them to the attention of tourists.

The attendance prize which was furnished today by Dr. Siwars, was won by Dave Terrell. President Hammond spoke on the State Music Teachers convention, which thru the influence of the Kiwanis club, will be held in Medford May 21 and 22, and urged whole-hearted support and cooperation with the local representatives. He also reminded the members of the Home Products dinner which will be held at Hotel Medford next Friday. Today's program was in charge of S. S. Smith.

Small Ad In Mail Tribune Brings Big Results

According to George E. Ferguson, who is developing one of the mineral springs in the Sams Valley district as a vacation rest and health resort, Mail Tribune advertising brings surprising results. Mr. Ferguson inserted a small advertisement in the Friday issue of this paper, calling attention to his springs and inviting the public to drive the 18 miles from Medford and visit the camp.

Over 200 persons sampled the water and inspected the cabins and other improvements Sunday, according to Mr. Ferguson, and he kept busy all day filling containers for visitors who desired to take some of the water home.

LEGION INITIATES BIG CLASS TONITE

A large class of candidates is expected to be initiated into the American Legion at tonight's meeting of Medford Post No. 13. As a result of the big membership campaign which closed on March 21, it was found that nearly 180 new members had joined the local post, and were eligible for initiation. Many of these will be on hand tonight and the balance will probably be installed at a big public initiation at some near future date.

Following the business session tonight there will be an entertainment program, in charge of Leo Williams and the Legion orchestra. The evening will be concluded by a feed, which will be served by the Ladies' Auxiliary.

Not only all members of Medford Post, but visiting Legionnaires, as well, are urged to attend tonight's meeting.

SPECIAL FOREST WEEK PROGRAMS

In recognition of American Forest Week, which began yesterday, special programs are to be held at all Jackson county schools this week, with the Medford schools also taking part. Interest in the observance of the week is reported to be good and local forest officials expect it to be the most successful ever attempted in southern Oregon.

Forest Rangers Lee Brown and Lee Port are showing colored lantern slides and are giving lectures at schools in the Applegate district, while tomorrow Rangers E. J. Rodgers and M. C. White will do similar work at schools in the Butte Falls and Dead Indian districts and on next Wednesday Rangers J. C. Egan and Rodgers will do the same at schools in the Rogue River district.

NEW YORK, April 22.—(AP)—Thomas W. Miller, convicted of defrauding the government of his best services when he was alien property custodian, surrendered himself to a United States marshal today to be taken to Atlanta penitentiary to serve his sentence of 18 months imprisonment.

NEW STORM DUE AFTER BALMY DAY; RAIN PREDICTED

Following the magnificent weather of yesterday, with its clear sky, very warm sunshine and maximum temperature of 75 degrees, which however was five degrees cooler than the maximum of a year ago that day, the barometer began dropping this morning, the sky to cloud up and squalls of wind to blow, indicating that a new storm was fast coming from far away Alaska where it had been lurking for several days.

Only several light sprinkles fell this forenoon, and this afternoon was quite cloudy, but much more rain is expected when the storm arrives, which may last several days at least. There is a possibility that from the fast way in which the forerunner of the storm was coming in this forenoon, the storm might arrive and pass over so fast as to end itself in a day or so.

AVIATORS DIE IN PLAY FRAY HIGH IN CLOUDS

SAN ANTONIO, Texas, April 22.—(AP)—Cadet James Scott Henderson, of Green, Ind., was killed here today when his plane collided with another plane 3000 feet in the air and plunged to earth. Cadet Douglas M. Swisher, a class mate of the dead aviator, who occupied the second plane in the collision, leaped to safety in his parachute, after falling almost 1000 feet with his disabled plane. Henderson's parents live in Seattle, Wash.

Both fliers were members of the advanced flying school and were engaged in the first high altitude pursuit maneuvers. Henderson was flying at an altitude of 10,000 feet with a formation simulating an attack on Swisher's formation, which was 1000 feet below.

When the upper formation dived to make its attack, Henderson's plane crashed into Swisher's disabling both. Henderson's plane swooped toward the ground in erratic plunges, the pilot apparently dead or unconscious as observers detected on his part no movement to use his parachute.

Swisher's plane lost its right upper wing and the cadet was unable to free himself from the plane until it had dropped 3000 feet. Observers estimate that Henderson's plane was traveling 155 miles an hour. It was the highest collision Kelly field students ever had seen.

1281 PUPILS IN HEALTH PARADE

Twelve hundred and eighty-one pupils from the grade school of Jackson county will take part in the health parade to be held in this city Friday, May 4, the estimates being as follows:

Eagle Point	25
Phoenix	27
Central Point	40
Gold Hill	45
Jacksonville	30
Medford	1,000

The mayors, principals and school boards of the districts represented will occupy the reviewing stand, and the award of badges will be made by Superintendent of Schools Susanne Homes Carter.

STATE BOURBONS SEEKING OFFICES NOT ADVERTISERS

SALEM, Ore., April 22.—(AP)—Republican campaign pamphlets for the primary election of May 18 will be mailed by Secretary of State Kester to over 250,000 voters, and Democratic pamphlets to over 100,000.

Of the 272 Republican candidates, 91 have elected to have statements in the pamphlets and only nine of the 81 Democratic candidates. For this privilege they have paid the secretary of state fees totaling \$4115. Filing fees of candidates aggregate \$3225. The postage cost of mailing the pamphlets will be over \$4000. The pamphlets must be distributed by the secretary of state not less than eight days before the election, and Secretary Kester thinks the task will be completed by May 6 or 7.

The certification of candidates made by the secretary of state Saturday contains the names of 272 Republican and 81 Democratic candidates, one having been deducted from the original number of Republican candidates.

WASHINGTON, Apr. 22.—(AP)—Colonel Charles A. Lindbergh took to the air in the rain here this afternoon for an unannounced demonstration. Hopping field officers who announced his departure, said he flew alone.

ARCTIC PERILS BESTED

MOSCOW, Apr. 22.—(AP)—Huykichi Matsui, Japanese globe-trotter, who is traveling westward in a "round-the-world" race organized under the auspices of the newspaper Jiji Shimbun of Tokyo, arrived in Moscow today exactly on schedule.

SPITZBERGEN, (By Way of Copenhagen, Denmark), April 22.—(By the Exchange Telegraph. Scandinavian Rights Reserved.) Captain George H. Wilkins started from Point Barrow, Alaska, on Sunday, April 15, at ten o'clock in the morning, Alaska time.

The starting place had to be altered as the runway proved too short for the heavily loaded machine whose weight was 2022 pounds and whose cargo was about 4050 pounds, thus requiring a runway at least a mile and a quarter long.

The machine needed a speed of fifty miles an hour before it was able to rise. A new runway was covered with loose snow and this was trodden down for a width of only five feet so that exact steering was necessary to avoid a crash.

The ice also had to be levelled. Captain Wilkins during his flight passed places where Rear Admiral Robert E. Peary had been. He sighted Grant land and passed about 100 English miles east of the North Pole. The weather was fine with little fog.

Throughout the trip he maintained an average altitude of 1000 feet but at times it was necessary to ascend to 3500 feet in order to clear above banks of clouds. He sighted no land that had not been discovered previously and there were no signs of animal life on the ice.

Captain Wilkins succeeded in taking observations 200 miles from Sealbard (Spitzbergen) but the visibility then became too bad. Approaching Sealbard the first sight of land was when he saw the two pointed peaks of Prince Karl promontory.

A violent storm was raging at the time and Captain Wilkins had to make a hurried attempt to land. This was made exceedingly difficult and dangerous by gusts of wind, but a landing was finally made near a boat in the neighborhood of Dead Man's island. The airplane came to a standstill after a run of about thirty feet in loose snow.

The airman then had been flying 21 hours at a speed of more than 100 miles an hour.

For steering purposes Captain Wilkins found the ordinary magnetic compass very useful and in addition used a sun compass. He had been supplied with a special map of the polar region by the American Geographical society, but was able to get only a very rough map of Spitzbergen. Consequently the navigation of the plane was remarkable in view of its landing in Sealbard only about five miles south of King's bay, the place originally decided upon and where Captain Wilkins expected to meet the Italian explorer General Umberto Nobile.

The captain had planned to inform General Nobile, who intends to fly his dirigible, Italia, over the North Pole, of his experiences in his own passage across the polar region and the route he had followed. This would have helped General Nobile in selecting his own route in areas where he said no aircraft had ever been flown.

Captain Wilkins and Pilot Eielson were held up more than five days on Dead Man's island because of a storm of unusual severity for the time of year.

Snow was falling almost continuously and the high wind continuously changed its direction. The thermometer registered 45 degrees below zero and the two airmen could do nothing while marooned on the island. They had to spend the time in the plane for the sake of its warmth. Their food supply, consisting of pemican, biscuits, malted milk and chocolate, was sufficient for six months and they had some cigarettes.

For the five days, the airman were able to rest after their long journey in preparation for the arduous task of digging their way out of the snow as soon as they should be able to resume the flight. The small quantity of gasoline remaining also had to be pumped into the upper tanks.

On Saturday morning at three o'clock they decided that conditions were good for getting off again. On two occasions, the motor started at full speed, but the machine did not move. At the third attempt Captain Wilkins got out of the cockpit and holding onto a rope attached to the plane, pushed the machine to give it the necessary impetus to rise. In this way they succeeded in starting but to the pilot it seemed a long time before he heard Wilkins' voice yelling: "On board again."

Radio Program KMED
Mail Tribune-Virgin Station

Tonight

- 6:15 a. m.—Medford Mail Tribune
- 8 to 9 p. m.—McCurdy Daniels-Porter Lumber Co. request hour

Tuesday, April 24

- 10 to 10:30 a. m.—Southern Oregon Electric Co.
- 10:30 to 11 a. m.—Sinclair's Drug Store
- 11 to 11:30 a. m.—M. M. Department Store
- 11:30 a. m. to 12 noon—Colonial Bakery
- 12:15 to 1:15 p. m.—Monarch Seed & Feed Co.
- 6:15 p. m.—Medford Mail Tribune
- 8 to 9 p. m.—Snyder Dairy & Produce Co.
- 9 to 10 p. m.—California Oregon Power Co.

A request hour, from eight to nine o'clock every Monday night, for the next 12 weeks, will be featured over KMED, the Mail Tribune-Virgin station by McCurdy Daniels Insurance Agency and the Porter Lumber company. Local talent, who will appear on that hour every week will be Mr. and Mrs. Ralph Stuart, in popular song hits, Miss Alma Lawrence, pianist and George Maddox, tenor.

The programs prepared by these radio artists will be made up of requests phoned in during the week preceding, and in this way, the public will be able to hear all the latest music, as well as any old favorites, upon demand.
