Member of the Associated Press... Official paper of the City of Medford, Oregon, and of Jackson County.

Advertising Representative... W. C. MOOREHEAD & COMPANY... Offices in New York, Chicago, Detroit, San Francisco, Los Angeles, Seattle, Portland.

Ye Smudge Pot... By Arthur Perry... It's about time a male mirror of fashion appeared in a straw hat.

Hogs are now selling for the price of two hind tires, in these parts.

There are only four income tax measures to be defeated by the people at the May primaries in this state.

Housecleaning is well underway among a portion of the women-folks, who can no longer refrain from this annoyance of their better halves.

Good neighborhood: Any place inhabited by two families that admire themselves and one another.

Never explain. If it isn't necessary, it's foolish; and if it is necessary, it doesn't help matters.

A village street really isn't any more bumpy than the highway outside of town. It just seems that way on account of the chickens.

Americanism: Denouncing crooks; keeping up friendly social relations with those you know are crooked.

Religion is like education. Those who need it most are by their very need made incapable of realizing it.

Alas! The more you wear a high hat, the sooner you'll be passing it.

It isn't the locality that makes the hick, but the conviction that his locality is the hub.

It isn't long enough to be called a detour unless your head hits the top at least seven times.

The trouble about worshipping ancestors is that people who do it seldom provide the same privilege for posterity.

You'll remember the fine old custom of "asking the blessing" began to wane about the time can openers became universal.

If a man brags about what he did yesterday, it's a confession he hasn't grown enough to do better today.

Little book review for today: "Black Majesty," by John W. Vanderehook (Harpers). The thrilling romance of a "nigger" who became a king—biography, not fiction.

Alas! Blue eyes are self-made. Every human being would be miserable if he'd let his thoughts dwell on the fix he is in.

We're hopelessly old-fashioned, but we're glad we did our kissing before they were flavored with cigarettes.

Correct this sentence: "His parents forced him to study until late at night in order to feed their pride by leading his class, and he became a great man."

Persons who make up bundles hold the belief that the greater the number of knots the stronger the bundle. On the other hand, persons who open bundles would as soon spend principal as cut a knot.

It is a good thing for the Seattle babe of four years, who teathed on an old pipe, and daily smokes a couple of cigars, that he did not get hold of any of those (3) pipes often seen walking streets.

Bundles are such frequent incidents in life that no well-directed household would think of going without a supply of brown paper and string for doing them up. It is a curious fact, however, that no matter how large and miscellaneous the supply, it is rarely ever possible to find just the right size of brown paper, while the string is almost invariably too short.

THE WISE CHINESE

SOME TIME ago we attended a very beautiful concert. And the better the performance became, the louder grew the applause, until at the end, the noise was fairly deafening. The galleries shook and cries of "Bravo" could be heard above the din.

As we observed this enthusiasm grow riot, the entire scene suddenly appeared incongruous. What a silly way of showing appreciation for what was so delicately uplifting and harmonious. Why couldn't we devise a method of showing appreciation in some more fitting way?

We conveyed our impression to several friends but elicited no sympathetic response. They apparently considered our reaction somewhat effete. "If you like a thing why shouldn't you clap your hands and yell and make a noise about it?" To this, at the time, there seemed to be no answer.

But later we attended a Chinese theatre and found the answer. The wise old Chinese don't make a racket if they like a thing; they make a racket if they don't. They take the word of the poet literally, "Silence is the perfect herald of joy."

This seems to us good sense. The Chinese have another sensible custom—at least it is so reported,—they pay the doctor to keep them well, not to treat them when they are sick. In short, they concentrate upon preventive medicine.

Perhaps the Chinese have other wise customs. But these two are sufficient to prove that all human wisdom does not lie in the west.

Personal Health Service

By WILLIAM BRADY, M. D. Signed letters pertaining to personal health and hygiene, not to disease diagnosis or treatment, will be answered by Dr. Brady if a stamped, self-addressed envelope is enclosed. Letters should be brief and written in ink. Owing to the large number of letters received, only a few can be answered here. No reply can be made to queries not conforming to instructions. Address Dr. William Brady, in care of this newspaper.

FOR THE CHILDREN'S SAKE

As Pastor J. Weems tells us in his "The Seamy Side of Washington's Life," when the kid received his Boy Scout hatchet he ripped right out into the orchard and selected the old man's choice yearling tree. He paused for a moment, with the hatchet resting against his knee while he spat on his hands and glanced circumspectly about: "I hate to do this dirty deed," he soliloquized, "it isn't cricket. But I suppose I'll be questioned, by George, and if I can't come right out and confess that I've done it, what on earth will poor old father can do for me?" Then the kid yet clean-faced lad (later he became pock-marked) seized the hatchet, and betook himself down among the shacks where he passed the rest of a delightful spring day abusing the slaves. Thus when the never before heard of father came home, after a long and exhausting day gyping some poor sap out of his land, and found the dear little tree lying stark and cold on the ground, everything was all set for the famous episode. Of course the common garden variety of dad would simply whale the breeches off a kid that would do a thing like that, but that's just the point of the story. Mr. Washington was no common person, but an aristocrat, like H. Sinclair or somebody, and he could do things that a common, ordinary citizen can't.

And what has this to do with the health question? Do you ask that? That's right—blurt out your question without ever stopping to think it over first. Blurt it right out and show your ignorance. That's the trouble with this country. Everybody asking questions and nobody trying to think at all. Every one wants to talk now and think later. It works out something like robbing Peter to pay Paul; a good job is made of Peter, all right. I wonder whether that is the origin of the vernacular phrase "to pter out"—certainly Peter is out, even if Paul isn't in anything.

Now we had better bring on the health allusion. I am purposely keeping you in suspense for a moment of judgment issued May 14, 1918. An Ohio reader has worried about this: The family doctor advises that only milk from tuberculin tested cows be given the children. "Our cows have been tuberculin tested," the correspondent explains, "but when we have to pay Paul, a good job is made of Peter, all right. I wonder whether that is the origin of the vernacular phrase 'to pter out'—certainly Peter is out, even if Paul isn't in anything."

What's the use of employing a family doctor if you do not heed his advice? There is some risk that the children may contract tuberculosis if you let them have raw milk from untested cows. If they drink any milk while at grandma's the milk should be first pasteurized, or if you can't manage that, then boiled five minutes, in order to kill any tubercle bacilli there may be in it.

QUESTIONS AND ANSWERS

More School Health Hokus. I am acting as substitute teacher, and this question is given the pupils in a test: "Why is it unhealthy to wear rubbers or overshoe indoors?" Most of the pupils answered that the eyes would be affected, and the supervisor deems this answer correct. I am probably pretty dumb yet, but I can't see any connection between overheated feet and the eyes or eyesight.—W. D. T.

Answer—Neither can I, but I'm young yet, too. The old fogies who run the so-called health instruction farce in school just divine such things from their inner consciousness. The big noise or main guy in charge of the so-called health or hygiene instruction in the average public school system of a city is usually a competent politician, but a total loss so far as knowledge of hygiene is concerned. Of course it is no more "unhealthy" for children to wear rubbers, boots, galoshes and the

like indoors than it is for them to wear sweaters, heavy clothing, chest protectors and the like indoors.

The Fourth of July. How soon will it be safe to give my children a wet shampoo. I have not given them a wet shampoo this winter because they take cold so easily.—Mrs. P. Z.

Answer—It is just as safe to give them a wet shampoo now as it ever will be or ever has been. What I mean is that it is never dangerous for children or adults to have a bath or to wash the scalp.

Diamond Juice. Please tell me whether Star's Diamond Oil would be any good for varicose veins. The druggist recommends it highly, but it is so expensive.—Mrs. E. C. McE.

Answer—I have modified the name of the nostrum slightly. It is because it is so expensive that the trick druggist recommends it highly. There are too many band-aids in the "drug" business, and so they have to lie to live. This nostrum you ask about has been declared false and fraudulently advertised, and the firm marketing it fined in federal court, notice of judgment issued May 14, 1918. However, a little thing like that doesn't deter the fake medicine vendor—as Barnum may or may not have observed. Send a stamped addressed envelope with your request (no clipping) for advice about varicose veins, and be sure to say you have the trouble, otherwise I can give you no advice. (Copyright, John F. Dille Co.)

Terrible Eczema Goes Quickly

Strong, Powerful Yet Safe, Surgeon's Prescription Called Moore's Emerald Oil Has Astonished Physicians

Here is a surgeon's wonderful prescription now dispensed by pharmacists at trifling cost, that will do more towards helping you get rid of unsightly spots and skin diseases than anything you've ever used.

In skin diseases its action is little less than magical. The itching of eczema is instantly stopped; the eruptions dry up and scale off in a very few days. The same rule is true of barbers' itch, salt rheum and other irritating and unsightly skin troubles.

You can obtain Moore's Emerald Oil in the original bottle at any modern drug store. It is safe to use, and failure in any of the ailments noted above is next to impossible. Health's Drug Store can supply you at any time.

Rippling Rhymes

(By Wals Mason) DUTIES DONE.

Beneath my poison ivy vine I test at close of day, and sweet and tranquil thoughts are mine, before I hit the hay. I've not neglected any chore that I can now recall: I kabo-mined the cellar door and swept the garden wall. I put new stovepipes on the stove, at my good wife's behest, although the labor nearly drove the gladness from my breast. I took a heaping can of kraut to Ebenezer Jones, a neighbor who is down and out, with anguish in his bones. And I returned a bunch of books I borrowed two weeks since; the lender, with excited looks, declared I was a prince. I paid the doctor for advice he gave me yesterday, and when I handed him the price he nearly swooned away; for he is used to waiting weeks, and sometimes months and years; his patients acting much like frenks are always in arrears. I gave ten cents with cheerful face when some one passed the hat to build a decent dwelling place for homeless dogs and cats. I cannot think of any task that I have left undone, and so in comfort here I bask, and watch the setting sun. It is a cheering thing to know you've let no duty slide; it fills you with a grateful glow that warms you, hair and hide. It makes you feel you are not cheap like idle, heedless men; you feel you've earned eight hours of sleep, or maybe 12 or 19. You feel you're not a total loss in life's progressive scheme; you feel some income to your job, and go to roost and dream.

Are You Run Down, Weak, Nervous?

To have plenty of firm flesh and the ability to do a big day's work and feel "like a two-year old" at night, you must eat three good meals a day, relish your food and properly digest it. If you can't eat, can't sleep, can't work, just take a teaspoonful of Tanlac before meals.

Mrs. Fred Westin, of 387 E. 57th St. North, Portland, Ore., says: "Tanlac cured my stomach trouble completely after three years suffering. It built me up to perfect health, with a gain of 27 lbs. That was two years ago, and I still enjoy the best of health."

Tanlac is wonderful for indigestion and constipation—gas, pains, nausea, dizziness and headache. It brings back lost appetite, helps you digest your food, and gain strength and weight. It contains no mineral drugs; it is made of roots, barks and herbs, nature's own medicines for the sick. The cost is less than 2 cents a dose. Get a bottle from your druggist. Your money back if it doesn't help.

Sour Stomach

"Phillips Milk of Magnesia" Better than Soda

Instead of soda hereafter take a little "Phillips Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.

For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. It neutralizes acid fermentations in the bowels and gently urges the souring waste from the system without purging. Besides, it is more pleasant to take than soda. Insist upon "Phillips." Twenty-five cent and fifty-cent bottles, any druggist. "Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Co. and its predecessor Charles H. Phillips since 1875.
