

NO PART PROPOSED FAIR LEVY TO AID MEDFORD AIR PORT

There seems to be some misunderstanding regarding the one-half mill levy to be placed on the ballot at the primary, May 18, for the purpose of completing the Jackson county fair grounds.

Some people have the idea that part of the money, if voted, is to be used to improve the air field located in the fair grounds. This is absolutely not the case.

There is no intention on the part of the County Fair association, or anyone else, to expend one cent of the levy asked for on the air field in any way, shape or form, as the county court or fair officers will gladly verify.

The facts are just opposite. The proposition now before the Medford Chamber of Commerce is to remove the air field from the fair grounds entirely, because air transportation has outgrown the present field located on the fair grounds and it is impossible to secure more ground or to extend the runways and otherwise improve the field to meet the demands of aviation.

The Chamber of Commerce Committee has practically secured another field containing about 250 acres, enabling the runways to be more than twice their length on the present field.

Medford's progressive citizens, realizing fully the importance of keeping up with modern methods of air transportation, are preparing to soon put in one of the most modern air fields on the coast and will pay for themselves without one penny from the fair association or county funds.

COPCO REPORT SHOWS GROWTH

The many local shareholders of the California Oregon Power company have just received copies of the regular quarterly report to the stockholders which reflect the excellent progress made by this company during the past three months.

It shows the gross earnings of the company for the year ending February 28, 1927, were \$2,554,821.40, and for the year ending February 29, 1928, were \$2,931,945.59, a splendid gain.

It states further: "The new prospect No. 3 plant, has been placed on the line for trial runs with gratifying success. The technical rating or the guaranteed output of the two units installed in this station is 32,000 K. W. In the trial runs, however, the actual station output amounted to approximately 37,500 K. W."

Plans have been perfected for the construction of the power telephone line from Medford to the Copco No. 2 plant on the Klamath river in California. Actual field work will begin when weather conditions permit.

Two new types of load have been recently added to the company's lines. The first covers the installation of fruit washing machines in the packing houses of the Rogue River valley. The second covers the installation of a stationary spray plant in one of the largest pear orchards near Medford. These new loads will undoubtedly develop as the benefits obtained through the use of electricity along agricultural lines become more apparent.

"During the past month the railroad commission of California approved the issuance of 15,000 shares of the company's 6 per cent preferred stock, series 1927. The purpose of this issue is to provide funds for the payment of the cost of new construction and additions and betterments of the plants and properties of this company. It is contemplated that the greater part of this stock will be sold within this territory and no attempt will be made to sell this stock outside of the territory except to present stockholders, in which case sales will be limited to one share each. Be careful not to buy other stock and bond sales to trade you out of your stock of the California Oregon Power company without carefully considering such proposals from all angles. Investigate before you invest."

MISS STOKES IS FIRST IN FOREST ESSAY CONTESTS

Before an assembly held at the high school Wednesday morning at 9 o'clock, Principal B. H. Conkle awarded to Miss Louise Stokes of the senior class a \$15 check for winning first place in the essay contest held recently at the high school. Miss Stokes' essay was on the subject of "Oregon and Her Future Forests," and was awarded first place in the opinion of the judges because of the originality shown.

Second place, which carried with it a check for \$10, was awarded to Edward Gould, and third place to William Dougherty with a \$5 award.

The cash prizes were awarded by James H. Owen, vice president of the Owen-Oregon Lumber company, and were given in connection with American Forest week which is April 22 to 28. In offering these prizes it was Mr. Owen's desire to promote greater interest in forest preservation.

Judges in this contest were John Tomlin of the Buntin Box factory; C. T. Baker, secretary of the Chamber of Commerce, and B. H. Conkle, principal of the Medford high school.

The assembly was devoted largely to promoting the Junior hi-links and carnival which is planned for Friday night, April 27. This feature was in charge of Billy Conroy, chairman of publicity for the carnival. Other speakers were Fred Dunn, Fred MacDonald and Bill Morgan.

Announcement was also made regarding the girls' quartet which leaves Friday, accompanied by Miss Esther Church, for Pacific university at Forest Grove, where they will participate in the state music contest. Competition among Oregon schools along musical lines is very keen. In the contest which is being held next Saturday, 32 schools will participate, with over 650 students taking part.

It was announced also that the high school typing contestants, accompanied by Mrs. E. C. Jerome, will leave for Corvallis Friday to represent the local high school in the state contest.

Whip of the Screen

"The Whip Woman," Rialto. Exhibiting all her customary beauty and fire, Estelle Taylor appears in one of the finest dramatic pictures seen here in a long time.

"The Whip Woman," which opened at the Rialto theater, Antonio Moreno plays opposite Miss Taylor in this story.

It is strong, though simple in theme, and concerns a peasant girl living on the banks of the Danube, who insists on living her own life and who is considered something of a disgrace to her village because she will neither marry nor have a lover.

Miss Taylor defends herself from the unwelcome advances of men with the butt of the whip with which she goads her ox team. Yet in her heart she cherishes every woman's dream that romantic love will come into her life.

Circus Rookies, Hunt's Craterian. Karl Dane and George K. Arthur leaped to fame as laughmakers supreme in "Rookies" and "Baby Mine," but in "Circus Rookies" came their big chance.

The new production, now playing at Hunt's Craterian, is a combination of laughs, thrills and romance. Arthur's exuberant scenes on the circus trapeze, the chase with the wild gorilla, the mad dash over the careening tops of a speeding circus train in the mountains are some of the highlights of this swiftly-moving comedy romance.

One sees intimate glimpses of how circus folk travel, live and work. Dane gets a job as animal trainer and Arthur becomes the show's press agent, and then the fun begins.

RENO, Nev., Apr. 26. — (AP) — While no instructions for any particular candidate were adopted at the republican convention of Nevada in Reno yesterday, today five of the nine delegates selected have pronounced their preference for Herbert C. Hoover.

WASHINGTON — Hoover headquarters says "nothing can stop his nomination now."

HIGHEST HONORS OF NAVY TO BE GIVEN BENNETT

WASHINGTON, April 26. — (AP) — The highest military honors will be extended by the navy tomorrow when Floyd Bennett is buried in Arlington close by the grave of Rear Admiral Peary, discoverer of the North Pole.

The funeral train will be met at Union Station at 2 p. m., Friday, by officials of the army and navy.

Accompanied by a military escort the body will be taken to Arlington for final services.

Three squads of bluejackets, a navy firing squad and a navy bugler to sound the last call of taps, will head the procession.

Secretary Wilbur will be prevented by absence from the city participating in the services, but one of his assistants will act for him. Secretary Davis of the war department, or one of the assistant secretaries will take part.

In conformance with plans made by the navy and Commander Richard E. Byrd, who is accompanying the funeral party from Quebec, the pall bearers will wear full service uniforms. The casket will be draped with a flag. Bennett will wear the full uniform of a naval aviator.

TO ADJUST RATES OF NEWSPAPERS

NEW YORK, April 26. — (AP) — A resolution asking favorable action by congress on a bill to adjust newspaper mailing rates was adopted today by the annual convention of the American Newspaper Publishers association.

The resolution said that in event of favorable action by congress on the bill, the association would cooperate with the postoffice department in the restoration of newspapers to the mails so that the government will not suffer any losses in revenue incident to a reduction in postage rates.

John Stewart Bryan, president of the association and publisher of the Richmond News Leader, in his address pointed to evidences of over-production in white paper in warning of dangers of price fluctuation.

"The situation in the market for white paper, our most important basic supply, gives rather tangible evidence of over-production," Mr. Bryan said.

DEMOCRATS SLASH OF TAXES HEAVY

WASHINGTON, Apr. 26. — (AP) — A tax reduction program calling for about \$325,000,000—more than \$100,000,000 greater than is proposed by republicans—was tentatively agreed to today by democrats of the senate finance committee.

The program which will be presented to the full committee when the new tax rates will be decided upon, calls for a cut in the corporation tax from 13 1/2 per cent to 11 1/2 per cent instead of 12 1/2 per cent as proposed by the \$210,000,000 republican plan.

Details of his program were not revealed by Senator Simmons of North Carolina, ranking democrat on the committee, pending a study of the cost.

It does, however, include repeal of the automobile tax as proposed by the republicans.

FAVOR REVISION OF CONSTITUTION

WASHINGTON, Apr. 25. — (AP) — Declaring the nineteen "patches" put on the American constitution since its adoption have failed to make it "suitable to modern conditions," Representative Berger, socialist, Wisconsin, proposed a resolution today calling for a revision of that historic instrument.

Under the proposal, which was in the form of an amendment to the constitution itself, congress would be enabled to call a convention to consider its revision. The necessity for which, Berger said, "must appeal to all who can visualize the tremendous changes, political, economic and social, which have come over the nation since the present constitution was adopted."

WIFE JAZZ CRAZY; GIVEN DIVORCE

PERTH, Australia, April 25. — (AP) — Jazz has been accepted by a judge as grounds for divorce.

"We were quite happy," said a bank clerk, petitioning for a divorce, "until my wife got an awful craze for dancing. For a time she went jazz mad."

The judge in granting a divorce said he was satisfied that jazz had totally estranged the couple. The decision has astonished legal circles here.

EVERY MUSICAL SHOW IN NEW YORK USES LUX to double the life of stockings

Silk and net costumes, organdie hats, extra-long chiffon stockings—all must be sparkling, to make this gay chorus from Ziegfeld's "Rosalie" so adorable! Marilyn Miller, center

STOCKINGS that shimmer in the brilliant glow of the footlights—what critical scrutiny they receive! What strenuous wear! Every woman knows what a problem it is to keep stockings new-

looking—and how vitally important, when stockings cost so much. New York's musical shows face this same problem, magnified many times over!

Wardrobe mistresses must keep thousands of dollars' worth of stockings in perfect condition. And make them last!

To find the safest way to wash silk stockings, different methods have been tried. And the fact is disclosed that stockings washed in Lux

wear twice as long! Give twice as many performances as those laundered by other methods!

This means so much in dollars and cents to the producers of New York's dazzling musical shows, that they now insist upon Lux.

They all do it. So the wardrobe mistress of every musical show in New York—without exception—specifies Lux for washing silk stockings. They buy it in the blue package you yourself buy—Lux is never sold in bulk.

PAY ADLER and TED BRADFORD. National dancers with the "Merry Malones." Ballet frills and satin skirts, alike, are kept new-looking with Lux, in the Cohan productions. No hosiery gets harder wear than the stockings danced in night after night—yet every musical show doubles the life of its stockings, saves money, by cleansing with safe, pure Lux.

WOMEN EVERYWHERE use Lux for silk stockings, as do the wardrobe mistresses of Broadway. Women know rubbing with cake soap may fade lovely colors—that many soaps (whether flakes, chips or cakes) contain harmful alkali that weakens fibres. So they make sure of extra wear—with Lux.

MRS. BEATRICE CONIFF wardrobe mistress with Shubert productions, says "Garter runs are more to be feared than any other stocking trouble. Anything which weakens the fabric must be avoided. That is why our laundresses use only Lux." The Shubert general manager adds: "We would use Lux if it cost \$1.00 a box, for it cuts our stocking bills in half."

Lux Guards the Newness, the Life of All the Stockings worn in:

- "ROSALIE"
- "SHOW BOAT"
- "RIO RITA"
- "THREE MUSKETEERS"
- "SUNNY DAYS"
- "LOVELY LADY"
