

# FARM BILL DEFEAT IS OVERCOME

### House Reverses Stand On Equalization Fee and McNary-Haugen Forces Win Test Vote—Parliamentary Tangle Avoided for Present.

WASHINGTON, May 2.—(AP) Reforming its shattered lines, supporters of the McNary-Haugen farm relief bill today defeated their opponents in the first skirmish of the day by a vote of 159 to 119. The vote came on an amendment by Representative Aswell, democrat, Louisiana, to eliminate a section of the measure. While the section contained no reference to the equalization fee, Aswell desired to strike it out because it was identical with the second section of the bill which yesterday had been adopted by a vote of 141 to 126 as a substitute to the first section of the McNary-Haugen measure.

WASHINGTON, May 3.—(AP) The house today temporarily untangled itself from the most complex parliamentary situation in years by deciding that the equalization fee provision of the McNary-Haugen bill had constituted only an opening wedge against the fee machinery. Representative Mapes, republican, Michigan, presiding, held that the Aswell amendment designed to eliminate the fee applied only to the first section of the bill and that other sections of the measure still must be considered by the house for amendment.

The principal fee provisions are in sections other than that already passed upon and as a result the house is faced with the necessity of again passing upon the fee. Representative Aswell, democrat, Louisiana, made no attempt to appeal from the decision of the chair. The moment this situation was cleared up, the house again became entangled in a parliamentary dispute over an attempt to offer the Ketcham-Jones decenter farm bill as a substitute to the second section of the McNary-Haugen measure. Debate on the latter move started at once.

Mapes held that the Ketcham-Jones measure was not in order, under house rules, as a substitute to the second section of the McNary-Haugen bill. Representative Jones, democrat, Texas, then offered section two of the decenter bill as a substitute of sections of the McNary-Haugen measure, but this also was ruled out.

While this fight on the fee was going on in the house Senator Norbeck, republican, South Dakota rose in the senate to say that a farm bill without the equalization fee would be a "joke and a camouflage."

He told the senate if the house sends over the farm bill without the equalization fee he would vote against it. Chairman Haugen of the agriculture committee promised to pass the bill tonight.

He indicated that he felt the farm bloc had control of the situation and proposed to press toward a finish as rapidly as possible. With only scattering debate the house approved a section to authorize appropriation of \$400,000,000 for use by the proposed farm board as a revolving fund in an effort to control farm surpluses.

Meanwhile the farm bloc drowned out with overwhelming choruses of "noes," repeated attempts by Aswell to eliminate various sections.

Another provision adopted would permit the refusal of loans by the board to farmers who fail to observe its program of planting.

Two carloads of patrolmen arrived in time to see the large bandit car speeded away. It easily outdistanced the police cars and later was found abandoned.

The loot consisted of 250 diamond rings.

SEATTLE, May 3.—(AP)—A hundred days overdue on a voyage from Newcastle, Australia, to California, the sailing schooner, *Ella A.*, commanded by Captain Dan Killian and carrying a crew of 16 men, was reported missing here today. The vessel is owned by Robert Poulson of Hoquiam.

# FEAR FOR SAFETY OF NEW YORKER IN NICARAGUA

MANAGUA, Nicaragua, May 3.—(AP) — With two American mines known to have been blown up by rebels, fears for the safety of the missing New Yorker who was at one of them, increased today. George E. Marshall, assistant manager of the La Paz y Los Angeles mine, was held by Assistant Manager Johnson to have been taken prisoner by the rebels at General Augustino Sandino's orders. He was sent to the insurgent leader's headquarters which were understood to be somewhere in the mountain region of the department of Jinotega.

Brigade headquarters said they hoped to get further information concerning Marshall and rebel activities within a few days. Troops have been sent to the mining district. The mines are quite a distance inland from the coast and very difficult of access. It is impossible to reach them by an overland march. Rivers furnish the only means of access.

The marines, therefore, will have an exceedingly difficult task in reaching the mines. Brigade headquarters, however, believes that additional facts about the rebel depredations would be available within a few days.

# RELATE DETAILS OF U. S. PASTOR'S DEATH IN CHINA

SHANGHAI, May 3.—(AP) Five southern soldiers killed Dr. Walter P. Seymour, Presbyterian missionary at Tsinning, as he sought to close the gates of the mission against their intrusion, according to a story told here today by his widow and C. K. Eames, another missionary. Mrs. Seymour and Mr. Eames arrived in Shanghai today after a two days trip atop a box car from Tsinning. Eames said that after Seymour had fallen the soldiers succeeded in unbarring the heavy wooden gate and entered the compound. They robbed the body and departed.

Dr. Seymour was buried the following day, April 11, in the mission cemetery while a battle was still in progress. Prior to the nationalists' departure for the north their commander expressed his regrets to Mrs. Seymour over the occurrence but the two said today, made little effort to punish the murderers.

Eames, whose home is in Jacksonville, Ill., said the southerners were overrunning Shanghai by the hundreds of thousands, not only following the roadways and railroads but flooding the countryside and rivers. Mrs. Seymour will remain in Shanghai but Eames will go to Tsinning to meet other members of the Seymour family who have gone there. Other foreigners remaining at Tsinning and conditions are comparatively settled, he said.

# 164 KILLED IN THE AIR DURING THE YEAR 1927

WASHINGTON, May 3.—(AP)—Aviation accidents during 1927 cost 164 lives and resulted in injuries to 149 other persons. A summary for the year, the first of its kind ever to be made, was given out today by the aeronautics branch of the commerce department, which began last year the duty of investigating every serious air disaster.

It was noted in the figures that only six of the two hundred serious accidents last year occurred in scheduled flights over air routes. These resulted in the death of six pilots and one passenger. There were 167 airplanes smashed in the crashes, of which only 34 were government licensed planes.

Out of the total death toll, 24 were charged to untested and novel character. Of the 164 fatal accidents, the investigations found errors by pilots were the cause of 78 deaths or 48 per cent of the total fatalities. Among licensed pilots 17 were killed, while among unlicensed pilots the number killed was 54.

# FIRE TRESURER OF GIANTS RAPS STONEHAM POLICY

NEW YORK, May 3.—(AP) Cited as treasurer of the National Exhibition company which operates the New York Giants, Francis X. McQuade today threatened legal proceedings. McQuade, still the third largest stockholder in the baseball corporation, criticized Charles A. Stoneham's administration of the club's affairs, charging that the president "handled the club's money as if it were his own, and had no regard for the minority stockholders, including myself."

"All of the officers of the club, except McQuade were re-elected, and Leo J. Bondy, for many years Stoneham's personal attorney, was named treasurer. Closing his manifesto, McQuade said: "In the near future, by appropriate court action, the public will learn much more about Mr. Stoneham's methods."

One story in well informed baseball circles was that Stoneham had "soured" on McQuade because of a reported opposition of the latter to the widely discussed trading of Rogers Hornsby to Boston for Hogan and Welsh.

# AMERICAN GOLF STAR DRAWS HARD MATCH

LONDON, May 3.—(AP)—Glenna Collett, former American woman's golf champion, arrived in England to learn with surprise that she had been drawn for her opening match in the British championship against the defending title-holder, Mlle Thion de LaChaume. Mlle Thion starts May 14 at Hunstanton.

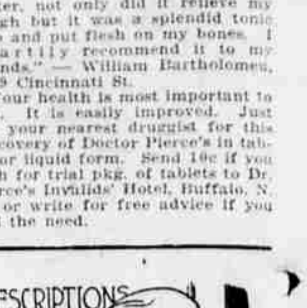

"I had hoped to meet other players first and play against Mlle Thion later," said Miss Collett. The American conquered her French rival when they met in the finals of the French women's tournament three years ago.

# Do You Cough? Appetite Waning? Then Read This—

Spokane, Wash.—"Last winter I caught a heavy cold and was all run down. I lost my appetite and had a deep-seated cough. I saw Dr. Pierce's Golden Medical Discovery advertised in the paper and thought I'd give it a trial. Soon after taking it I felt myself gaining. I continued to get better and better, not only did it relieve my cough but it was a splendid tonic, also and put flesh on my bones. I heartily recommend it to my friends." — William Bartholomeu, 2229 Cincinnati St.

Your health is most important to you. It is easily improved. Just ask your nearest druggist for this Discovery of Doctor Pierce's in tablet or liquid form. Send 10c if you wish for trial pkg. of tablets to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., or write for free advice if you feel the need.

# PRESCRIPTIONS TOILET GOOP

This Drug Store is more than a place where prescriptions are compounded; where toilet and other accessories can be obtained when needed. It is a store in which you can depend to serve you dependably in an emergency; with which you can deal in safety; with the knowledge that every article is as represented; and sold at a fair price.

# MAY STOP USE OF VOTING MACHINES IN MULTNOMAH CO.

PORTLAND, Ore., May 3.—(AP)—Plans for legal action to prevent use of voting machines in Multnomah county at the state primary May 18, were made at a meeting today at the court house. Among those present were said to have been 14 candidates. It was decided to bring injunction proceedings against County Clerk Beveridge. Two attorneys, Thomas Mahoney and J. J. Chossary, were instructed to take necessary action.

The claim would be made that use of the machines is illegal, in that there is no place provided for displaying a candidate's slogan, as provided by law on the printed ballot. Another contention was that on account of the long ballot it would be necessary to pull the lever of a voting machine twice, which would record the voting of two persons.

The county recently purchased a number of machines to be used in part of the precincts.

# SHANGHAI BOMBED BY TWO AIRPLANES

SHANGHAI, China, May 3.—(AP)—Two planes, one of them a sea plane, flew over Shanghai today and dropped four bombs. They exploded in the vicinity of the Shanghai South railway station and among the nationalist warships anchored off the Kiangnan arsenal. Two women and two cows were injured.

The planes were believed to be from the northern cruiser Haichi which was off Woosung. The flight over the international settlement caused a great commotion. They returned unscathed.

HARTFORD, Conn., May 3.—(AP)—The democratic state convention today endorsed the candidacy of Governor Alfred E. Smith of New York for the presidency by adopting a resolution pledging its delegate to vote for him until the governor himself shall release it from the obligation.

# Wall Street Report

NEW YORK, May 2.—(AP)—Speculative uneasiness over the credit situation subsided somewhat today and prices moved irregularly higher as pools resumed activities in a wide assortment of stocks. A plentiful supply of call money at the renewal figure of 5 per cent and Secretary Mellon's assurance that the meeting of federal reserve governors was without special significance and that no important action was contemplated in connection with the brokers' loan situation, helped to revive bullish confidence.

Motor shares were heavily bought on reports of large current earnings. General Motors leading the advance with a gain of four points. Chrysler mounted to a new high level in anticipation of a record-breaking first quarter report after the close of the market.

The closing was firm. Prices of Southern rails boomed toward the windup and carried along some of the coolers. Chesapeake and Ohio and Atlantic Coast Line rose 5 1/2 points each and Southern Railway and Delaware and Hudson three.

Profit taking was noted in some of the earlier strong industrial including General Motors, but many new points of strength cropped out among the specialties. Total sales approximated 3,500,000.

# \$17,800 DIAMOND ROBBERY STAGED IN KANSAS CITY

KANSAS CITY, May 3.—(AP)—Six bandits today held up the Heisberg diamond shop, on Minnesota avenue and escaped with diamonds valued by the company at \$17,800. The staff of clerks in the store was forced to lie on the floor while three of the men looted the show cases.

The diamond shop is in the heart of the downtown district, two blocks from police headquarters. When the men entered, a alarm was turned in by an employee on the second floor.

Homer Lucas, motorcycle patrolman, was stopped by the men in front, who disarmed him and forced him to stand aside.

Two carloads of patrolmen arrived in time to see the large bandit car speeded away. It easily outdistanced the police cars and later was found abandoned. The loot consisted of 250 diamond rings.
