CRISCO

When you come to think of it—should you fry in a fat you are unwilling to taste any more than you would use milk you are unwilling to taste?

A suggested test: Place a bit of Crisco on the tip of a spoon; on another spoon, a little of any other fat. Taste Crisco first, then the other fat.

Did you dream there could be such a difference in the taste of cooking fats? Do you wonder that over 2,500,000 good cooks prefer Crisco?

And B-H Brush Lacquer works so easily under the brush—just like the regular kinds of paint you've used. It dries faster, of

DRIVES OFF ROAD TO SAVE BROTHER, IS BADLY HURT

(By Mary O. Carey.)

EDEN PRINCETON, May 11.—Marschel Denzer, a young married man of Phoenix, had a narrow escape from being killed when he ran his truck over a grade in order to escape running into his brother's truck, which had stopped at a turn in the road, for the brother to get a drink of water.

Frank was ahead of his brother and thought he had time to drink and get out before Marschel would come up to him. When Marschel rounded the turn on the grade he saw that he would run into Frank's load of logs if he did not turn off the grade, so went over. He was not pinned under his load of logs but was badly injured in his back and chest and was cut and bruised about the face and arms. He is at his home in Phoenix and it is not yet determined just how badly he is hurt. The Denzer brothers have just lately acquired trucks and been hauling logs out of the Wagner creek section.

Hamlin, Mrs. Carolina Furry and Mary O. Carey. After the lodge session a short program was rendered, followed by a delightful luncheon. The small tables were placed about the banquet room, which was beautifully decorated with flowers. As soon as the guests and members were seated at the tables, Mrs. B. N. French, his well chosen words presented each of the charter members with a beautiful bouquet of greenhouse flowers, which were made up of pink and white snapdragons and gladiolus and ferns.
