

KIWANIS GIVEN A KLAMATH REPORT BY PARTICIPANTS

Being in need of a program, and of the conviction that "confession is good for the soul," President R. H. Hammond announced that the subject of today's Kiwanis Club meeting would be "What Happened at Klamath?" Testimonials were numerous and colorful, as members gave interesting personal experiences at the big railroad jubilee, held in Klamath Falls the last three days of the week.

Carl Tengwald, exalted ruler of the Medford Elks, accounted for many of his brothers, John Mann, who was introduced as the mayor of Medford and took part in driving the golden spike, recounted how the compliment excited him to such an extent that he tried to drive the spike clear thru to Medford. Vernon Vawter spoke for the Craters, and told of their collective and individual adventures in the "strange city," and later how they were entertained at Castle Crags resort by the Lions Club.

Judge George F. Skipworth, of Eugene, who is presiding over the Chaney trial here was a guest of the organization today, being a member of the Kiwanis club of the northern city. Being called upon for a speech, he entered into the humorous vein of the day and told several lively personal experiences at Klamath in days gone by. He ended by highly complimenting Medford and the Rogue River valley, on its beauty and enterprise, and saying that he was delighted to be here.

Other speakers of the day were Henry Eiders of Ashland who also told about Klamath, and Glen Fabrick, who asked the Kiwanis club to give over their meeting on May 21 to the chamber of commerce for the purpose of presenting speakers who will explain the national air tour. The speakers for that day are to be the following: Tex Rankin of Portland, T. K. Therkelson, director of the National Air association and S. V. Peters and Charles Eehols, members of the Oregon Aero club.

D. J. Warner reminded the Kiwanis club that this is Air Mail week, and urged the cooperation of local residents with the organizers in putting the week over successfully. That the postmaster general is taking an active interest in furtherance of the air mail service and is anxious for its continued success and development, was stated by the speaker.

S. S. Smith spoke on the one mill levy which has been put on the ballot for the completion of the fair ground buildings, and urged the voters to get behind the proposition. Unless the issue goes through, it will be impossible to hold the fair this year, he said. The attendance prize today was won by Kiwanian Klockner, it being a \$2.50 gold piece, furnished by Dr. Kresse.

WIG ASHPOLE IS NOT ENTHUSIASTIC OVER MAKING RACE

Wig Ashpole, mentioned by a rejuvenated Jackson county democracy as a candidate for county commissioner, and recommended for same by a recent meeting of his brother democrats, is lukewarm and does not think much of the idea. Mr. Ashpole returned Saturday from Klamath county, where he drove a large herd of cattle. "I have more work to do than I can handle comfortably," said Mr. Ashpole, "and it would be just a thank-you job, and besides I would not get enough votes to flag a hand car, and with the cows where they are, and how they are, I don't feel like I want to make a run for it."

Mr. Ashpole reports the Klamath range in first-class condition with the grass tall and sweet, and the stockmen getting getting good prices for their cattle. "The Dixon boys sold a batch of steers the other day that averaged \$125 a piece," said Mr. Ashpole, "and the market is making the cowmen ziggle."

LEGION SMOKER AT 8 TONIGHT

One of the largest crowds in years is expected to attend the big American Legion smoker at Hilarity hall tonight. Every World war veteran in this section is eligible to attend and in addition the members of the G. A. R. and Spanish American veterans will be guests of Medford post No. 15.

A special invitation also has been extended to all local business men who subscribed to the Legion fund for the state convention which takes place in this city next August.

The affair will start at 8 p. m. with the usual American Legion meeting which will be short and snappy with the usual order of business being dispensed with. There will come music by the legion 10-piece orchestra, entertainment features and a boxing and wrestling card put on by Legionnaire Jack Wood.

After the program is over a rest- together session will be held and a "feed" served by the K. P. committee. This is the first Legion smoker to be held here for many months and everyone is looking forward to it with great interest.

BOWNE RESIDENCE IS PURCHASED BY ATTY. P. J. NEFF

Porter J. Neff, well known local attorney has purchased the Walter Bowne residence on Skisyon Heights for a cash sum said to be in the neighborhood of \$15,000, and will move there about July 1st.

Mr. and Mrs. Bowne and daughter Ruth, are planning to take an extensive eastern trip and will spend an indefinite time with Mrs. Bowne's father and brothers who are prominent residents of Plainfield, New Jersey.

The Bowne property formerly belonged to John Tumlin, and was laid out and the residence constructed by George Putnam, former editor of the Mail Tribune and now editor of the Salem Capital Journal. It is one of the most attractive residences in the city.

Mr. Bowne was formerly engaged in the automobile business in the city, still has extensive property interests here, and has been active in University club and golf club circles. He has not decided definitely upon his future plans, it is reported.

PRESIDENT GATES ASKS PEOPLE TO SUPPORT FAIR

To the Voters of Jackson County: As president of the Jackson County Fair association, I desire to call your attention to the one mill levy to be voted on at the election next Friday, that is necessary if the fair is to be continued.

The Jackson county fair is considered everywhere to be the best fair in Oregon outside of the state fair, and with the improvements contemplated through the use of the funds derived from this one mill tax, we can safely say there will be none better on the Pacific coast. Our fair should be the pride of Jackson county and eventually it is the desire of the association to hold our fair without any charge for admission, thus making it possible for everyone to attend and make it the largest attended fair in the state.

It is your fair, run solely for the benefit of our county, and undoubtedly a great asset to it. Therefore, I am appealing to the voters of Jackson county to support this measure and help to make the Jackson county fair the biggest and best ever, and the pride of the state of Oregon as a whole.

Yours for a bigger and better fair. C. I. GATES, President.

3 BEAN WASHERS AND COOK GRADERS IN NEW WAREHOUSE

According to David Wood, local general manager for the "Ice" Company, Inc., Chicago, holders of extensive valley acreage, the new packing plant, to be erected by the Medford Ice and Cold Storage company, for use of the Palmer company under a five-year lease, will be the most modern and sanitary on the Pacific coast. The packing plant will be 70 by 175 feet, one story, cost \$25,000, and be located at the corner of South Fir and Twelfth streets, in the heart of the fast growing warehouse district. The Palmer company will use the storage facilities of the ice company.

The equipment of the packing plant will be highly modern, with speed as the keynote, the latest inventions being installed. Three large bean washers, a chain of Cook graders and automatic box delivery system will be installed. The machinery will also preclude the handling of the fruit by human hands as far as possible.

Work on the construction of the building will start at once, and it will be completed and ready for use by July 15, in ample time to handle this year's crop. Manager Bergner of the ice company is now in San Francisco completing the final details of the deal.

MISSOURI'S MEMORIAL TO SPEAKER

Missouri has been preparing for the dedication of its memorial to one of its greatest sons, Champ Clark, a million-dollar bridge spanning the Mississippi river at Louisiana, Mo., and connecting that city with the state of Illinois. Formal opening of the bridge in memory of the famous speaker of the house, is scheduled for June 9. Above, left, Mrs. Genevieve Clark Thompson, of New Orleans, La., daughter of the late speaker, who is to be present at the dedication ceremony, and right, Champ Clark. Below is a view of the new bridge.

AL PICHE CATCHES 26-POUND SALMON WITH BARE HANDS

A fish story, which will probably hold the prize of the season was related this forenoon by Al Piche, local sporting good dealer, when he told how he caught a 26 pound salmon with his bare hands in the Rogue river yesterday morning. Piche swore to his story today and offered to show the fish as proof.

He was fishing for trout with two small flies and was casting his line in the river when the big salmon jumped from a riffle into a shallow pool at Piche's feet. Piche jumped on the squirming fish with his knees and after ten minutes of battling, managed to draw it on the bank.

Salmon fishing is reported to be generally good in the river, with four caught in that stream last Saturday afternoon at Gold Ray.

BREMEN RELIEF PLANES DOWN

HALIFAX, N. S., May 14.—(UP)—Two United States army planes en route to Labrador to assist the trans-Atlantic monoplane Bremen in the resumption of her flight to New York, came down at Matland, Hants county, today, 50 miles short of Pictou, their announced destination.

Matland is at the head of Cobequid bay, an inlet of Minas basin. The planes had passed over Truro on their way to Pictou, when they were seen to tur about and make for Matland.

The person who goes to ride in an automobile on Sunday afternoon and gets back alive has a right to believe in miracles.

COUNTY HEALTH FORMS UNIT AT BUTTE FALLS

BUTTE FALLS, May 14.—Miss Glover, one of the county nurses, and Miss Carleton were in Butte Falls today for the purpose of organizing a health committee. The meeting was held in the high school auditorium and about 15 attended. Miss Carleton explained the duties of the health officer, health nurse, public health association, and the work being done by the dental clinic at the court house. The public was cordially invited to attend this clinic, which is the best in the state, and learn of the work being done there.

All of the money for the support of this clinic and for a great deal of the other health work is raised by the sale of Christmas seals, and by donations from individuals.

Following Miss Carleton's address, there was a round table discussion on organization and general health problems. The following officers were elected: Mrs. Arthur Short, chairman; Mrs. E. A. Hildreth, and seal sale committee; Mrs. V. E. L. Hoover, chairman of publicity committee; Mrs. J. J. Simerville, chairman finance committee.

Another meeting will be held Wednesday, May 16, at 1:30 p. m., in the high school auditorium. Every one interested is urged to attend.

CALIFORNIA SPRAY COMPANY TO HAVE A LOCAL OFFICE

The California Spray-Chemical company has established Oregon headquarters in Medford. This company was organized in 1907 in Watsonville, California and has now become one of the largest insecticide manufacturers in the world.

Its research staff with William H. Volek at the head is constantly improving insecticides and discovering new ones for pest control. The process used in manufacturing dry arsenate of lead is one of Mr. Volek's contributions. More recently his development of highly refined oil sprays has made it possible to control many orchard pests that previously could not be controlled economically. Dr. W. S. Itegan, well-known authority in the northwest as an entomologist is a member of this research staff.

E. E. Luffner, general manager and Mrs. Luffner recently visited Medford for several days on a tour of the Pacific northwest.

Irving C. Dake, district manager and family have located in this city. A supply of Volek and Orthol K will be warehoused with E. W. J. Hearty Co. on South Front St., so that all dealers may draw on this stock or send their orders there after it, according to Mr. Dake.

FULLER REFUSES TO MAKE RACE

An open letter addressed today to Attorney Evan Reames of this city by John H. Fuller of Ashland kills a move fostered by the attorney for Fuller to enter the primaries next Friday for the republican nomination for one of the state legislators from this district. If he had accepted to run, Fuller's name would have had to be written on the ballot.

The letter is as follows: "While I am deeply appreciative of the fine compliment which my Medford and Jackson county friends have paid me in suggesting that I stand as a candidate for the legislature in the coming election, I do not feel that I can consistently accept the nomination at this time and I urge that you write in some other name as the candidate to contest for this high honor.

Sincerely, "JOHN H. FULLER," Ashland, May 14, 1928. Clean rags wanted at the Mail Tribune office.

On Which Side Is Your Property? Good Fire Insurance Risks Need No Longer Pay For The Bad!

You can't expect the owner of a well-groomed building to bear the burden of another's carelessly kept property. Yet, it's being done! The bill for fire hazards and losses is too often footed by the conscientious building owner in high fire insurance costs. The great success of the GENERAL OF AMERICA lies in correcting this condition.

GENERAL insurance can be had for good risks only. Bad risks simply cannot get GENERAL insurance! Hence losses are reduced, savings increased, and holders of GENERAL'S participating policies have the advantage of dividends that have never been less than 20%.

If you own a good risk—one that will pass the GENERAL'S requirements—you are entitled to these remarkable participating policies backed by full stock company indemnity. GENERAL'S capital is \$1,000,000; policyholders' surplus of \$2,000,000, and total resources of more than \$5,000,000. Let us provide you with complete information (no obligation).
