WOMEN OF CITY, COUNTY ASKED TO SUPPORT FAIR

Do the women of Jackson county realize that this tax measure which appears on the special ballot Friday regarding the fair ground measure, is of vital importance to every one of us, whether we are club women or not? When the woman's building was erected six years ago, the original plans called for a larger wing to be built on each side of the main room. The first year the building was large enough as it stands.

The second year it was crowded. The third, we moved the flowers and art into the entrance to the merchants' building. We have long ago outgrown that, and we must have more space.

Last year, we all missed the large, artistically arranged exhibition of women's work. We all want to see what others are doing. We need the incentive and the inspiration and every woman in Jackson county wants the Jackson county fair to continue year after year, and if this dream is to become a realization, we must all get busy Friday and vote "YES" to measure 300.

If this measure carries, we are promised two new rooms—one to the north, and one to the south of our present building. If this measure fails to carry, we will probably never have a Jackson county fair again, and we will watch our cherished women's building gradually become a wreck.

Women of Jackson county are awake. We know the value of the ballot. We must do our part, and do it well. Please do your share. Vote 300 "Yes."

Into this group is projected young Gary Cooper as the American newspaperman who wishes to die because of supposed faithless-ness on the part of his sweetheart. The high spot in the story comes when Cooper is forced to carry the sweetheart (Fay Wray) across the German lines as a spy. In many of the flying sequences

SHEARING SHEEP CUTTING ALFALFA AT TABLE ROCK

Mr. and Mrs. H. W. Davison are visiting in Portland this week. Their daughter, Mrs. Ray Wyatt, is taking care of the store during their absence. Sheep shearing is in full swing here, with O. T. Wilson and Nate Milkoski of Sams Valley contracting the larger part of the work. The first cutting of alfalfa hay was begun on several farms here this week, and weather permitting, will be general in the course of another week.

Mel Atkins visited relatives here Sunday, while on his way to the Klamath sheep camps, where he has a shearing contract. It is said that traffic will be held up during the redecking of the Bybee bridge for some two or three weeks, commencing about June 1. The holdup, however, will be only during the eight-hour working day.

Many from here attended the field meet at Antioch last Saturday, and all report an enjoyable and interesting time and feel that Prof. Nedry of the Antioch school is entitled to much praise for the way he handled the affair.

Those who attended the high school play at Sams Valley last Friday night were highly pleased with the entertainment and claim it was one of the best ever put on by that school.

Those who believe in a county fair—and we believe nearly every-one does—should not fail to go to the polls next Friday and vote for the one mill levy, thus assuring a permanent plant with all buildings completed and an up-to-date exhibition every year.

A well arranged program, consisting mostly of musical numbers, is being prepared to celebrate the closing of our school next Friday night. Among the special features will be a six-piece orchestra from the Medford school of music and a talk to the young people on higher education by Rev. Mell of the First Christian church of Medford. There is no admission charge and everyone is invited.

Break the Anderson-Chaney-Talent Ring

Anderson Talks of the Record of Chaney

Chaney had a chance to make himself famous throughout the United States in the DeAutremont case. He muffed it. "He didn't have anything on the ball." Jackson county hired George Roberts, and paid him \$2000 for doing Chaney's work for him. Like water seeking its level, Chaney became the court room usher of the DeAutremont case.

He started out like a lion in the Talent case, but the going became too hard and he withdrew and the Attorney General sent a lawyer to take up the burden.

He got into trouble over his revolving fund, whose remarkable gyrations the grand jury finally solved, and it was a "secret" no longer. Did the dry members of the bar rush to this great champion of the prohibition law? (according to Anderson). They did not! George Roberts and Porter Neff, both avowed wets, did the rushing—they defended him without fee, so they say. They are good lawyers, both. Something odd here, friends. Do you suppose Chaney is trying to play both sides against the middle; is he talking dry to the drys and wet to the wets? Remember the injunction in the Bible, "Because ye are neither hot or cold I spew ye out of my mouth." Can either the drys or the wets trust this man?

Are you going to return to office a man who can neither prosecute for Jackson county when she is in dire need of a prosecutor, or defend himself when he is attacked?

Nominate Allison Moulton, a hard-fighting court lawyer, for District Attorney of this county, on the Republican ticket. "DRIVE THE MONEY-CHANGERS OUT OF THE TEMPLE," as the Christ did long ago.

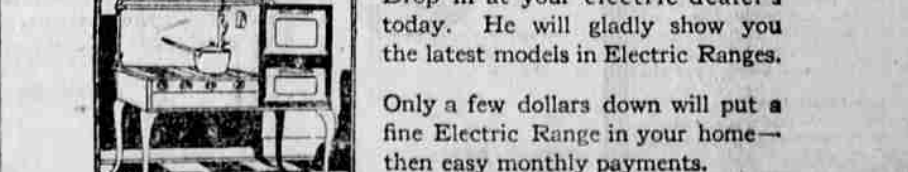

(Paid Adv) Moulton for Dist. Attorney Club.
