

TALENT WOMEN TOLD OF EARLY LIFE IN OREGON

TALENT, May 17.—The Community club met Wednesday afternoon at the club room and was delightfully entertained by Mrs. Satchwell with a most interesting account of early life in Oregon, most especially interesting was the naming of the Rogue River, and the Rogue River valley. From this account, the early settlers called the Indians which were located in this valley "rogues" because of their depredations and attacks on the settlers and thus because it was considered the Indians' river, it was called the Rogues' river, the Rogues' valley, and was handed down as the Rogue River valley. Mrs. Satchwell also read the beautiful poem, written in memory of the early settlers, whose names are engraved on the tablet, which was erected at the Blue Flower lodge, and which was read at the unveiling of the monument. Mrs. Satchwell was accompanied by Mrs. Joe A. Thomas, both of Medford. After these interesting papers were read, the club proceeded with the regular routine of business.
