Two-Crop Land

When you can cut a good crop of hay or grain and then follow with good crop, cabbage or cauliflower, and get within reach of buying the land with one year's production, you are doing justice to yourself.

We Offer That Kind of Investment in Six Acres

And, like the Model House, it is "Ready for Inspection." It is close to town, and by having the plants ready for July planting, a fine crop of cabbage or broccoli will be ready for Christmas sale. Where can you equal it? No cumbersome water rights, but water available for irrigation.
