SETTLEMENT NEAR IN SUIT DOOMED RADIUM WORKERS

NEWARK, N. J., June 1.—(AP)—Proposals for settlement of the $1,250,000 suits of five women said to be dying as a result of their work in the factory of the United States Radium corporation at Orange, N. J., today were before attorneys.

The proposals were advanced by Federal Judge William Clark, who is acting in a private capacity, at a conference yesterday among officials of the company, their insurance backers and lawyers for the women.

Several physicians have said the five women are dying of radioactivity in their bodies, caused by absorbing radium when they touched to their lips the brushes they used in the factory to paint luminous dials on watches.

The five are: Katherine Schaub, Quinto McDonald, Grace Fryer, Edna Huesman and Albina Larice.

The proposals call for an annuity, full settlements for money spent for medical treatment and insurance to go to thier families when they die.
