By Arthur Brisbane  
The Very Latest.  
His Master's Crib.  
The Glass and Dough.  
The Gibson Candidate.

Learn what Editor Coblentz reports as "latest political dope from Washington." You need not believe it, but this is how it goes:

"Coolidge for President, Hoover for Vice-President. Coolidge to resign at the end of two years, after serving as President for exactly eight years, or two full terms."

President Coolidge spending his summer vacation in Wisconsin reminds you of Ruth, only, unlike Ruth, President Coolidge, "amid the alien corn and middle western farmers, will defy criticism of his McNary-Haugen veto. Every farmer will admit that the President has the strength of his convictions, and farmers like that."

"The ox knoweth his owner, and the ass his master's crib." And some of our educators, newspaper owners, editors and book publishers also know their master's crib and eat at it.

One professor in Pennsylvania told the federal trade commission in Washington Thursday that he had been paid \$250 apiece for three lectures on public utilities.

The professor was not doing "under cover work" for Pennsylvania utility corporations. The corporations, it seems, simply wanted to eliminate incorrect opinions about their business.

"The bootleg and bandit businesses grow and improve hand in hand." That was the first command of bandits, holding up Broadmoor Country club near Indianapolis.

"Throw the glass and the dough in the sack," was the second command, when the bandits lined up against the wall two hundred ladies and gentlemen enjoying a dance. "The glass" meant diamonds and the other jewelry. The collectors of "glass and dough" made their get-away.

Will Rogers is nominated for President by Charles Dana Gibson and his able son, Langhorne Gibson, in their publication, "Life."

Rogers, who says he "chews to run," calls his a "bunkless campaign," and "the nomination leaves me dazed, and if I can stay dazed, I ought to make a splendid candidate."

Will Rogers is young and doesn't realize how much truth there is in that. An election to the presidency dazes a man so thoroughly that it takes him about four years to get over it. And by that time they are thinking about another candidate.

Favorite sons of various states will meet at the Republican convention angry, because their states have been "invaded" by Herbert Hoover.

These favorite sons won't be as angry as the professional politicians. There is profit in trading one favorite son against another, or trading all of them for a consideration when the time comes. When favorite sons fade away politicians' profits fade also.

A child seven years old is kidnapped in Ohio and killed under horrible circumstances. The murder of that little girl is another achievement of our bootlegging age. Charles J. Hooper, with a wife and one-year-old child, whom

## PEKIN IS DESERTED BY CHANG ALPINISTS TO SEARCH FOR ITALIA

### Tso-Lin, Dictator of North China for Two Years, Leaves for Manchuria—Departure Is Orderly and Panic Fails to Materialize

PEKING, June 2.—(AP)—(Sunday)—Chang Tso-Lin, northern dictator, left Peking on a special train for his stronghold, Mukden, Manchuria, at 5:15 o'clock this morning.

It was understood that Chang Hsueh-Liang, son of Chang Tso-Lin, and Chiang's chief of staff, General Yang Yu-Ting, are remaining in Peking with a bodyguard to supervise the details of delivering the city under an arrangement with the Shansi government.

During the period between their departure and the arrival of the Shansi authorities, the city will be in charge of a committee of elders under Wang Shi-Chien, the northern cabinet automatically ceasing to exist.

PEKING, June 2.—(AP)—Marshal Chang Tso-Lin is leaving Peking at midnight. It is understood he has arranged for the Shansi leaders to take over the northern capital peacefully.

The railway station in Peking presented an extraordinary appearance late today, preparatory to departure of Chang Tso-Lin and his army for Manchuria.

The sidings were filled with trains, most of which were jammed with troops and officials, while the platforms were piled high with baggage of all descriptions from motor cars to perambulators.

The spaces between great stacks of goods was crowded with soldiers and numbers of men and women who hoped to obtain seats on the trains.

Motor cars loaded with all sorts of belongings continually dashed up to the station, increasing the confusion.

The northern dictator's own train, which was due to leave at midnight, was waiting in the station long before the hour of departure. A pilot train and a train containing Chang's bodyguard will precede it and trains containing the troops will follow.

Large numbers of troops were crowding through the city en route to their home province of Manchuria by road.

There were no signs of panic anywhere the soldiers were orderly and appeared in good humor. Chang Tso-Lin, who for two years had ruled northern China with the ancient capital as his headquarters, issued a circular letter containing his farewell message to the nation and declaring that he was leaving the sovereignty to the republic and to the people.

Recounting his efforts to bring peace, he said that there had been unending wars and that he had approached the state threatening disaster to foreigners as well as Chinese. Further fighting would merely add to the people's distress, he said.

"I leave Peking, taking away all the troops of my command, because I have no heart to use force to no purpose, the circular said.

TIENSIN, June 2.—(AP)—The favorite concubine of Chang Tso-Lin, northern dictator who is expected to turn over Peking to the nationalists at any moment, passed through Tiensin this morning en route to Mukden, Manchuria. They had recently returned to Peking and at that time it was assumed that this indicated the dictator's determination to stay there.

TIENSIN, June 2.—(AP)—The situation in Tiensin was extremely tense today but not panicky. Chinese military authorities took over control of the city and the railroad station in view of the imminence of a general retreat of the north-erners.

## ALPINISTS TO SEARCH FOR ITALIA

### Expert Guides From the Alps to Hunt for Noble and Missing Dirigible—More Airplanes Join Hunt—Still No Word From Missing Crew.

KINGS BAY, Spitzbergen, June 2.—(AP)—The Norwegian ice breaker Braganza left here at 8 o'clock tonight to search for General Umberto Nobile and the crew of the Italian dirigible lost in the north-ern wastes for more than a week. The weather here was fine as the vessel cleared the harbor.

KINGS BAY, Spitzbergen, June 2.—(AP)—Search for the missing dirigible Italia was given fresh impetus today with the arrival in King's Bay of the steamship Braganza, which will carry Italian Alpinists to northern Spitzbergen for a careful survey of the region.

The Braganza will wait here for the whaler Hobbly which is due tomorrow carrying Lieutenant Lut-zow-Holm, Norwegian flier, and his airplane in which the first air search for the Italia will be made.

During the day Commander Braganza, captain of the base ship, conferred with the captain of the Braganza. The present plan is to transport the Alpinists, who are eager to start out immediately to northern Spitzbergen, and put them ashore there with sledges and all necessary supplies for an extensive overland search.

When the Spitzbergen hunter, Paul Krenner, and the four Italians how out with him on skis, have searched the terrain as far as Mezel bay in northern Spitzbergen, Krenner, with one of the Italians, will go to Advent bay to report his observations. While the other three Italians will continue the search until the Hobbly and Braganza come north with the Norwegian air expedition.

The steamer Incofort, with Captain Hobbly-Larsen aboard, probably will start north next Thursday to assist Lieutenant Holm in the air reconnaissance.

The Uta di Milano today received a message from Rome stating a big Italian hydro-aerplane will fly into King's Bay from Rome shortly with four men aboard. The plane has a radius of 2,500 miles and will make the journey in three days, taking four days.

There were no signs of panic anywhere the soldiers were orderly and appeared in good humor. Chang Tso-Lin, who for two years had ruled northern China with the ancient capital as his headquarters, issued a circular letter containing his farewell message to the nation and declaring that he was leaving the sovereignty to the republic and to the people.

Recounting his efforts to bring peace, he said that there had been unending wars and that he had approached the state threatening disaster to foreigners as well as Chinese. Further fighting would merely add to the people's distress, he said.

"I leave Peking, taking away all the troops of my command, because I have no heart to use force to no purpose, the circular said.

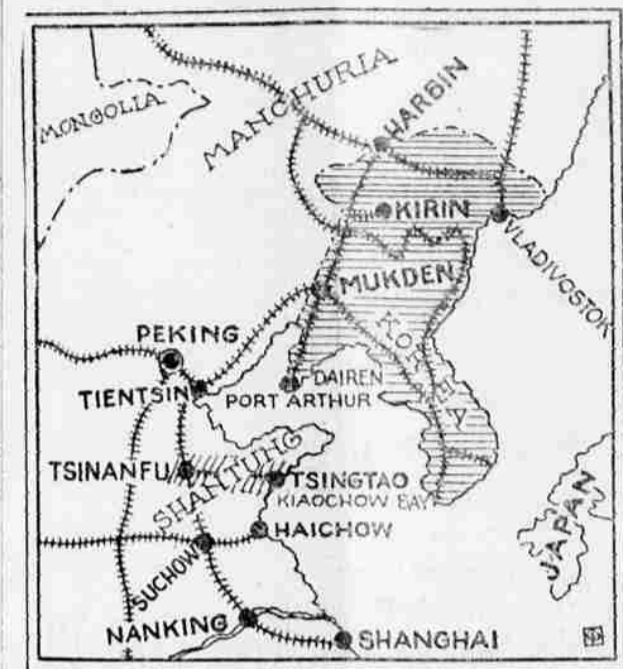

TIENSIN, June 2.—(AP)—The favorite concubine of Chang Tso-Lin, northern dictator who is expected to turn over Peking to the nationalists at any moment, passed through Tiensin this morning en route to Mukden, Manchuria. They had recently returned to Peking and at that time it was assumed that this indicated the dictator's determination to stay there.

TIENSIN, June 2.—(AP)—The situation in Tiensin was extremely tense today but not panicky. Chinese military authorities took over control of the city and the railroad station in view of the imminence of a general retreat of the north-erners.

## JAPAN EXTENDS ITS INFLUENCE OVER VAST REGION

JAPAN'S increasing influence in Manchuria and Shantung provinces, China, is attracting the attention of the world. Two Chinese papers have published the terms of an alleged secret treaty reported to have been signed by Marshal Chang Tso Lin, right, North China war lord, and the Japanese minister to Peking, by which, for a \$250,000,000 to \$500,000,000 loan "to drive out Reds," Marshal Chang grants Japan a protectorate over China's three eastern provinces of Manchuria.

This alleged treaty is said to agree further to: Lease Japan the port of Tsingtao, in Shantung province, for 99 years; grant Japan the right to construct and operate railways in north China; grant Japanese the right of residence throughout Manchuria, eastern Mongolia, Shantung and Fukien provinces, together with preferential rights to open mines, exploit forests and develop industries; cede to Japan the ports of Dairen and Port Arthur, Manchuria; lease Tsingtao and the Kiaochow bay areas to Japan for 99 years.

All these areas are shown on the map above. The Japanese-controlled area is shown by shaded lines. By control of Tainan and Mukden, Japan has been able to govern to a degree reinforcement of the Nationalists from the south and Marshal Chang's forces from the north.

## Italian Aviator Break Record for Endurance

ROME, June 2.—(AP)—Italian aviators, Major Ferrarini and Captain DePreece, landed at 2:5 this afternoon at Monticello field, having broken the world's record for a duration flight. They were in the air for 58 hours and 37 minutes.

## CORN BELT DRIVE IS LAUNCHED

### McNary-Haugen Supporters Form Organization in Chicago for a Drive in G. O. P. Convention in Interest of Farm Relief—Demand Space in Party Platform.

CHICAGO, June 2.—(AP)—A committee was named today at a meeting of prominent republicans interested in farm relief to prepare resolutions to be submitted at Kansas City on June 5.

If the resolutions are approved by the second meeting they will be taken before the republican national convention and a request will be made that whatever is decided on be incorporated in the republican platform.

The committee to prepare the resolution is composed of Senator James E. Watson of Indiana; Governor Adam McMillen of Nebraska; and George Peck of Missouri, who represented farm organizations at Washington sponsoring the McNary-Haugen bill vetoed by the president.

M. J. Tobin of Illinois, Iowa, presided at the meeting which was attended by about fifty republican leaders from the corn belt states including Senator Gerald Nye of North Dakota and several national and state chairmen.

Mr. Tobin described the purpose of the meeting as called to take action to convince eastern delegates that farm relief is necessary. "We want to make clear to the eastern delegates," he said, "that we are fighting for a principle and that we want a favorable candidate to support this principle."

At the same time the meeting was in progress here, farmers from a dozen Illinois counties were gathering at Dekalb to adopt resolutions calling for relief and to protest the veto of the McNary-Haugen bill. Many of these farmers at the beginning of the open air meeting expressed the intention of going to the Kansas City convention.

## R. S. HAMILTON OF BEND AFTER JOHN CARKIN'S PLACE

SALEM, Ore., June 2.—(AP)—R. S. Hamilton of Bend, who is a candidate for the speakership of the 1929 session of the state legislature, said here today that he has an assurance of 75 or 80 votes which he will need for that office. Hamilton said he believed there is no chance of his election. Of the old members of the legislature who will again be members, Hamilton claims 22 and says he is assured of the votes of five new ones. One of his supporters, Theodore P. Cramer of Grants Pass, was nominated in the recent primary election, but has withdrawn to accept a position in Portland with the state bankers' association, which has reduced Hamilton's assured vote by one.

Hamilton will see several Willamette valley members today, with a possibility, he believes, of adding to his strength.

The fight for the speakership apparently has slumbered down to two contenders, Hamilton and Frank J. Lomenagan of Portland, who has been given the pledges of the Multnomah delegation. Lomenagan has been campaigning in upstate counties, but Hamilton doesn't think his own cause has been damaged.

## ONLY 64 WOMEN G. O. P. DELEGATES

WASHINGTON, June 2.—(AP)—The women of America, constituting 48 per cent of the eligible electorate, will be represented at the 1929 republican convention by less than six per cent of the delegates. Final returns from all states, except West Virginia show a total of 64 republican women delegates in a total of 1089 as compared to 159 with 111 votes at Cleveland four years ago.

Women delegates this year will number 229, exclusive of West Virginia, as compared to 279 in 1924. Four years ago 299 women were delegates or alternates.

## PRINK CALLISON SEC'Y HOOVER \$5,000,000 YR. TO REMAIN AS HIGH S. COACH

### Contract Signed Today By Popular Athletic Director—Outlook for a Champion Football Team This Year Bright.

Prink Callison, coach of the Medford high school, today signed a contract to coach local school athletes for another year, to the general delight of citizens and students. Coach Callison for some time considered offers from the Longview, Wash., high school, and a Portland high school. He will leave tomorrow to spend the vacation period visiting with his mother at Eugene, and later may invade the scholastic or the league camps for some strenuous effort before returning here the last week in August.

Prospects for the football team next fall are bright. Eddie Demmer, the best high school punter in the state; Clifford Moore, halfback; Howard Newlin, halfback; Stanley Bowen, end; and Stanson, alternate quarterback, are lost by graduation. In their places will be Orin Cook, half AI Melvin, quarter, and "Sweet" Anderson, a mope of a kid, out last year because of ineptitude. Bill Bowman is slated for an end position, being substituted for that position last season, where he made a few showings. Cookie and Anderson are good punters and Melvin is an experienced quarterback.

All the students listed as football and basketball material, passed with credit.

The team next fall will again center around Bernie Hughes at center. The young man will leave Wednesday for Klamath county, where he will work in a logging camp. Red McDonald and Bill Morgan, tackle; Al Stork, guard; Jack Hughes, guard, also plan a lot of hard work this summer, and will be back in school in the fall. It will be the last year for all of them. There is also a raft of new and husky material for a team in sight.

The schedule dates unfixed, besides the usual games with the Ashland school, include contests with Eugene, Corvallis and Marist field, and Clatsop is under way with The Echo and Salem. The Chemawa Indians are also being considered. All of the above games with the possible exception of Seaside, will be played in this city.

## Kuhn Loeb Partner Tells Senate Committee General Sentiment in Financial Circles Against Secy. of Commerce—Tammany Not Political Organization

NEW YORK, June 2.—(AP)—The general sentiment in Wall street is against the nomination of Herbert Hoover, Lewis E. Strauss, of Kuhn Loeb & Company, testified today before the senate presidential campaign investigating committee. Mr. Strauss, a former secretary to Hoover, made this statement when he was asked if his firm had made any contribution to the Hoover-for-president fund. While his own banking house gave no money, Strauss said, he personally had raised around \$50,000 for the committee's campaign fund.

He said John Rosenwald, chairman of the board of Sears, Roebuck & Company, had contributed \$10,000; Henry I. Moses, a New York attorney, \$25,000; and V. E. Macy of New York, \$20,000. Strauss told the committee he had sent some of the money to the Washington Hoover headquarters and that he still had some on hand. He was directed to furnish a complete list of contributions and a complete list.

NEW YORK, June 2.—(AP)—Tammany has made a contribution to the campaign fund of Governor Alford E. Smith, George W. Olvany, a member of the Tammany society, testified today before the senate presidential campaign investigating committee.

Denying that Tammany is a political organization, Olvany said it was a patriotic society which has its headquarters in "a place called Tammany hall."

"Tammany society is a patriotic one and does not take part in politics," Olvany said.

"In the minds of the public Tammany is regarded as a political organization," said Senator Barkley, democrat, Kentucky.

"That's because the democratic committee of New York has made its headquarters in a building known as Tammany hall, owned by the Tammany society," Olvany said. "It's there I subscribe only."

"The Tammany society has nothing to do with politics," Olvany declared. "It is a society which was organized 100 years and more ago by act of the state legislature. George Washington was a member of it. It took the side of the poor as against the rich."

## RADIO SUCCESS WAS BIG FEAT OF AIR FLIGHT

### Southern Cross Contact With World Thru Radio Regarded As Big Achievement of Latest Successful Air Hop to Honolulu.

HONOLULU, June 2.—(AP)—Determination to continue their flight to Australia, Major Ferrarini and Captain DePreece, who landed at 2:5 this afternoon at Monticello field, having broken the world's record for a duration flight. They were in the air for 58 hours and 37 minutes.

Face to face, in the largest hangar at Wheeler field, the Southern Cross rested last night with the tri-motored Bird of Paradise, the plane in which Lieutenant Maitland and Hagenberger made their epochal flight in 23 hours and 56 minutes, the Southern Cross made the cruise in 27 hours and 25 minutes.

The aviators were faced today with making a decision as to their next landing place; Suva, 2144 miles distant or the Isle of Opoia, at British Samoa, approximately 2500 miles from Hawaii. The next hop is recognized by aviators as the most perilous of the journey and the facilities for landing at Opoia were recommended by the British consul here as being better than those at Suva.

However, the authorities at Suva were going ahead with preparations to receive the Southern Cross, reports received from there said that the municipal council had ordered a number of trees chopped away to provide sufficient clearing for a landing as well as a take-off for the third hop to Brisbane, Australia, a distance of 1795 miles.

Captain Kingsford-Smith planned to spend most of his time today at Wheeler field in making a thorough examination of the Southern Cross. If the craft is found airworthy, it will be flown to the island of Kaula, one of the nearby Hawaiian group and from the parking sands runway there, the second hop will take place.

Prior to the inspection, Captain Kingsford-Smith said the Southern Cross had shown such airworthiness that he could say definitely that the take-off from Barking Sands would be made soon—not later than next Monday, unless poor flying weather prevents.

The gasoline tanks of the Southern Cross will be loaded with 200 additional gallons on the next hop, 1500 against 1200 carried on the Oakland-Honolulu trip. C. T. P. Elm, co-pilot of the Southern Cross, said last night that two landing proposals at the Island of Opoia would be made only in event that the party discovered upon nearing Samoa that the gasoline supply is insufficient to carry them to Suva.

After their arrival yesterday, the four airmen slept at the Waikiki hotel. A small dinner was held in their honor last night and they planned a visit today to Governor General Wallace R. Farrington, who was at the field yesterday to greet them on arrival.

Whether the radio beacons would be used on the flight from Barking Sands was a question which awaited later decision. Army authorities stood ready today to arrange the radio beacon service if requested.

On the flight to Honolulu, the radio beacon functioned perfectly for the first three hours when it was lost by the Southern Cross. The famous directional signals, which were intended to keep the plane on a true course, were never picked up again by the plane and Lieutenant Commander Harry Lyon, navigator, kept the plane on the course by dead reckoning. As a check James Warner, the radio operator, kept up a steady stream of communications with ships and shore-stations.

Aviators considered the 1700 outstanding feat of the flight to be the exceptional success of these radio communications.

Outsider Wins Classic. NEW YORK, June 2.—(AP)—The 62nd renewal of the classic Suburban handicap, \$10,000 added at Belmont Park, today was won by Delant, an outsider. Chance shot was second and Seapa Flow third.

## Death Toll of the Automobile

RUBENKA, Cal., June 2.—(AP)—Dr. Francis Bayne, retired dentist, was killed here yesterday when his light truck left a mountain road 5 1/2 miles southeast of Rubenka, on the Koreska-Hed bluff route. Dr. Bayne's body was crushed between the car and a tree, his wife, who escaped injury, walked three miles to summon help.

## EX-SECY. MEREDITH IS IN SERIOUS CONDITION

DES MOINES, Iowa, June 2.—(AP)—E. T. Meredith, local publisher and secretary of agriculture in President Wilson's cabinet, is critically ill at his home here, his personal physician announced today.

Mr. Meredith, it is understood, is suffering from high blood pressure and resulting complications. Several weeks ago he returned from Johns Hopkins hospital at Baltimore, where he had been under observation.
