

SCHEFFEL GIVES OUT REPORTS ON STREET CONDITION

Two complete reports were made to the city council last night, one about the progress of paving, and grading and graveling of streets already under way, and the other concerning petitions for paving, grading and graveling, or sewers, on other streets, both by City Engineer Fred Scheffel.

His report on the various petitions requesting improvements showed the number of lots on each street, number of residences and vacant lots, the assessed valuation for each lot, and a summary for each asked improvement.

His summary on these was as follows:

"North Beatty street has but three residences which are badly in need of sewerage; however, the balance of the lots are vacant.

"The three lots requesting sewer on West Main are vacant. E. C. Corn constructed the sewer line from the intersection of Columbus avenue and West Main to the west line of lot 4, block 1, Creston Heights addition, and is now requesting the line be extended and he be reimbursed for the work he did under the city's supervision.

"All property on West Tenth street is very much in need of sewerage as the septic tanks in this district are overflowing.

"Five new residences have been constructed on Glen Oak court, and it will be necessary for the property owners to have the street graded before winter.

"The petitions requesting paving are Portland, Tripp, Arcadia, Spencer, Almond, and Park avenue. Spencer street is the only street which is not built up with residences; there is only one house on the improvement, being the house owned by E. L. Childers.

"The bid for grading and graveling Park avenue has been let to the J. C. Compton Co., and a majority of the property owners are now requesting the street be paved.

We endeavored to have a petition circulated and signed by all the property owners, which is necessary to make the change without re-advertising. This we were unable to do as four of them are unfavorable to paving. The majority of the property owners are now asking to re-advertise and we have presented a new petition. The J. C. Compton Co. has consented to waive its bid providing it is allowed to do the grading."

The report about the progress of the street work already under way was as follows:

Paving

"The concrete has been laid on King street from Oakdale avenue to Dakota avenue. There are six intersections to be filled in with asphaltic pavement requiring about a week or ten days' work.

"Ivy street is graded from West Sixth to West Second street and

the contractor will commence the pouring of the concrete on Wednesday morning.

Grading and Graveling

"Lincoln street is complete with the exception of the clay binder and surface coat of gravel.

"Western avenue is complete with the exception of the clay binder and surface coat of gravel.

"Haven street from Columbus avenue to Oak street is complete with the exception of the surface coat of gravel. Haven street from Oak street to Grape street is being graded.

"Clark street has been graded from McAndrews street to Central avenue, and the first coat of gravel has been placed from McAndrews street to Oak street.

"Welsh street is complete with the exception of the clay binder and surface coat of gravel.

"East Ninth street is complete with the exception of the clay binder.

"We have had some delay in not getting gravel enough to supply both the paving and graveling work. It is necessary to alternate the material available."

HIGHWAY CONDITIONS

Medford-Crater Lake Highway

Road and touring conditions sometimes change very quickly. The information given below was correct as of date of issue, but the motorist starting on a trip will do well to inquire at the nearest branch office of the motor association in order to get up-to-the-minute data.

Columbia River Highway and Old Oregon Trail

Oiling operations are under way between Boardman and Irigon. Spreading top course of heavy oil which is immediately covered with screenings. One-way traffic under direction of flagmen is being maintained for a distance of not to exceed one mile where oil is being spread. Slight delay to traveling public account one-way traffic, but cars not required to travel on fresh oil.

Oiling operations will be under way during the coming week between North Powder and Baker. One-way traffic.

Spokane

Traffic is now being routed by way of Walla Walla on account of approaches to Pasco-Kennewick bridge going out by high water. Repairs will be made and traffic resumed within two weeks.

McKenzie Highway

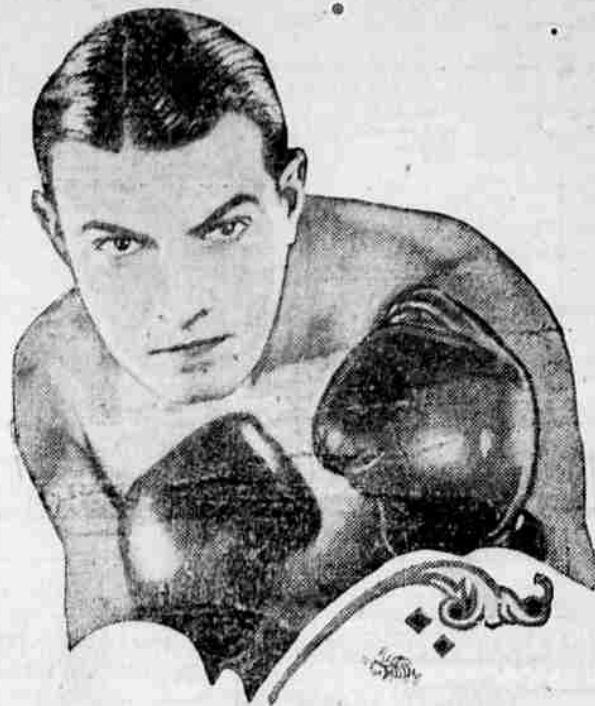

Highway is entirely dry and no trouble is encountered from snow. Highway in best condition it has been for several years. Bituminous macadam construction will be under way during coming week west of Sisters. No detours. One-way traffic.

Mt. Hood Loop Highway

Oiling operations are under way east of Swin. This road is closed to traffic east of Swin.

Bituminous macadam construction is under way between Multnomah county line and Sandy. Where detours are not available one-way

"THE PATENT LEATHER KID" AT HUNT'S CRATERIAN, THURSDAY, FRIDAY AND SATURDAY, JUNE 7, 8, 9

Richard Barthelmess in "The Patent Leather Kid"

The regeneration of an East-Side boxer, through the travail of war and the love of a woman, is the graphic story of "The Patent Leather Kid."

"The Patent Leather Kid" stars Richard Barthelmess, and is an ideal vehicle for the artistry of this young screen star, whose work in "Tollable David," "Broken Blossoms," and "Way Down East" will never be forgotten.

"The Patent Leather Kid" introduces Richard Barthelmess in a role far removed from any of the above mentioned parts. In the title role he plays a pugilist, famed for his affection of shiny black leather and the gloss of his black, unruffled hair. His cocksure attitude towards life and people, his shortcomings in such things as patriotism, respect for the American flag, concern for other people's feelings, unselfishness, are the landmarks of his character. A tremendously difficult role to essay, but one which is acclaimed a mile-stone in histrionic annals.

It also offers a new screen star, Molly O'Day, who plays opposite Barthelmess and who has proved a screen find by her clever work in this picture.

On the same bill with the "Patent Leather Kid" are two Vitaphone acts of vaudeville.

bound traffic is detoured over a good traveled road into Oregon City, but south-bound traffic is never affected.

Oiling operations under way between Prospect and park boundary.

Wheat Case Near End.

SEATTLE, June 6.—(P)—With the arguments of the Puget Sound interests drawing to a close, the inter-state commerce commission grain rate hearing appeared likely to move at an accelerated pace today, after Commissioner H. B. Meyer, conducting the hearing had urged that all attorneys connected with the case to be more speedy in drawing out their testimony.

Pacific Highway

The only obstruction on the Pacific highway is between New Era and Oregon City, where the road is being widened. At times north-

CHICAGO GIRL IS BEAUTY QUEEN OF TEXAS UNIVERSE

GALVESTON, Texas, June 6.—(P)—Adjudged the most beautiful of 42 bathing girls, 10 of whom were from foreign countries, Miss Ella Van Hueson of Chicago, today started her reign as "beauty queen of the universe."

She was awarded that title at the conclusion of the third annual international pageant of pulchritude here last night, after having been acclaimed as "Miss United States" in competition with 21 American girls Monday evening. She competed in the finale with 10 foreign beauties.

The Chicago girl was crowned "Miss Universe" by Miss Dorothy Britton of Jersey City, N. J., who won that honor last year. In addition to the right to wear a gold crown, the new queen also received a silver plaque describing her as the most beautiful of the beauty ambassadors assembled here and a cash award of \$200.

The seven judges were unanimous in their selection of the Chicagoan as "Miss Universe."

Fish Bite When Bill Shaw Hides Hair Under Hat

Red hair may be attractive, but the fish don't like it. For hours three fishermen cast their rods, but the fish came and went away. Finally Bill Shaw, who will be seen in action on the mat tomorrow night, tired of trying, put on his hat. It was then that he and his partners, Bob Hedberg and "Sawto" Henderson caught a 27 pound salmon.

Leaving here Tuesday morning at 3 o'clock the men drove to Kelly island on Rogue river, returning last night with 15 small trout and the big fish. Mrs. Hedberg entertained them at dinner later, when about half of the fish was consumed. Shaw still looked hungry, so she invited him back for breakfast this morning.

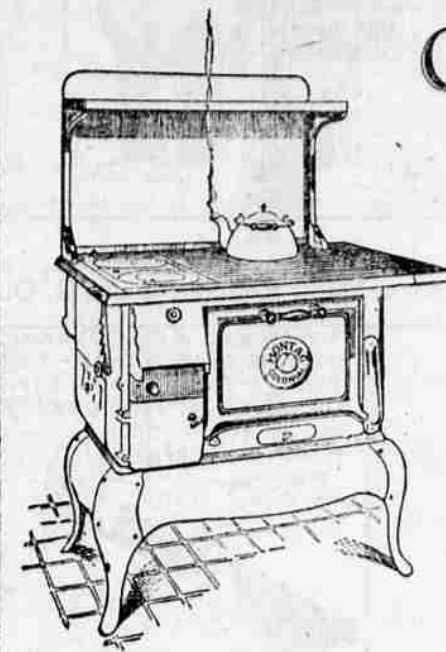

'Walking Back' at Rialto Tomorrow

A picture of modern young people on a somewhat different social stratum is "Walking Back," which comes to the Rialto tomorrow. Based on George Kibbe Turner's widely read magazine serial, "A

Ride in the Country" Monte Katterjohn has written a rapid-fire melodrama of up-to-the-minute boys and girls confronted with the modern problems of helpup men, bootleggers, wild automobile rides and screen actor, Will Walling, play the leading roles of the two "flaming youths."

MONTAG

COLONIAL Ranges

MONTAG

Colonial Cast Iron Range, full porcelain enamel in Mello-green, Canary Yellow, Mauds Red, gray or Santone; improved porcelain fireback; and 18 inch porcelain enamel French oven bottom. May also be had with drop door warming oven. Price as illustrated.
