YANKEES STRIKE A SECOND SLUMP, ATHLETICS WIN

(By the Associated Press)
The New York Yankees struck their second "slump" of the season. They've lost two ball games in a row; their defeats have at least halved their percentage and their won and lost percentages have only a narrow margin.

Friday's slump was none other than the lowly Chicago White Sox who reached up from the American league cellar to smite the Yanks for their tenth setback yesterday, 4-1.

Successive home runs by Al Simmons and Poxx in the eighth enabled the Athletics to down Detroit, 4 to 2, and cut the Yanks' lead to a mere nine and one-half games.

The St. Louis Browns consolidated their place just back of the Athletics in the standing by turning back the Boston Red Sox, 2 to 1.

The Cleveland Indians took it on the chin again, Washington walking off with a 7 to 6 victory in 19 innings. It was the Indians' 14th defeat in 17 games.

Meanwhile the National League contenders—and there are about seven of them—continued their merry cut-throat competition.

Five runs in the ninth gave the Cincinnati Reds a 1 to 0 second straight over the New York Giants, 7 to 5. Val Pichinch hit two homers.

St. Louis clung to the Red's pace-making leads with an easy triumph over the Boston Braves, 8 to 1. Grover Cleveland Alexander showing a surprising return to form.

Guy Bush out-pitched McWheeny and Ehrhardt and the Chicago Cubs took the first game of the series with Brooklyn, 3 to 1.

The Pittsburgh Pirates' holes in line-up were a fall of holes that the Phillies drove through to win, scoring four of their runs in the seventh inning.

Fights Last Night

(By the Associated Press)
CHICAGO.—Otto Von Porat of Norway technically knocked out Tony Stevano of Buffalo (2). Johnny Mason of Kansas City outpointed Haakon Hanson of Norway (10).
BOSTON.—Jimmy Maloney of Boston won from Jack Demave of Holland (10).

Onions and wool, nuts, hay, cascara bark and hops steady, unchanged.
PORTLAND, Ore., June 12.—(AP)

GRAIN DAMAGED BY RAIN, BUT FRUIT CROP BENEFITTED

The rain that fell Sunday over the Rogue river valley, was highly beneficial to the cattle ranges, and a Godsend to orchards without irrigation, according to Leon O. Harris, and did not do the damage first reported to grain, in the opinion of Col. P. L. Touyelle.
"Some of the grain was beaten down by the rain," said Colonel Touyelle, "but not as much as people say. What is down can easily be picked up with a combine. Some of my barley was that good, but the most of it still has the heads. The hay that was down will not be damaged much. Besides the rain helped the second crop of alfalfa, which is now on the way."
Shorty Morris of the Gold Hill district reports that his barley was flattened, and that it will be hard to harvest on account of "sootling." He estimates he had a \$500 to \$1000 crop of barley before the downpour.
The barley crop of the Rogue River valley this year will be larger than usual, and will bring a starting price of between \$30 and \$40.
Charles Hamilton of Rich reports that a heavy rain fell in the Applegate and that some grain was beaten down, and considerable loss in the fields dampened.
"What the orchardists need right now," said Mr. Harris, "is some hot weather to stop the dropping of fruit. Cloudy weather would increase the droppings, and we would be fighting blight if it kept up for any length of time. Orchardists that have no irrigating facilities welcomed the rain. For myself, I just got through irrigating when it started."

Wall Street Report

NEW YORK, June 12.—(AP) Total sales on the New York stock exchange crossed the 5,000,000 share mark for the first time in history today, with the ticker one hour and 54 minutes late in recording the final quotation.
Prices of standard industrials and rails were carried down one dollar to \$5 a share while specialties broke \$10 to nearly \$30 in the most drastic decline since the dramatic collapse in prices in March, 1926.
NEW YORK, June 12.—(AP) Trading facilities on the New York stock exchange were swamped today by a flood of selling orders which carried prices of many issues down \$5 to nearly \$25 a share. So great was the volume of trading particularly in the last hour that the ticker fell more than one hour behind the market, causing widespread confusion in brokerage houses throughout the country.
A violent break of more than 25 points in Bancally corporation common stock on the New York curb market started the selling movement. Radio was the hardest hit, breaking from an early high of 196 1/2 to 176, or 48 points below the year's high. General Motors slumped from 183 1/2 to 178 1/2, as compared with a recent high of 210. Wright Aeronautical, selling "ex-rights" dropped from 139 to 152 1/2, and American International from 102 3/4 to 7. Russia Insurance, Case Threshing, American Bank note and Abraham and Strause sold down 4 to 6 points.
At 4:20 p. m. the stock market was still grinding out quotations, breaking all previous records for a late closing. Total sales approximated 4,900,000 shares.

DICK PRICE WILL TRAVEL TO CRATER LAKE TOMORROW

Much activity is being shown by the staffs of both Crater National park and the Crater National Park company relative to throwing Crater Lake park open to the public for the season next week.
When Superintendent C. G. Thomson returns to the city from Portland where he went Sunday, it will be definitely known whether the Crater National park winter offices here will be moved to the park next Thursday or Friday, or a few days later.

Tomorrow morning General Manager E. W. Price and Chief Clerk of the Lodge Clyde Richardson, and a crew of six employees will leave to begin the work of preparing that big hotel for the season's opening. This crew will be augmented from time to time until the full complement is on duty by June 25.
W. P. Webber, the new resident engineer of Crater National park and a crew of eight helpers went up to the park yesterday to remain for the season. Tommy O'Neill, the efficient chef and cook of government camp last year, will hold the same position this year, and is already on duty at the park along with his helpers.

as are invented details regarding the dirigible's condition," the news agency stated.
"This report was not carried by the Associated Press."
Advice received at King's Bay yesterday from Lieutenant Holm revealed that he had been out of touch with his base ship, the Hobble, for the past five days, most of which he spent at Moseley bay where he had been forced down by fog and shortage of gasoline. During this time he saw none of the crew of the missing dirigible.
OSLRO, June 12.—(AP)—Messages from Spitzbergen today said that the crew of the Italia had lost a great part of the provisions aboard the ship for use in an emergency, when disaster overtook the expedition. Much of the other equipment also was lost.
In connection with the ice of the Arctic, the cabin and engine of the ship were smashed. It was reported that the engineer of the expedition had been killed in the crash, but this could not be confirmed and it was stated General Umberto Nobile had said nothing about it.

12:30 to 1:30 p. m.—Bebe & Knudsen Service Station.

RELIEF FOR NOBLE

(Continued from Page One)
The group of three men who became separated from the Italia trying to reach land, undoubtedly is facing tremendous difficulties. Crossing the pack ice, they must go over a zig-zag route at a very slow pace and the distance gained by hard work on one day may be lost on the next day by movement of the ice. They also may encounter stretches of open water and have to seek a circuitous route toward land.
If these men should be close to land in the vicinity of Elops bay or Dover bay, they may be able to get ashore, for the terrain is flat at these points.

Deny Rescue Report

ROME, June 12.—(AP)—Stefani, the official Italian news agency, issued a formal denial today of a report published under a King's Bay date line in the United States gov-Help, Norwegian files, that two of the injured members of the crew of the dirigible.
"This news is a complete invention," Mrs. Mabel Simen will be the accompanist for the concert.

INDIAN MARATHON SIGNS MADE HERE

An unusual piece of art work was on exhibit in the window of the Bliss Heine company on Sixth Street last night when the company displayed one of their original Redwood Empire Indian Marathon signs which they have been making for months past.
This unusual sign is four feet square, hand-painted. The scene is cut out with the electric cut-out, it taking four hours time to make one sign complete.
This electric cut-out was recently purchased by the Bliss Heine company and is the only machine of its kind between Portland and Sacramento. Mr. Heine states that they also have orders from other cities for similar signs and are working night and day to get these orders filled on time.
The scene on the above sign represents Mad Bull, the winner of last year's marathon, running thru the Redwoods. Mad Bull is again in the race this year and is expected by Grants Pass to beat his time of last year by one day because of the excellent training he has had this time. Last year he lacked this training.

STRANGLER LEWIS 10 TO 8 FAVORITE

LOS ANGELES, June 12.—(AP)—Although Nick Lutze, young Chicago wrestler, gave Ed ("Strangler") Lewis, the heavyweight champion, something to think about when they met a few weeks ago over the title route, he is on the short end of the betting odds for their championship match to a finish here tomorrow night.
Odds of 10 to 8 predominate with Lewis favored to repeat. He is given an edge in experience, weight and superior strength. In ability the two men are fairly evenly matched, according to mat experts. Lutze is considered faster on his feet, however, and possesses a juckknife scissors hold with which to counteract the headlock grip of the champion.
