

7 DAY ADVENTIST CONVENTION TO OPEN ON FRIDAY

The Seventh Day Adventist preachers of the Southern Oregon conference have donned their jeans and are busily engaged in pitching their tents and setting the grounds ready for the opening of their annual camp meeting to be held in Jacksonville, June 15-24.

Rooms in the court house will be utilized for children's meetings and the health cafeteria will be operated in the commercial club dining hall, where good vegetarian meals will be served at popular prices.

Representatives from the general conference, who have traveled extensively visiting the mission stations of the world, will be present to tell the wonderful stories of God's opening providences in health countries where the Adventists are carrying on their work.

The conference is under the leadership of Theodore B. Westbrook, president, and J. J. Zutzy. Their headquarters are located at Eugene, Oregon.

The first service will open Friday night at 7:30 o'clock with the meetings running all day until the 25th of June.

Everyone is cordially invited to attend the services.

DEVELOP PICTURES OF CONVENTION ON FLYING AIRPLANE

NEW YORK, June 12.—(AP)—For the first time in news reel history, a flying laboratory was used when moving picture film and newspaper photographs of the opening of the republican convention yesterday were developed and printed while being flown east from Kansas City.

Stops were made by this Highfield-Paramount-Associated Press flying laboratory to permit the distribution of prints along the line of flight.

The plane piloted by Bud Gurney, St. Louis air mail pilot, carried all the intricate laboratory equipment necessary for developing, printing, cutting, splicing and tiling moving picture film, as well as a dark room capable of turning out large number of "prints."

While the big plane raced across the continent, the laboratory staff worked continually. Hundreds of feet of film and still photographs made by several camera men had to be developed and prepared for delivery to the theaters and Associated Press newspapers.

GRAIN FARMERS USE CANADA AS CUT ARGUMENT

SEATTLE, June 12.—(AP)—The inland Empire farmers were prepared to continue their fight for lower export rates today before the interstate commerce commission grain rate hearing.

A comparison of agrarian conditions in the Dominion of Canada as opposed to those of the United States, has been begun at the session yesterday by the farmers' first witnesses, Nate J. Hunt, who now farms in Canada, although still a citizen of the United States. His comparison was not favorable to the United States methods of agriculture in-so-far as general conditions were concerned and he particularly stressed the point that Canadian farmers could ship their grain for longer distances at a lower tariff than their neighbors south of the line.

It was indicated from the line of testimony taken at the hearing that representatives of virtually all of the United States seeking rates more favorable to their farmers will cite the Canadian grain rate system as a leading argument for a reduction of domestic tariffs.

Railroad representatives, while apparently willing that Canadian grain rates be brought before the hearing, indicate that they would continue to protest any investigation by the commission into farming conditions in Canada.

Hunt's testimony was given under a fire of objections, except his testimony as to lower rates in Canada, to which the railroads interposed no protest.

Tramp, author and ex-prize fighter sued for divorce

LOS ANGELES, June 12.—(AP) Jim Tully, once a tramp, later a prize fighter and now a successful novelist, was charged with cruelty in a divorce complaint filed here today by his wife, the former Margaret H. Myers.

Among the allegations of cruelty set out in the complaint by Mrs. Tully is that her husband accused her of intimacy with another man, and following upon these accusations, she charged, he forced her by threats of violence to sign a statement admitting her misconduct.

Her complaint states that Tully also forced his wife to sign another statement to the effect that all her property was his separate property.

Tully, whose name appears in the complaint as James Alexander Tully, has an income of more than \$2000 a month. It is alleged, and the wife asks for alimony and attorney's fees.

The couple were married in January, 1925, and separated today. Mrs. Tully, too, is a writer.

MISSING GRANTS PASS ANGLER IS LANDED IN JAIL

TILLAMOOK, Ore., June 12.—(AP)—Sought since last July, when he disappeared in Josephine county under circumstances indicating drowning, Roy E. Johnson, former manager of the Southern Oregon Gas company at Grants Pass, has been arrested here and is held at the jail to face charges of forgery and embezzlement.

Johnson was recognized here recently by Ted Law, of Garibaldi, who had known him at Grants Pass. He denied his identity when accused by Law, saying his name was Robert Leonard. Investigation, however, convinced officers that the man was Johnson. He was arrested here Monday night and yesterday admitted his identity.

Johnson went on a fishing trip with Ralph Payne on the Rogue river and Payne missed him, finding his fishing pole on the river bank. Later Johnson's hat was found in the stream. Officers suspected that he was not drowned and a search was instituted.

MINERS QUARREL RESULTS FATALLY, TWO MEN HELD

GREAT FALLS, Mont., June 12.—(AP)—John Caterno, 44, a coal miner, is in the county jail charged with murder, and "Big Nels" Olson, also a coal miner, is being held as a material witness in connection with the finding of the body of Billy Matson, Sand Soule coal miner, slumped in a coupe at a coles near here with a knife wound in his heart.

Caterno, who is suffering with a deep rash over his left eye, has been unable to tell authorities details about the stabbing, other than to say that he used his knife in self defense. First information concerning the affair was secured when Nelson went to Sand Coule to seek treatment for knife wounds in both arms.

"There's a dead man down there," Nelson is reported to have told the physician attending him. A search revealed Matson's body in the car which is believed to have been pushed into the coulee.

CARKIN PRESIDES AS A GOVERNOR

SALEM, Ore., June 12.—(AP)—John H. NOTED ORGANIST HERE JUNE 21ST

Medford's good fortune is again evident in the securing of Frank L. Sealy, famous New York organist, for a recital June 21.

Mr. Sealy is coming to the coast on his vacation and, though many friends are anxious to hear him, he has set an absolute limit of six to his concert appearances on the west coast. It is due to Medford's strategic location between San Francisco and Portland, and the kind offices of friends in Portland and Eugene, that the people of the Rogue River valley are to have the privilege of one of these appearances.

For eight years Mr. Sealy has been organist of the Fifth Avenue Presbyterian church, New York.

Sour Stomach "Phillips Milk of Magnesia" Better than Soda

Instead of soda hereafter take a little "Phillips Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.

For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. It neutralizes acid fermentations in the bowels and gently urges the souring waste from the system without purging. Besides, it is more pleasant to take than soda. Insist upon "Phillips."

Twenty-five cent and fifty-cent bottles, any drugstore. "Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Co. and its predecessor Charles H. Phillips since 1870.

WHEN the Improved Kotex was perfected it was sold without announcement of the fact that any changes had been made. The improvements in Kotex are exclusive. The first is an improved shape—one that means no awkward bulkiness to mar smooth, fashionable lines. The other, a fleecy softness never known before. The two mean almost unbelievable comfort—a total peace-of-mind found with no other pad. But the women of America were quick to find out the improvements. And within a few
