Miss A. P. Livingston of the Old Stage road is a guest at the Fairmont hotel in San Francisco.

NEW POSTAL RATES HERE TO GO INTO EFFECT ON JULY 1ST

There are many changes to be effected July 1st in postal rates of various classes of mail matter, and the official bulletin telling of these changes, which for the most part provide for a reduction in the present rates, has been received by Postmaster Wm. J. Warner, who was busy today in studying the lengthy bulletin explaining the various changes made by the present congress. However, no official word has yet been received as to the reduction in air mail postage made by congress, or when it goes into effect.

Probably the most important popular change going into effect July 1st is that the rate for sending a postpaid letter will be one cent instead of two cents, as now.

A reduction is also made in the sending of 4th class or parcel post matter. For local delivery of parcel post the new rate will be 7 cents for the first pound, and 1 cent for each additional 2 pounds.

The various zone rates will be as follows: First zone, 7 cents for the first pound and 1 cent for each additional pound; second, 7 cents for the first pound, and 2 cents for each additional pound; third, 8 cents for the first pound, and 2 cents for each additional pound; fourth, 8 cents for the first pound, and 4 cents for each additional pound; fifth, 9 cents for the first pound, and 4 cents for each additional pound; sixth, 10 cents for the first pound, and 5 cents for each additional pound; seventh, 12 cents for the first pound, and 6 cents for each additional pound; eighth, 13 cents for the first, and 12 cents for each additional pound.

Heretofore the limit indemnity on registered mail, no matter how valuable, allowed by the postoffice department has been \$100, but after July 1st a sliding fee scale will be in force as to indemnity allowed, according to value of contents, ranging from 15 cents for contents valued at \$100 to \$1 for contents valued at \$1000, the latter sum being the limit of indemnity.

The rate on third class matter will be 1 1/2 cents for each two ounces or fraction thereof up to and including 8 ounces, except the sending of library books, the rate for which is three cents a pound or fraction thereof, with certain limitations.

The changes are many in all classes of mail matter, and as a whole will result in considerable money saving.

A YEAR AGO THE 3 D'AUTREMONTS ADMITTED CRIME

Today is the first anniversary of the confessions of the D'Autremont brothers, Siskiyous tunnel killers and train robbers, now serving a life sentence in the state prison at Salem.

A year ago this evening, at 8:11 o'clock, according to postal department records, Roy D'Autremont started his story of the crime and the life history of himself and brothers—Ray and Hugh—that took all night and up until 10 o'clock in the morning, when the trio were haled into court and given life terms.

A year ago yesterday morning the D'Autremont twins were lodged in the county jail from Steubenville, Ohio, where they were captured, and a year ago yesterday evening about 6 o'clock a Jackson county jury returned a verdict of guilty against Hugh, with a recommendation of life imprisonment.

A year ago tomorrow the three brothers were led handcuffed through a curbs through at the local Southern Pacific depot, under guard of postal, railroad and county officers, en route to Salem.

Friday the D'Autremonts will have completed their first year behind prison walls.

CHARLES REAMES TALKS ON CANADA BEFORE THE LIONS

Members of the Lions club heard Dean J. A. Rexell, of the O. S. C. school of commerce, describe the value of business forecast charts, particularly the Babson system, at the regular weekly meeting held today at Hotel Medford.

This was the third time that the instructor had delivered the address during his week's visit here in the interest of promoting an institute for business men which will be held here August 27 and 28 under the auspices of local clubs, the Chamber of Commerce and the Corvallis extension division.

The free course of lectures, under the direction of two O. S. C. professors, H. J. Vance and E. E. Rosworth, authorities on advertising, accounting, salesmanship and management, will be of special benefit to younger men in business, the dean said. Similar institutes have been held recently in Baker and Marshfield, with somewhat results. Public meetings will be held the first day.

Dean Rexell complimented the Lions on their activities, particularly in promoting educational programs, their interest in the blind of the state, and for sponsoring the Moroni Olsen plays which will be brought here in the fall.

Describing the form of government and class of people in Canada, Charles Reames gave a short sketch of conditions in the neighboring country. About one-half of the fresh water of this planet is in Canada. This asset, together with favorable climate and other natural resources, makes the dominion a wealthy one. It was pointed out that service clubs in a large measure promote friendly relations between countries, and that it is possible that in time wars may be prevented through this medium.

J. J. Skinner was a special guest at luncheon.

Arrangements were made to defray the expenses of Ernest Scott and his wife, who will leave here July 3 to attend the convention of Lions to be held at Des Moines, July 12, 13 and 14.

Next Tuesday, June 26, retiring officers will entertain Lion lady friends at Hotel Holland during the noon hour.
