MEDFORD MAIL TRIBUNE

THE DEMOCRATIC KEY NOTE, ETC.

CCORDING to press reports, the only outbursts of enthusinsm to greet Mr. Claude Bowers' key-note speech came when he mentioned the name of ex-President Wilson, and demanded the hand of Republican oppression be removed from the throat of the American farmer.

ment of suspense and keen rivalry so important in arousing genuine enthusiasm, is absent.

In the second place, it rained in Houston last night,---a typical Texas downpour, and the roof leaked. The Democratic convention is all wet, but it doesn't like to be soaked on the outside. In the third place, the Smith forces, who are in control of

this year's convention, issued orders a month ago to muzzle the Tammany tiger, clip his claws, and parade him before the American public as a very gentlemanly and completely domestieated family cat.

Which, of course, is good politics. For one of the three serious obstacles to a Smith victory next fall is the deep-rooted prejudice both within the Democratic party, and without, "they against Tammany Hall. It was this prejudice that defeated matter Champ Clark and nominated Woodrow Wilson, thanks to Mr. Fently Bryan's all-night fight at Baltimore 16 years ago. Nor is this to this?

bryan's all-night at Baltimore 16 years ago. Nor is this purely an anti-Tammany prejudice. It is a part of that ele-mental hostility, in the American hinter-land, against New York City and all its works. This situation is what induced the astate Tammany chief-tain, Mr. Olvaney, to make that extraordinary statement that "Tammany is not a political organization." but a social and fra-ternal one. It also put the coft pedal on "The Sidewalks of there will be a beatrending squeat in the business district, due to funito, are four, getting the family auto started while Manue is buying a head of letture. ternal one. It also put the soft pedal on "The Sidewalks of New York" and found all the Tammany delegates referring to their worshipful leader as Governor Smith, instead of using the colloquial and, perhaps, convivial "Al."

Dignity, gentility, a heart-throbbing, homespun sympathy with the downtrodden farmer,—here were the high-lights of the Smith Tammany program,—and that was why this Bowers plen for the protection of the farmer's throat aroused such a demon for the protection of the farmer's throat aroused such a demonfor the protection of the farmer's throat aroused such a demon-stration. And that is also why George Van Namee proclaimed yesterday that he couldn't prevent Smith's nomination if he wished. Assuredly not. Tammany is not trying to force Smith nary unclure of join (that's the

All of which adds to the human interest and humor of the

All of which adds to the human interest and humor of the inke a nip of iodin in our drink-approaching campaign, and, of course, the hokum. AND HOW! AND HOW! AND how! AND how! AND how in another he demanded the induced the induced set of the period American farmer be given the same protection accorded the American manufacturer.

What did he mean? Does he favor giving the farmer a lower tariff or free trade? If not, then why does he oppose the Republican principle of tariff protection ?

The farmer is now protected by tariffs on eggs, wheat, heef, hides, and many other farm products. If Mr. Bowers is sineere, then he must be in favor of raising these tariffs, as high an adequate todin ration. Some some sources are the tariffs favoring the manufacturer. But how can be justify this contention, when he proceeds

to assail the Republican theory of a protective tariff, as indefend that hind one can cat raw, is the sible, and demand the tariff he reduced?

sible, and demand the tariff be reduced.⁷ Also just what does Mr. Bowers intend to do to benefit the farmer? He expressly states he is opposed to "paternalistic fresh state is valuable as a source aid," by which he means he opposes the McNary-Haugen bill. of He opposes the protective tariff, also. Then just what is the not magical plan which will give the farmer the share in national

prosperity which he deserves ! It would be interesting to know,-not in glittering generali-

ties and easy promises, but in concrete facts and figures.
