"Like Riding on a Cloud"

THAT'S what Mr. Brown said the other day after he had a new set of Lee Balloons put on his roadster.

Just how riding on a cloud may feel, we don't know, but we are old and wise enough in the tire business to know that riding on Lees give about the greatest care-free mileage we have ever heard of.

Those Lee Shoulderbits for instance. The heavy cars, Cadillacs, Lincolns, etc., will ride like a cradle on those Heavy Duty Balloons.

Then there is the DeLuxe Flat Tread, a high pressure classic, that is actually a rival of the balloon for comfort, but outstripping any balloon for mileage.

The Lee Balloon is a real resilient modern tire of rare comfort and unusual mileage.

The Leeland line—both High Pressure and Balloons—is the secondary Lee line. Every tire is an honor-built product, but the price is less than the others.

We carry this full line of Lee of Conshohocken Tires because they are the most trustworthy, dependable tires we know, and your use of them coupled with our tire service, will make your tire money go the farthest.
