A pleasing program, in charge of Lula Metzger, was presented consisting of Camp Fire selections, dances and recitations. At the close of the program the guests were escorted to the dining room which was beautifully decorated. The color scheme was red, white and blue with festoons suspended from the wall, while at the long table where brick ice cream, cake and lemonade were served dainty bouquets of red, white and blue sweet peas were placed with napkins in the same color. Unique candle holders were made as favors. Virginia Fick was in charge of the dining room. The mothers spoke of having had a very enjoyable evening. ATHENS, July 3.—(AP)—President Condouriotis has decided to invite Eleftherios Venizelos, former premier of Greece and one of the most powerful figures in the country, to form a cabinet.

MEXICO PERFECTS POLICE PLAN TO PROTECT MORROW

MEXICO CITY, July 3.—(AP)—Military precautions have been taken to protect from bandits travelers on a road that United States Ambassador Dwight W. Morrow may now be expected to use frequently.

Mr. Morrow has leased for two years a house at Cuernevaca, for vacation and week-end trips, and the army patrol against bandits has been increased on the road he must travel to reach that place.

Cuernevaca is a beautiful town of rare climate on a road from Mexico City where there have been a number of outrages against American tourists.

Since Mr. Morrow has been ambassador to Mexico he missed by a few hours a wholesale holdup on another road between Mexico City and Puebla where he was motoring.

Arrangements for the Cuernevaca lease were completed for Mr. Morrow while he was in the United States and the house was made ready for use upon his return.

At the same time a new special force of motorcycle soldiers was ordered on anti-bandit patrol duty on the Mexico City-Cuernevaca and other roads from the capital, reinforcing the previous cavalry and infantry guards which are continued.

Cuernevaca, while 4000 feet high, is 3500 feet lower than Mexico City. It is a favorite resort for those whose nerves are frazzled by or whose lungs or heart need relief from the altitude of the capital.

Movie Talent at Home

NEW YORK, July 3.—(AP)—King Vidor is back from Europe with the opinion there is no need whatsoever of importation of foreign film stars. "Starring material is going to waste in Hollywood," he says, "simply because the producers are so close to talent they fail to recognize it."

GRANTS PASS TO FIGHT ROGUE R. FISH MEASURE

GRANTS PASS, Ore., July 3.—(AP)—Opposition to the four bills, designed to close the Rogue, Umpqua, McKenzie and Deschutes rivers to further power or irrigation development, was voiced today by the Grants Pass chamber of commerce in a resolution adopted by that body. It is contended by the local chamber that passage of such measures will cripple further irrigation development in Williams, Illinois and Rogue river valleys, all tributary to the Rogue. It is also contended that no provision has been made for power development on the upper reaches of the rivers, where there could be no possible interference with fishing. Petitions sent here for signatures for the measures have secured only a few names.

GANG SLAYINGS IN CHICAGO MAY BRING SHAKEUP

NEW YORK, July 3.—(AP)—A shakeup in the New York police department appeared imminent today as detectives sought those responsible for the latest of a series of gang slayings.

The net result of a day's intensive police activity appeared to be the holding for questioning of Lottie May Dobson, 23, in connection with the bombing to death Sunday night of Benjamin Kanowitz, to the starter of whose automobile a stick of dynamite had been attached.

The girl, who was preparing to depart from her rooming house when taken into custody, was said by the police to have been a close friend of Kanowitz.

The Kanowitz slaying, however, was only one of three gang slayings in the last two weeks.

There apparently were no clues developed in the machine gun slaying on Sunday of Frankie Uale, also known as Franke Yale, Brooklyn's philanthropic gangster, and the Broadway killing two weeks ago of Edwin Jerge, reputed drug peddler.

A silver coffin, valued at $15,000 and apparently a duplicate of the one in which Dion O'Bannion, Chicago gangster, was buried, has been prepared for Uale's body. The body was claimed by Mary Uale, who last June was granted a divorce.

A dispute threatened for a time between the claims of Mrs. Mary Uale and Mrs. Lucita Uale, who said she married Uale in a civil ceremony a year ago. Mutual friends, however, effected an adjustment.

Commissioner Warren was reluctant to discuss the shakeup, but admitted he was dissatisfied with the detective bureau and that there would be some "quick changes."

TO TEACH MEXICAN CHILDREN TO LOVE THE UNITED STATES

MEXICO CITY, July 3.—(AP)—Under Secretary of Education Moises Saenz has appointed a committee of educators and newspapermen to direct a movement in the public schools to teach Mexican children love of the United States. The movement is considered the best means to promote lasting understanding and friendship between the two countries on a solid foundation since children are unprejudiced.

El Universal said today that the movement grew out of the suggestion of an unnamed American educator who started a drive in the United States and had American children send presents to Mexican children. Each present was accompanied by a letter from the American donor to the Mexican recipient.

The committee is considering the present which Mexicans will send their American friends.

OS WEST WILL SUPPORT SMITH

SALEM, Ore., July 3.—(AP)—Oswald West of Portland came to Salem yesterday and personally requested Secretary of State Kozer to send to Clem Shaver, democratic national committee chairman, a certified copy of West's election as democratic national committeeman for Oregon. The indication is that West will not relinquish his right to sit as a member of the national committee. It was said that Shaver requested a copy of the certificate.

The fight against West by some members of the Oregon delegation at the Houston convention resulted from West's pre-election opposition to Al Smith as a candidate for president. West later informed Shaver that he would support Smith at the November election.

Bank Call Issued

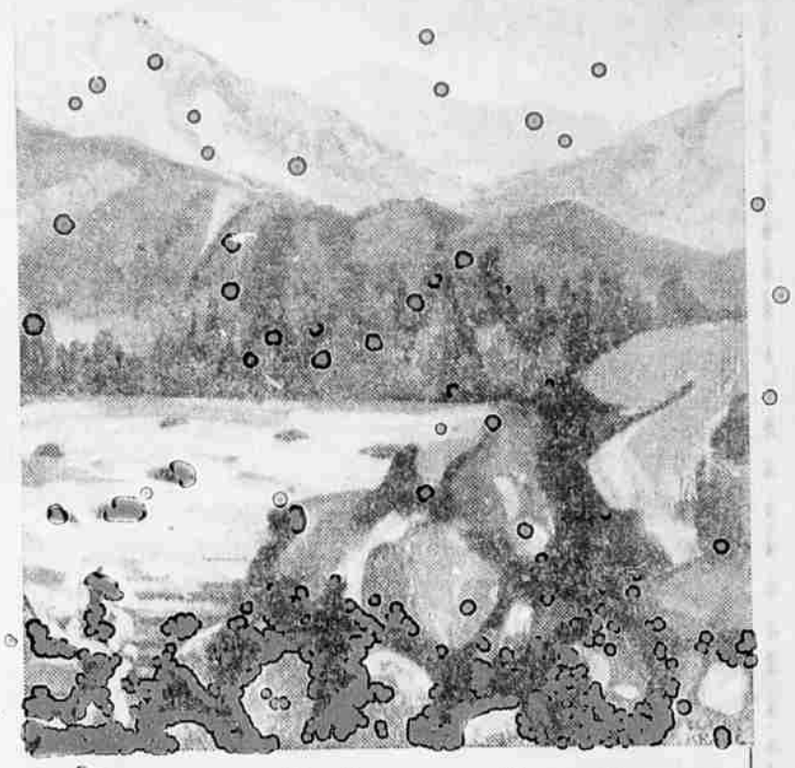
WASHINGTON, July 3.—(AP)—The comptroller of the currency today issued a call for the condition of National banks at the close of business on June 30, 1928.

"let the rest of the world go by"

Stately mountains . . . rugged canyons . . . turbulent rivers . . . calm, peaceful waters . . . cool valley retreats . . . historic spots colorful in the romance of a bygone day. That's the West for you, man—a veritable story-book land of infinite variety—a land of plenty, with scores of interesting things to do—"different" places to go—each utterly unlike anything anywhere!

Desert the beaten path on your vacation trip—your automobile club or any touring bureau will tell you where to go. Of course, you'll find some "tough going" but that doesn't matter—Castorlube will make it easier.

Get Castorlube at independent filling stations & garages



Now everybody may have it...

Castor oil, admittedly the finest lubricant, was not obtainable for general use in motor cars until the perfection of Castorlube. Castorlube is the result of a remarkable new process—a scientific blending of castor oil and the highest grade mineral oils, with all fatty acids, gums and every trace of odor removed. Castorlube gives considerably more power and gas mileage. Less carbon, vibration, friction and crankcase dilution, greater compression. Strong statements, you say, but each has been made good . . . hundreds of times. You can prove them, too... use Castorlube, and ask for it by name—it costs no more than any high grade oil.
