PARIS MUSIC HALL STAR FIRES BULLET INTO HER HEART

PARIS, July 12.—(AP)—Jenny Goldner, one of the most popular stars in European music halls, shot herself through the heart last night and died instantly. Miss Goldner was 22 years old and of Australian nationality. She had been the scene of her greatest artistic successes in recent years. The motives for Miss Goldner's suicide was not established. She entered the home in which she had her apartment at 7 o'clock and appeared to be in a happy mood. She smiled and chatted with the concierge before she went to her apartment. A half hour later she committed suicide. Miss Goldner was understood to be subject to neuroasthenic crises.

PIANO SALON AT PALMER'S FRIDAY

A carload of Gulbransen pianos arrived yesterday for the nation-wide Gulbransen salon, to be exhibited at the Palmer Music home, only three cities in the Pacific northwest were fortunate in securing this salon, and Clayton Isaac, manager of the Palmer Music home, is very proud of this achievement of his firm, also particularly pleased to be able to show the people of southern Oregon the smart new piano creations. For the smart living rooms of today, A. G. Gulbransen has designed 23 authentic, distinguished pianos, each having a creative design for a particular type of home. Among these are authentic period designs, as well as smart modern instruments. In all the advanced Gulbransen tonal qualities are expressed. To see them is to realize that the piano of today is as modern in design as the smart new motor cars. Their charm becomes irresistible when seen in the pages of a new book for home-lovers, "Artistic Interiors," profusely illustrated with interiors in many periods, with plans for reproducing them. To those interested in pianos and their arrangement in the home, Mr. Isaac announced today that he would present a copy of this intensely interesting booklet. The books of the store will be open from 7 to 9 p. m. Friday, officially to open the salon, which will give the Medford residents an opportunity to see all the instruments exactly as wished by A. G. Gulbransen. This is the first time a music firm in southern Oregon has attempted a salon, and while it is a huge task, the setting in the Palmer Music home, with its artistic decorations, color and design, everything will be perfectly blended. This salon is not conducted for the purchasers of pianos or musical instruments—it is to show the new models, just as in the large cities. Everything connected with the salon will be right, and right up-to-the-minute—make the most of it.

WILL TRY TO GET GOVERNMENT AID STATE IRRIGATION

SALEM, Ore., July 12.—(AP)—The state reclamation committee will sometime during the summer call into conference the members of the Oregon congressional delegation and endeavor to adopt a plan in accordance with which the government will be asked to extend aid to state irrigation districts that are in distress. This decision was reached after Governor Patterson, Secretary of State Kizer and State Treasurer Kays, comprising the state reclamation commission, had conferred yesterday with Dr. Elwood Mead, commissioner of the federal reclamation service. Dr. Mead agreed with the state officials that it would be wiser for the government to adopt the policy of helping distressed state districts that are already established, instead of appropriating larger amounts of money for the formation of new projects.

Chippewa Indians Beat Tom Toms But Calvin Sleeps On SUPERIOR, Wis., July 12.—(AP)—Tom-toms beat near Cedar Island lodge last night, but not loud enough for President Coolidge to hear had he been awake. A band of Chippewa Indians in feathered headdress and headed fishskin caps went through their various tribal dances at Waukegan park in the forest their forefathers cut. They were from the reservation at Odanah and will remain in the neighborhood of the Coolidge camp for the summer, as an attractive sight for tourists. President Coolidge had nothing more on today's program than additional battles with brute trout. TOKYO, July 12.—(AP)—The two-American aviators, John H. Mears and Charles G. D.
