TUNNEY TRAINS ON MILK DIET FOR THE TITLE BOUT

SPECULATOR, N. Y., July 12.—(AP)—Generous doses of milk have kept Gene Tunney from training down too fine for the defense of his title against Tom Heeney at the Yankee stadium, July 26.

Although the champion still has two weeks of work, he is now just short of the peak of condition. He weighs 187 pounds, and after a hard workout he is five pounds lighter, the exact weight he intends to carry when he faces Heeney.

Tunney restores the five pounds he loses in the ring every day by drinking three pints of milk after each session. He does not intend to let his poundage drop until the eve of the title bout. He has already reached the point where he must reduce his food work. Yesterday he ran only four and one-half miles.

Spectators are charged 50 cents to watch the champion cuff his sparring partners, Harold Maye and Billy Vidaback. The proceeds go to the little St. James Catholic church here.

The champion has a convincing explanation of so-called unorthodox training methods.

"Strength and power are nothing more than nervous energy," he claims, "and there are two ways of expending it: worry, brain work, physical effort and digestion."

Tunney gets plenty of sleep and relaxation and conserves the resulting nervous energy by avoiding all worry and eating but two meals daily to aid his digestion. Thus he can expend his energy in the necessary physical effort.

Wants Sand Island Money
PORTLAND, Ore., July 12.—(AP)—Information supportive of a claim for \$15,000 against the government for work done in clearing Sand Island in the Columbia river for seafaring purposes in 1891 has been filed with Senator McNary by F. J. Goodenough, Salem. The senator is said to have told Goodenough that he would introduce a bill providing the payment in the next congressional session.

Why suffer with Rheumatism?

You know it cannot be rubbed away

ARE you one of those unfortunate ones who suffer with pains in your muscles and joints, commonly called rheumatism, making you miserable, less efficient, interfering with your working hours, ruining your sleep?

You may have tried many things without relief. Why not try S.S.S.?

For more than 100 years S.S.S. has been giving relief in thousands of cases, as testified to in unsolicited letters of gratitude.

"I suffered with rheumatism for a good many years. At times my joints would swell so, I couldn't walk. I tried almost everything. Went to Hot Springs . . . then finally decided to try S.S.S. I took a course. In a short time the rheumatic pains entirely left me. I am now in perfect health, and want to add that I have tried all kinds of medicines but I think S.S.S. is

OLYMPIC STARS ON BOARD LINER TAKING IT EASY

ROOSEVELT, N. Y., July 12.—(AP)—A great calm has settled over America's Olympic team. After the noise and excitement of sailing and, for many, the thrill of their first time on an ocean liner, the 268 athletes who hope to bring back to America a large part of the Olympic laurel wreaths have dropped peacefully into shipboard routine and have begun to obey the first order of their coaches and trainers—to rest. Relaxation is the principal prescription for the first few days. Many of the track and field stars who competed in the final tryouts under the broiling sun at Cambridge are under weight as a result. On this list are all four men who will compete in the decathlon. An aggregate of 50 pounds was lost by the all-around performers in their grueling two-day test. Robertson plans to start exercise for most of his track squad tomorrow, but the workouts will be stationary.

PORTLAND LOSES TO MISSIONS

(By the Associated Press.)
The ordinarily mild-mannered bat of Ray French, Sacramento shortstop, went a-holding against the Soaks, when the Soaks won a 3 to 2 decision in 15 innings. With Hughes pitching steady ball, the Missions evened the Portland series at one all by trimming the Beavers, 9 to 5.

Oakland suddenly reverted to last year's championship form, and swamped Los Angeles under a 29 to 1 score. In the fourth inning the Oaks scored 13 runs on 13 hits.

Inability to hit in pinches cost Seattle a 5 to 2 defeat from Italy, and the Indians got their men on the base, but were unable to push them across the plate.

ARMAND EMANUEL IS SPARRING MATE TAKING IT EASY FOR TOM HEENEY

FAIRHAVEN, N. J., July 12.—(AP)—If Tom Heeney falls in his attempt to hit Gene Tunney's heavyweight crown in their battle at Yankee stadium July 26, it won't be because he is not used to ring conditions. Tom starts tonight to get used to the conditions he will encounter at the stadium by performing his daily boxing stunts at night under the glare of powerful lights. He does not have an outdoor ring, but the big barn in which "Honest Tom" has pitched his ring is the next best thing. The Irishman from the Antipodes got a taste of the kind of boxing the champion will offer him in his last daylight workout yesterday when he went one fast round with Armand Emanuel, the young California sensation. Emanuel went around him like the proverbial cooper going around a barrel and made him stop a good many times. However, the challenger could not display the body attack which he hopes will wear Tunney down in the 15-round encounter, as he is debilitated by request from landing any hard wallops on the California's mid-section. Emanuel made his stop at Fairhaven on the way back to New York from a climbake and was not in shape to weather a hard body attack even for one round. Heeney's demonstration against Emanuel indicated that his plan of attack may meet with some success. Although the Californian succeeded in keeping him at a distance, his blows had little effect on the rugged challenger, while Heeney put his best foot forward at the start and kept on going in that direction until the finish.

SOUTHERN CROSS HEROES GIVEN A FINE WELCOME

SAN FRANCISCO, July 12.—(AP)—Harry Lyon and James Warner, the two young Americans who winged their way into aviation history by their participation in the flight of the monoplane Southern Cross from Oakland, Calif., to Australia, last month, returned to their home shore today to receive the tumultuous acclaim of thousands of their fellow countrymen. Lyon and Warner arrived here on the Matson liner Malolo, their return from Australia being by way of Honolulu.

At the dock in front of them were two squadrons of an official committee representing the city government, headed by Mayor James Rolph, Jr.
Another committee representing civic organizations and private citizens was headed by former U. S. Senator James D. Phelan.
Aplause circled over the Malolo from the time it entered the harbor until it docked.
Bands were on hand to provide reception music.
Police detachments and bands led a parade from the waterfront up Market street to the city hall, where the fliers received formally the greetings of the city.
Thousands of spectators lined Market street, cheering lustily as the parade passed.
A purse of approximately \$10,000, raised through the Examiner, was presented to the two men as a token of esteem of their accomplishment.
Perhaps the most enthusiastic member of the returning fliers was

PROF. MICHELSON IS 'RATHER ILL'

CHICAGO, July 12.—(AP)—Varying reports during the past two weeks concerning the health of Prof. Albert A. Michelson were met today by the statement of his physician, Dr. Herman J. Koestlitz, that the famous University of Chicago scientist is "rather ill."
A bladder operation has been deemed advisable, it was stated at the Presbyterian hospital where the man who succeeded in measuring the speed of light has been under observation since Tuesday.

SIPHON LIQUOR WORTH \$3,000,000 FROM WAREHOUSE

NEW YORK, July 12.—(AP)—A man described by government authorities as "one of the biggest in the liquor game" was sought today in connection with the siphoning of \$3,000,000 worth of government whiskey and alcohol from a warehouse in lower Manhattan.
Robert B. Watts, assistant United States attorney, said confessions had been obtained from three of the six men under arrest as conspirators in the warehouse theft. He said the men sought as their leader was well known in sporting circles and had attracted attention as a liberal spender.
The confessions of the arrested men, said Watts, revealed that the booze was siphoned through a window in the warehouse into an adjoining vault, from one to ten gallons were taken from a barrel and this was sometimes replaced with water. It was estimated that from 50,000 to 100,000 gallons had been stolen. The warehouse was operated by the Cosmopolitan Warehouse corporation.
