

### AL'S OFFICES TO BE IN GENERAL MOTORS BUILDING

NEW YORK, July 20.—(AP)—Headquarters for the presidential campaign of Governor Alfred E. Smith are to be established in the General Motors building at Broadway and 53rd street.

The move from the Hotel Biltmore, where the governor's campaigns in recent years were centered, was ordered by John J. Raskob, democratic chairman, who is finance chairman of the General Motors corporation.

The entire eighth floor is being remodeled for the general headquarters, and on other floors will be quartered the democratic senatorial and congressional committees.

Temporary offices already have been established, and the first meeting of the unofficial cabinet, the members of which probably will form the executive committee of the campaign, was held there yesterday.

Attending the meeting were Mr. Raskob, Senator Peter Goulet Terry of Rhode Island, chairman of the advisory committee; Senator Key Pittman of Nevada; James J. Hoey, John F. Gilchrist, George R. Van Namee, manager of Governor Smith's pre-convention campaign; Colonel Herbert H. Lehman, chairman of the finance committee; and Mrs. Henry Moskowitz.

With the exception of the two senators, those in the group have all been advisers of Governor Smith in past years.

Canby may sell power plant to Portland Electric Power company for better service.

### GERMAN BABY IS LONE PASSENGER ON SHIP AND TRAIN

CHICAGO, July 20.—(AP)—A two and one-half year old German girl, who crossed the Atlantic alone to join her parents and brother here, has begun the task of becoming Americanized.

Nine months ago, when Hans Hoeschen and his family of four were ready to leave their native Germany for Chicago, Elizabeth came down with the measles, nearly upsetting the family plans. They left Elizabeth with her grandmother in Hanover and came to Chicago.

Hans Hoeschen prospered and sent the price of passage to the grandmother, who packed the child on board the steamship Cleveland, bound for New York, in care of the steward. At New York, Elizabeth was placed in care of a Pullman nurse and started for Chicago. Railway attendants reported the child had been an ideal traveler and had not admitted a single cry during her journey from New York.

Gets School Scholarship  
SALEM, Ore., July 20.—(AP)—Francis X. Cuppa student at Columbia university in Portland, has been awarded a scholarship in the Colorado School of Mines. The scholarship of about \$250 a year or \$1000 for the four-year course, is awarded each year to the Oregon student presenting the most acceptable record.

Three-mile Casadilla-Rancher station road, Linn county, will cost \$26,947.

### FLEEING EUREKA BANDIT BELIEVED TO BE IN OREGON

EUREKA, Cal., July 20.—(AP)—With Peter Stroff, ex-convict, admitting that he took part in the postoffice robbery at Willow Creek July 12, hunt for the third member of the bandit trio which looted the postoffice safe and later killed a deputy sheriff entered today in Oregon, where the fugitive outlaw was believed to be hiding.

Stroff confessed that he, John Bishop, and William Herder, all ex-convicts, robbed the postoffice and fought the battle with officials in which Deputy Sheriff William Carpenter and Bishop were killed.

Under questioning Stroff yesterday broke down and revealed facts in which Deputy Sheriff William Carpenter and Bishop were killed.

Under questioning Stroff yesterday broke down and revealed facts in which Deputy Sheriff William Carpenter and Bishop were killed.

Portland, Ore., July 20.—(AP) Search for William (Bill) Herder, 24, convict sought as a member of the trio which held up the Willow Creek, Calif., postoffice and killed a deputy sheriff last Friday, centralized in Portland today.

Police and sheriffs, deputies were guarding highways and scouring the city today, a few hours after the bandit car was traced to Oregon City and Herder was reported seen in Portland.

R. E. Bell, night attendant at a garage, set police to work with renewed vigor when he reported today that Herder was at the garage between 4 and 4:15 a. m.

Bell said he saw Herder's picture in a newspaper about 6 a. m. and recognized him as the man who visited him in the garage.

The suspect, Bell said, asked if any cars were leaving for Spokane. The man's eyes were bloodshot, Bell said, and he appeared weary. Upon being asked, Bell gave the man breakfast money.

The man was a tan striped suit. Portland police took an active interest in the California case when they recognized John W. Bishop, who was killed in a gun fight which also cost a deputy sheriff his life, as a bandit who had operated in Portland. Records disclosed that Peter Stroff, who was captured and admitted complicity in the robbery, had been Bishop's companion in other jobs.

Information was forwarded to California officers. Herder, who, like the other two men, have records at Oregon penitentiary, was implicated in Stroff's confession.

Indicating that the trio of bandits spent the winter in Portland and went south in quest of loot, police learned that Herder left here July 8 in company with two men believed to have been Stroff and Bishop.

The bandit car was found deserted by the highway 12 miles south of Oregon City, late yesterday.

SALEM, Ore., July 20.—(AP)—Bill Herder, who is being sought in Oregon as an accomplice in the postoffice robbery and murder of Deputy Sheriff Carpenter at Willow Creek, Calif., twice did time in the Oregon penitentiary.

Herder was first received at the prison here from Multnomah county in 1920, to serve two years for larceny. He was discharged in June, 1922. The following September he was again committed to the state prison from Multnomah county on a four-year sentence for burglary. He was conditionally paroled in February, 1924, and turned over to immigration authorities for deportation to Russia. Until Herder's name appeared in the confession of "Dutch Pa" Stroff in connection with the Willow Creek crime, he had not been heard of by the penitentiary authorities since his deportation.

### ATTACK OF ACUTE PATRIOTISM IS CAUSE OF ATTACK

LOUVAIN, Belgium, July 20.—(AP)—An attack of "acute patriotism" induced by a parade of Belgian war victims on Sunday, is the police director's estimate of the motive which on yesterday actuated Edouard Moren to destroy the rector's laboratory on the new memorial library of Louvain university.

"Long live Belgium, France and America; they are not all boches like Rector Ladeuze," Moren shouted as he climbed along the line of symbolic heads to fumble the Belgian flag before descending to surrender to police.

The controversy over the balance trade, resulted from an inscription which Whitney Warren, American architect, had insisted should be carved on it and which the rector of the university banned. This inscription read:

"Destroyed by Teutonic fury, restored by American generosity."

The rector had an unscrupulous balustrade erected in place of that which had been prepared at the direction of Mr. Warren. In destroying this substitute, Moren executed a well-planned job. He was a construction foreman and he first sent other workers away.

Then he cut all telephonic connections, locked all doors and removed all available ladders. He armed himself with a small sledge hammer and for 20 minutes smashed at the small stone pillars while a dozen policemen stood below watching him, but helpless so far as preventing the vandalism was concerned.

"The Germans made us suffer too much to allow us to let their friends go unindicted," is what the police say he declared when he was arrested. The offense may cost him a five-year prison sentence.

Moren is 29 years old and the father of two children. He has always been considered a model workman.

Los Angeles Man Victim of Gang War on Street

LOS ANGELES, July 20.—(AP)—Killed, apparently by a hammer attack, as he drove his automobile along a well-traveled street here last night, police surgeons later revealed that August Palomito, 28, died as a result of bullet wounds.

Palomito died soon after he had been taken to a hospital. A hammer was found in the tonneau of his car, but police did not believe it to be the death weapon, although early disclosures indicated that his death came as the result of a blow from an instrument resembling a hammer. As his hands went limp on the wheel, the car ran up a driveway onto a lawn and residents of the neighborhood investigating the automobile in such an unusual place, found him slumped face downward in the front seat.

He apparently was not slain by robbers, as his money and jewelry were intact.

New Paper Money Will Be Issued a Year From Now

WASHINGTON, July 20.—(AP)—The new United States paper money which will go into circulation next July 1, in addition to being smaller than the present bills, will be signed by the secretary of the treasury instead of the registrar of the treasury, as has been done since the Civil war.

A law passed about the time of the Civil war required that the United States notes be signed by the registrar and treasurer. The revised law provides that the treasury shall issue the notes in such form as it deems proper.

The signature of the secretary of the treasury has appeared on federal reserve notes, but never upon notes of the United States.

2 Men Drowned When Freighter Hits Patrol Boat

CAPE MAY, N. J., July 20.—(AP)—Two coast guardmen were drowned and five injured today when the steamship Tubero sank coast guard patrol boat No. 113 in a thick fog off the Delaware capes.

The dead are: B. F. Haines, motor machinist's mate, first class, Pleasantville, N. J.

D. T. Hale, motor machinist's mate, second class, Atlantic, Ga.

According to the story told by the survivors, Delaware bay was covered by a dense fog and the CG-113 was proceeding slowly along on patrol duty. Suddenly out of the mist loomed the high bow of the freighter, it struck the 75-foot government boat squarely amidships, cutting it in half as though with a giant knife.

The two missing men were in the engine room and are believed to have been rendered unconscious by the force of the impact, while the other five were hurled into the sea.

50 PEOPLE PERISH IN CHINA TYPHOON

HANOI, French Indo-China, July 20.—(AP)—At least 50 persons are known to have perished in a typhoon, which swept the coast of French Indo-China, last night.

Thirty persons were drowned when the French steamer, Cap Lay, foundered after a boiler explosion at the mouth of the Songkahn river. More than 200 persons were rescued before the ship was dashed on the rocks.

Twenty Annamite natives were drowned when a launch sank in the Halphong river. Dozens of junks and sampans were sunk at Hanoi and Halphong, and much material damage was done in the neighborhood.

### EX-LOWDEN MEN IN IOWA VOTE TO SUPPORT HOOVER

DES MOINES, Ia., July 20.—(AP)—Support of Herbert Hoover and confidence in his ability to offer a constructive solution of the farm relief problem have been given by the republican party in Iowa at the state convention.

Commending the C. A. P. committee yesterday for its statement that the agricultural problem "will and must be solved," resolutions were adopted urging continued effort in behalf of agricultural legislation through an equalization law "or by some other means."

The delegates seemed to accept a message brought by Governor John Hammond, who conferred with Mr. Hoover yesterday at Council Bluffs. The governor, a supporter of Frank O. Lowden earlier in the campaign, wholeheartedly approved the qualifications of the republican nominee and expressed confidence that he would be entirely satisfactory to the party in Iowa.

A note of dissent followed the unanimous report of the resolutions committee when Major Frank J. Land of Webster City, a proponent of the McNary-Hansen principle and of Mr. Lowden's candidacy, offered from the floor a set of resolutions urging support of the McNary-Hansen bill "until some better remedy is advanced." Mr. Land's proposal was defeated.

Other speakers who urged support of the Hoover-Curtis ticket were Senator Russell W. Brookhart, Congressman L. J. Dickinson and former Governor W. L. Harding.

Wonderful Cream for Dry Skins

A new marvelous Creaming Cream is on the market, containing Cocoa Butter. It melts right into the skin, cleaning every pore of acne and dirt, and will not stretch the skin or make it shiny. It's simply marvelous in keeping the complexion. Good for sunburn. Ask for MELLO-CO Cream Butter Creaming Cream. Health's Drug Store.

### Seal-Kaps keep pure milk pure until you use it

THE ordinary milk-bottle top leaves the rim of the bottle exposed to whatever germ it may accumulate. To overcome this very real danger of contamination, we have adopted Seal-Kaps.

Seal-Kaps fit over the entire pouring surface of the milk-bottle and keep the milk pure and good up to the moment you drink it. They effectively prevent germs, dust, dirt from being deposited on the rim.

Seal-Kaps are much easier to remove. No picks or knives necessary. No milk spattering on your clothes. A twist of the fingers and this sanitary top is off the bottle. Afterwards, it makes a handy—and safe—bottle cover until all of the milk is consumed. Insure the safety of your milk supply. Telephone for your first bottle tomorrow morning.
