

### 55,000 VISITORS AT CRATER LAKE BREAKS RECORD

That the attendance at Crater Lake national park this season so far had reached 55,000 persons by noon yesterday, which is 89 per cent increase over the same time last season, and means that the season's total attendance will at least reach 100,000, is the news brought down from Crater national park today by Superintendent C. G. Thomson, who also said that the rim road is now open all the way around, and that all improvement work at the park is in full swing, including the building of the cafeteria and cabins near the rim and camp ground, which will be operated in connection with the lodge.

Superintendent Thomson also told with much satisfaction that Crater Lake national park had just received a federal appropriation of \$22,000 to construct, macadamize and oil the east entrance road of the park, between the Dalles-California highway and the entrance, which sum will be matched by the state, thus insuring that this entrance road of eight miles will be constructed and finished far better than any of the park's other entrance roads.

This work will be begun just as soon as the contract can be let, to be finished before winter comes.

### INTENSE HEAT OF LAST WEEK HURT FRUIT, GRAINS

PORTLAND, Ore., August 1.—(7)—Intense heat caused rapid ripening of spring and late winter grain, and resulted in some damage, it also caused some delay of harvest. This is reported in the weather bureau's weekly crop report. Some local damage was done by hail, and several large tracts of wheat were burned. Late fruits are being rapidly. Intense heat caused some scald on apples and pears and ripened apricots so rapidly as to unfit them for shipping in places. Early peaches and apples are becoming more plentiful.

Cows are being in milk, due to short pasturage. Some work horses were killed by heat in eastern counties, turkeys are doing well.

### S. P. WILL START WORK ON K. FALLS LINE IN 30 DAYS

SAN FRANCISCO, Aug. 1.—(6)—Construction of the proposed 97-mile railroad between Klamath Falls, Ore., and Alturas, Cal., will begin in from 30 to 60 days, when the survey now being made is completed, officials of the Southern Pacific announced here today.

### 6 KILLED WHEN GATE CRASHES

ST. CATHERINES, Ont., Aug. 1.—(4)—Killed in the crash of the huge steel gate at lock 3 of the Welland ship canal, Thorold, was placed definitely at six this afternoon when the bodies of the victims were found. Two were identified as P. Smallegro and J. McArthur, both of St. Catharines. It is believed the number killed when the huge gate plunged to the bottom of a 30-foot lock, will remain at that figure, although of the 12 injured and taken to the hospital, four may die.

### HOOPER GOES HOME

of seven inches long. The first catches were thrown back into the creek, but when it became apparent that they were as large as were to be had, Hoover kept 12 and his two companions added their catch of a dozen each. These were taken back to camp and were served to Mr. Hoover's immediate party at dinner. After trying the waters here during the day, the presidential nominee an' his party will take an evening train for San Francisco, arriving early tomorrow morning, continuing to Palo Alto by motor. Upon arriving home, Hoover will give his acceptance address his final revision and then will turn his attention to pressing matters connected with his campaign.

### British Aviator Hops From Azores for Canada Port

HORTA, Island of Fayal, Azores, Aug. 1.—(4)—Captain Frank T. Courtney, British aviator, who has been waiting for a favorable opportunity to take off from the Azores on a trans-Atlantic flight to Canada, hopped off for Newfoundland late this afternoon. The British aviator, who made an unsuccessful effort to take off on July 26, had extremely favorable weather conditions. There was a sunshiny and a moderate sea. The wind was from the north.

### CIVIL WAR PLEA USED

(Continued from Page One) "the people of the south cannot forget that the leaders of the democratic party in the north and east, and especially those of New York City, came openly to the front, unafraid, and were our most stalwart champions." "Are we now to forget," he said, "that Tammany senators and Tammany congressmen then stood up on the floor of the American congress and spoke for the south when representatives of the south were absent and their presence denied? Is it possible for the south today to forget?" "In the coming national campaign, the south has more at stake than any other section. It would be well for those who threaten to bolt or desert the democratic party to recall the close deadlock between it and the south for more than a century and a quarter."

### Moses After Solid South

NEW YORK, Aug. 1.—(7)—Senator Moses, vice chairman of the eastern advisory committee of the Hoover campaign, now believes an intensive drive should be made to secure electoral votes for Herbert Hoover in the solid south.

Senator Moses said his change of mind had been brought about by letters he had received from the south criticizing his recent statement that it would be useless for the republicans to make a drive for electoral votes there.

"My correspondents told me," he said, "that I am crazy if I think Hoover will not get the votes of the south. I am in a highly chastened mood as a result of these letters."

The bulk of his letters urging republican action came from North Carolina, Florida and Georgia, he said. Senator Moses said he was not so sanguine about Georgia, but that the reaction in the other two southern states was significant.

The senator recounted the visit to democratic headquarters here of George N. Peck, farm leader of Mobile, Ill.

"Peck farmers' demonstration at Kansas City was such a flop that even the leaders had to admit they had exaggerated the situation," he said.

### CONVENTION UNDER WAY

(Continued from Page One) for several minutes until the "village" is destroyed. An air stunt which is bound to take the breath of the weak-hearted is the attempt of a man to ride on the top of an airplane while it loops the loop. He will have no visible means of hanging onto the ship and will wave two flags with his hands while going through the feat. Other stunts will include wing-walking, landing near aerobatics and fancy flying.

### Notes for Dates

There will be no dull moments during the circus and stunt show, which is planned to continue for two hours. Stunts will be presented immediately in front of the grandstand by Legion posts from the various parts of the state, including Kirby, which is the nearest post to be organized in Oregon. Two automobiles, which will be on exhibition at the fair grounds, will be given to the posts winning first and second places. The stunt show alone is expected to be worth the price of admission, inasmuch as the stunt committee has been assembling properties for the past week to be used by the entrants, which will not include Medford.

In order to facilitate entrance to the fair grounds, spectators are urged to purchase general admission and box seats at the convention headquarters at the Chamber of Commerce to avoid buying tickets at the gate.

### Traffic Rules

Motor traffic en route to the fair grounds before the opening of the circus will be made a one-way system, according to State Traffic Lieutenant O. J. Nichols. Automobiles will move to the grounds in double file southbound, and all northbound cars will be diverted at Stewart avenue onto Oakdale avenue into Medford. Cars returning from the grounds, following the circus, will go back in double file and all southbound motorists will be routed through Medford onto Oakdale avenue and out Stewart avenue back to the highway. Parking of any kind will be positively prohibited, warns Lieutenant Nichols, who will be assisted tomorrow and the other two days of the convention by officers from other parts of the state.

Plans were being formulated this afternoon by the city traffic department for traffic rules governing Medford. Traffic police announced that there will be no car parked on Main street from Oakdale to Riverside, and that there shall be no traffic on Main street except for crossing the thoroughfare at Elm street and Central avenue. However, detailed plans were expected to be announced tonight.

One of the most unusual proceedings ever seen in Medford is promised by the convention, a parade of the service parade which will take place tomorrow beginning promptly at 8:30 on Main street

and continuing to Grand avenue. "Midst a riot of color, music and illumination, the ex-service men will march from Main and Oakdale east on Main to Riverside, north on Riverside to Sixth, west on Sixth to start the north on parties to Fifth." The group will disband after passing Fifth street.

Members of the American Legion, 20 drum corps and five bands will be the only participants in the parade. Proceeding the parade at 8 o'clock the Medford American Legion Auxiliary will hold a reception at the University club on West Main street for visiting state dignitaries, including Governor J. L. Patterson, United States Senators Charles McNary, Robert Steiwer, State Commander George Love and others. The reception is to be held mainly to give local citizens an opportunity to meet the visitors.

### Dances Tonight

The dances at Hillary hall will be under full swing by 9 o'clock tonight and at 9:30 the 40 of 8 Societe will hold its "Wreck," which will be the feature of the day for members of that organization. The societe will hold its annual convention at 1:30 at the armory, with 120 delegates in attendance and practically its entire membership of 1200 expected to be present.

There will be street stunts during the entire day put on by the various visiting posts and drum corps. Tomorrow evening, following the meeting of drum majors at the Elks temple at 6 o'clock, a band concert will be given in the city park by the Sheridan band and a parade stunt by the Enterprise drum corps. Another parade stunt will be given by the La Grande drum corps at 6:30, followed by one a half hour later by the Baker drum corps on West Main street, and the Housburg drum corps on South Central avenue.

Parade stunts will be given in the forenoon by Salem on Central avenue at noon and by Bend, Marshfield, Coquille, Astoria, and Portland, from 7 o'clock to 9:30. In the early afternoon stunts will be given by Hood River, Eugene and Corvallis.

### Concessions Ready

Concession stands were nearly completely constructed today for the three-day convention and a carnival at Hillary hall, on West Main street near the intersection of Elm street.

Concessions are also under construction at the fair grounds and will be ready for business tomorrow when the crowds arrive.

The convention headquarters this forenoon were crowded with visitors and local Legionnaires. Flashing torches were being put on the decoration of city streets and store fronts with bright bunting and flags, giving the city a gala appearance.

Visiting Legionnaires are reminded not to forget the three-day golf tournament at the Rogue Valley links for which a silver loving cup has been donated by the local post to the player turning in the lowest net score for the 18-hole course. Contestants are to use handicaps which they have been using on home courses. Entrants must register at convention headquarters.

The complete dance schedule for the week will be as follows: Wednesday night—Hillary hall. Thursday night—Hillary hall and Oriental Gardens. Friday night—Hillary hall, Oriental Gardens, and Fair Grounds Pavilion. Saturday night—Hillary hall, Oriental Gardens, also the Fair Grounds Pavilion if needed to accommodate the crowds.

When the American Legion parade, which is expected to be one of the longest ever seen in Medford, takes place next Saturday afternoon at 2 o'clock, all Medford stores and establishments will be closed during the parade. It was announced today. The stores will close at 7:30 and remain so until after the parade is over.

As on the other days of the convention, motor travel will be prohibited on Main street and no cars will be allowed to be parked, especially during the parade. Main street, according to present plans may be crossed in the prohibited section, which extends from Oakdale avenue to Riverside avenue, only on Central avenue and on Fir street. This is being done in order that drum corps and legionnaires, pulling stunts, will not be bothered with motor traffic, which might also endanger their lives.

Motorists are urged to cooperate with the city traffic department in every way possible to observe this ruling.

### HILLSBORO—Work well along on new courthouse and union high school

Work well along on the new courthouse and union high school in Hillsboro, Ore., is reported by the city engineer.

### When Hills Bros discovered

Controlled Roasting they extended the boundaries of coffee flavor. Only a few pounds of coffee are roasted at a time by this patented, continuous process. No other method of roasting can produce the matchless, uniform flavor that Controlled Roasting maintains for Hills Bros. Coffee.
